## **CLARIFICATION ANNOUNCEMENT RELATING TO FIRST QUARTERLY RESULTS ANNOUNCEMENT AND FIRST QUARTERLY REPORT FOR THE THREE MONTHS ENDED 30 JUNE 2018 AND RESUMPTION OF TRADING**

Reference is made to the announcement of China Oil Gangran Energy Group Holdings Limited (the “Company”) dated 14 August 2018 in relation to unaudited consolidated first quarterly results (the “First Quarterly Results”) for the three months ended 30 June 2018 (the “Results Announcement”) and the first quarterly report for the three months ended 30 June 2018 (the “First Quarterly Report”). Capitalised terms used in this announcement shall have the same meaning as those defined in the Results Announcement, unless otherwise stated therein.

The Board noted that there was an inadvertent clerical error in the Results Announcement and the First Quarterly Report. The Board wishes to clarify as follows:

- 1) *The paragraphs headed “Financial Review”, “Business Review”, “Power Cords and Inlet Sockets for Household Electric Appliances”, “Power and Data Cords for Mobile Phones and Medical Control Devices”, “Trading of Mobile Smart Phones” and “Outlook” under the section headed “Management Discussion and Analysis” on pages 2, 3, 4 and 8 of the Results Announcement and pages 2, 3, 4 and 9 of the First Quarterly Report*

### **MANAGEMENT DISCUSSION AND ANALYSIS**

#### **Financial Review**

The unaudited revenue of the Company and its subsidiaries (collectively the “Group”) for the three months ended 30 June 2018 (the “Financial Period”) was approximately HK\$26.6 million, representing a decrease of approximately 74.1% from approximately HK\$102.9 million for the comparable period of last year. Such decrease in the unaudited revenue was mainly attributable to a drop in revenues from the sales of refined oil and the trading of Methyl tert-butyl ether (“MTBE”), a chemical used as a component in fuel for gasoline engines of automobiles.

The Group's unaudited loss attributable to the Company's owners decreased to approximately HK\$11.4 million from approximately HK\$28.3 million for the comparable period of last year. The main reason for the decrease in loss attributable to the Company's owners was the decrease in share-based payment expense of approximately HK\$12.2 million for the Financial Period.

The board (the "Board") of the Directors does not recommend to pay dividend for the Financial Period.

## **Business Review**

During the Financial Period, the Group continued to operate a diverse business portfolio comprising: (i) the manufacture and sale of power cords and inlet sockets for household electric appliances; power and data cords for mobile phones and medical control devices; (ii) the trading of mobile smart phones and glasses; (iii) the liquefied natural gas ("LNG"), compressed natural gas ("CNG") and other related clean energy businesses; (iv) refined oil retail business; and (v) trading of MTBE (collectively the "Business Sectors"). Despite the challenging development in the power cords and inlet sockets for household electric appliances sector and power and data cords for mobile phones and medical control devices sector, the Group continues to diversify its operating risks and expand its sources of revenue and proactively seeks to capture a full spectrum of development strategies and investment opportunities. Prior to the Financial Period, the Group contributed capital in conjunction with two strategic collaborative partners to establish a subsidiary, Jiangxi China Oil Gangran Energy Technology Company Limited (江西中油港燃能源科技有限公司) (the "Jiangxi China Oil"), in the People's Republic of China (the "PRC") for conducting the business of the LNG, the CNG and related clean energy, for which the Group acts as its controlling shareholder and holding a 51%-stake.

In terms of the geographical market performance, United States and the PRC contributed to approximately 16% (2017: approximately 6%) and approximately 66% (2017: approximately 91%) of the Group's total unaudited revenue respectively, while the remaining revenue of approximate 18% (2017: approximately 3%) came from its other markets, including Taiwan and Hong Kong.

### ***Power Cords and Inlet Sockets for Household Electric Appliances***

The unaudited revenue of the Group from power cords and inlet sockets for household electric appliances was approximately HK\$2.8 million (2017: approximately HK\$1.9 million) in the Financial Period, representing a year-on-year increase of approximately 47.4%.

The Group's power cords and inlet sockets used in household electric appliances received safety approvals and/or certificates in many countries, many of which also conform with eleven types of international safety standards.

## ***Power and Data Cords for Mobile Phones and Medical Control Devices***

With fierce competition in the power and data cords sector during the Financial Period, the Group focused on those customer groups generating high profit margins and rigorously controlled its production costs; and the Group's unaudited revenue from power and data cords for mobile phones recorded an increase of approximately 6.6% to approximately HK\$6.5 million (2017: approximately HK\$6.1 million) for the Financial Period.

The power and data cords for mobile phones are generally used for power charging and data transfer and are essential accessories for all mobile phones. The decreasing demand for telecommunication devices, especially in the PRC, limited the Group's expansion in the market of power and data cords of mobile phones. All our power and data cords conform with the standards of mobile phone designs set by USB Implementers Forum, Inc..

During the Financial Period, the Group's unaudited revenue from power and data cords for medical control devices was approximately HK\$6.4 million (2017: approximately HK\$6.5 million), representing a year-on-year decrease of approximately 1.5%.

The power and data cords for medical control devices are multi-functional products which are mainly exported to the customer in the United States. The devices are then used for further assembly and are processed into final products (which include keyboards, pillow speakers, bed controls, bed cables and call cords to be sold to hospitals and clinics).

## ***Trading of Mobile Smart Phones and Glasses***

With fierce competition in the power and data cords sector, the Group also traded in mobile smart phones and glasses. The Group's unaudited revenue from the trading of mobile smart phones and glasses reached approximately HK\$0.1 million (2017: HK\$1 million) for the Financial Period.

## ***Outlook***

During the Financial Period, the global economic environment is still deeply fluctuating. The medium-to-long-term economic growth of the PRC has slowed down. Falling commodity price, the declining global industrial output and depressed trading added to the uncertainties. Due to the challenging macro-economic conditions, the Group recorded a 74.1% decrease in overall unaudited revenue, which was mainly contributed by the decline in the sales of refined oil and MTBE trading.

While this low-growth environment appears likely to persist in 2018 and beyond, the Group is steadfastly committed to expanding its market presence and profitability, through an operational strategy calculated to broaden its revenue bases and capture new business opportunities presented by the market developments and in alignment with the PRC's 13th Five-Year Plan and the "One Belt One Road" plan.

The significant drop in revenue from the sales of refined oil and the trading of MTBE was due to changes in the PRC's environmental regulations. A ban of sand mining was imposed in the middle and lower Gan River which caused sand mining vessels along Gan River, being major customers of Jiangxi China Oil's six bunker barges to stop operating and indirectly caused an upward fluctuation in the prices of chemical.

## 6. INCOME TAX EXPENSE

	<b>For the three months ended 30 June 2018</b>	Per original
	<b>Restated</b>	stated
	<b>HK\$'000</b>	<b>HK\$'000</b>
Current tax – Hong Kong Profits Tax		
Provision for the period	–	–
Current tax – PRC Enterprise Income Tax		
Provision for the period	164	–
Deferred tax	–	–
	<b>164</b>	<b>–</b>

Hong Kong profits tax has been provided at the rate of 16.5% on the estimated assessable profits for the period.

Tax charge on profits assessable elsewhere have been calculated at the rates of tax prevailing in the countries in which the Group operates, based on existing legislation, interpretation and practices in respect thereof.

Pursuant to the Enterprise Income Tax rules and regulations of the PRC, the PRC subsidiaries of the Group are subject to Enterprise Income Tax at a rate of 25%, except for Sun Fair Electric Wire & Cable (Shenzhen) Company Limited is entitled to a preferential tax rate of 15% for being a high technology enterprise.

## 7. LOSS PER SHARE

### Basic loss per share

Basic loss per share is calculated by dividing the loss attributable to owners of the Company of approximately HK\$11,442,000 (2017: approximately HK\$28,319,000) by the weighted average number of ordinary shares of 6,142,456,372 (2017: 5,798,028,975) in issue for the Financial Period.

### Diluted loss per share

No diluted loss per share is presented as the share options have anti-dilutive effects on basic loss per share for the Financial Period (2017: Nil).
