Number of existing Shares in issue as at the Record Date:	2,023,504,968 Shares
Number of Rights Shares	607,051,490 Rights Shares
Outstanding derivatives, options, warrants, conversion rights or other similar rights which are convertible or exchangeable into Shares as at the Latest Practicable Date:	Outstanding Options attaching subscription right to subscribe for 40,300,000 Shares
Number of Rights Shares that World Gain has undertaken, and has undertaken to procure parties acting in concert with it to take up:	World Gain has undertaken, and has undertaken to procure parties acting in concert with it, that World Gain and parties acting in concert with it will accept on or before the Latest Acceptance Time, and pay for, 182,460,450 Rights Shares to be provisionally allotted to them or their respective nominee pursuant to the Rights Issue in respect of their or their respective nominee's existing holding of 608,201,500 Shares and the number of Shares to be issued to him/her if he/she exercises the Outstanding Options held by him/her on or before the Record Date

Note: As at the Latest Practicable Date, parties acting in concert with World Gain, are interested in the Outstanding Options attaching subscription right to subscribe for an aggregate of 6,600,000 Shares, of which, 1,200,000 Outstanding Options are held by Mr. Ma Zhengwu (being the sole director of World Gain, a director of the immediate parent company and ultimate parent company of World Gain and a non-executive Director), 4,200,000 Outstanding Options are held by Mr Zhang Guotong (a director of the immediate parent company and ultimate parent company of World Gain and an executive Director) and 1,200,000 Outstanding Options are held Mr Hong Shuikun (a director of the ultimate parent company of World Gain and a non-executive Director). The parties acting in concert with World Gain who together holding 6,600,000 Outstanding Options and Mr Gu Laiyun and Ms Xu Zhen (both are non-executive Directors) together holding 3,800,000 Outstanding Options, have indicated that they will not exercise their Outstanding Options on or before completion of the Rights Issue.

The nil-paid Rights Shares proposed to be provisionally allotted pursuant to the terms of the Rights Issue represent approximately 30% of the Company's existing issued share capital as at the Latest Practicable Date and approximately 23.1% of the enlarged issued share capital of the Company immediately following the completion of the Rights Shares assuming that no Outstanding Options are exercised on or before the completion of the Rights Issue.

As at the Latest Practicable Date, other than the Outstanding Options, the Company has no derivatives, options, warrants and conversion rights or other similar rights which are convertible or exchangeable into Shares.

Subscription Price

The Subscription Price for the Rights Shares is HK$0.33 per Rights Share, payable in full when a Qualifying Shareholder accepts his/her/its provisional allotment under the Rights Issue or applies for excess Rights Shares or when a transferee of nil-paid Rights Shares subscribes for the Rights Shares.

The Subscription Price

- represents a discount of approximately 42.1% to the closing price of HK$0.57 per Share as quoted on the Stock Exchange on the Last Trading Date;

- represents a discount of approximately 43.5% to the average closing price of HK$0.584 per Share for the five consecutive trading days up to and including the Last Trading Date;

- represents a discount of approximately 43.6% to the average closing price of HK$0.585 per Share for the 10 consecutive trading days up to and including the Last Trading Date;

- represents a discount of approximately 35.9% to the theoretical ex-rights price of HK$0.515 per Share based on the closing price as quoted on the Stock Exchange on the Last Trading Date; and

- represents a premium of approximately 62.64% over the unaudited adjusted consolidated net tangible assets value per Share of approximately HK$0.2029 (calculated by using the latest published unaudited net tangible assets value of the Group as at 30 June 2006 and adding thereto the net proceeds of the top-up subscription announced by the Company on 8 August 2006, and dividing this sum total by the 2,023,504,968 Shares in issue as at the Latest Practicable Date).

The Subscription Price was arrived at after arm's length negotiation between the Company and the Underwriter with reference to the then market environment, prevailing Share prices and the recent financial conditions of the Group. In order to enhance the attractiveness of the Rights Issue, issuance of new shares by way of rights issue at a discount to the market place has been commonly adopted by listed issuers in Hong Kong. Given the relatively long underwriting period of a rights issue and taking into account the aforesaid and the theoretical ex-rights price per Share, the Directors consider that, in order to enhance the attractiveness of the Rights Issue, the discount on the Subscription Price to the market price of the Shares current or close to the Last Trading Date as proposed is appropriate. Each Qualifying Shareholder is entitled to subscribe for the Rights Shares at the same price in proportion to his/her/its shareholding in the Company held on the Record Date. The Directors consider the Subscription Price to be fair and reasonable and to be in the interests of the Company and the Shareholders as a whole.

Status of the Rights Shares

The Rights Shares, when allotted, issued and fully-paid, will rank *pari passu* with the then existing Shares in issue on the date of allotment of the Rights Shares in fully-paid form. Holders of such Rights Shares will be entitled to receive all future dividends and distributions which are declared after the date of allotment and issue of the Rights Shares.

Fractions of the Rights Shares

The Company will not provisionally allot fractions of Rights Shares in nil-paid form. All fractions of Rights Shares will be aggregated and all nil-paid Rights Shares arising from such aggregation will be sold in the market and, if a premium (net of expenses) can be achieved, the Company will keep the net proceeds for its own benefit. Any unsold fractions of Rights Shares will be made available for excess application.

Application for excess Rights Shares

Qualifying Shareholders are entitled to apply for any unsold entitlements of the Excluded Shareholders (see the paragraph headed "Excluded Shareholders" below), any unsold fractions of Rights Shares and any nil-paid Rights Shares provisionally allotted but not accepted by the Qualifying Shareholders.

Applications may be made by completing the form of application for excess Rights Shares and lodging the same with a separate remittance for the excess Rights Shares. The Directors will allocate the excess Rights Shares at their discretion on a fair and equitable basis on the following principles:

(1) preference will be given to applications for less than a board lot of Rights Shares where they appear to the Directors that such applications are made to round up odd-lot holdings to whole-lot holdings;

(2) subject to availability of excess Rights Shares after allocation under principle (1) above, allocation will then be made to satisfy applications for excess Rights Shares by Qualifying Shareholders in proportion to and up to the number of nil-paid Rights Shares provisionally allotted to those Qualifying Shareholders who also have applied for the excess Rights Shares and, subject to the availability of excess Rights Shares, applications by Qualifying Shareholders whose number of excess Rights Shares being applied for are equal to or less than the number of excess Rights Shares allocated according to the principle as aforesaid will be satisfied in full;

(3) subject to availability of excess Rights Shares after allocation under principles (1) and (2) above, any further remaining excess Rights Shares will be allocated to applicants in proportion to the excess Rights Shares applied by them after netting off their respective entitlements as calculated in principle (2) above; and

(4) in accordance with any further requirements of the Stock Exchange.

World Gain has the intention to apply for and take up in aggregate 211,470,000 excess Rights Shares and pay for such number of excess Rights Shares that may be allocated to it under the allocation of the excess Rights Shares to the Qualifying Shareholders who have applied for excess Rights Shares and will make an application for the said excess Rights Shares by way of application for excess Rights Shares as soon as practicable.

Shareholders should note that in allocating the excess Rights Shares, regards will be made to the principles set out above and World Gain's application for excess Rights Shares will not give it or any parties acting in concert with it any preference in receiving the allocation of the excess Rights Shares otherwise than in accordance with such principles.

Refund cheques in respect of wholly or partially unsuccessful applications for excess Rights Shares (if any) are expected to be posted by 16 April 2007 by ordinary post to the relevant unsuccessful applicants therefor at their own risk.

The latest time for acceptance of and payment for the Rights Shares and application for excess Rights Shares is expected to be at 4:00 p.m. on 4 April 2007, or such later date as may be agreed between the Company and the Underwriter.

Share certificates for the Rights Shares

Subject to the fulfillment of the conditions of the Rights Issue, certificates for all fully-paid Rights Shares are expected to be posted to Qualifying Shareholders who have accepted and applied for (where appropriate), and paid for the Rights Shares by 16 April 2007 at their own risk.

Qualifying Shareholders

The Company will send (i) the Rights Issue Documents to the Qualifying Shareholders; and (ii) this Prospectus, for information only, to the Excluded Shareholders.

To qualify for the Rights Issue, the Shareholders must be registered as members of the Company on the Record Date. In relation to holders of the Outstanding Options (i) they must exercise their respective subscription rights in accordance with the relevant procedures specified in the rules of the Share Option Scheme (as regards the holders of the Outstanding Options) on or before the Record Date; (ii) they must be registered as the holders of the Shares allotted pursuant to the exercise of the subscription rights of the Outstanding Options on or before the Record Date; and (iii) they must not be an Excluded Shareholder.

Excluded Shareholders

The Company will only send this Prospectus to the Excluded Shareholders for their information.

The Rights Issue Documents are not intended to be registered or filed under the applicable securities legislation of any jurisdiction other than Hong Kong.

Based on the register of members of the Company as at the Record Date, there were 9 Overseas Shareholders with registered addresses in 6 jurisdictions, namely, Australia, Canada, Macau, Singapore, Taiwan and U.S. outside Hong Kong. Pursuant to Rule 13.36(2) of the Listing Rules, the Board has made enquires with its legal advisers in these 6 jurisdictions as to whether there is any legal restriction under the applicable securities legislation of the relevant jurisdiction or requirement of any relevant regulatory body or stock exchange with respect to the offer of the Rights Shares to such Overseas Shareholders.

Based on the advice provided by the legal advisers of the Company in these 6 jurisdictions, the Directors considered that the offer of the Rights Shares to persons in Canada, Taiwan and U.S. would require compliance with registration or other regulatory requirements in such territories which would be impracticable or too burdensome, and it would be necessary or expedient to exclude such Excluded Shareholders whose registered addresses are in Canada, Taiwan and U.S. to the Rights Issue and no provisional allotment of Rights Shares will be made to such Excluded Shareholders. The Company will send this Prospectus (without the provisional allotment letters and the forms of application for excess Rights Shares) to the Excluded Shareholders for their information only.

Arrangements will be made for the Rights Shares which would otherwise have been provisionally allotted to the Excluded Shareholders to be sold in the open market in their nil-paid form as soon as practicable after dealings in the nil-paid Rights Shares commence, if a premium (net of expenses) can be obtained. The proceeds of such sale, less expenses, of more than HK$100 will be paid pro rata to the relevant Excluded Shareholders in Hong Kong dollars. The Company will retain individual amounts of HK$100 or less for its own benefit.

Share Option Scheme

As at the Latest Practicable Date, there are Outstanding Options attaching subscription rights to subscribe for 40,300,000 Shares granted pursuant to the Share Option Scheme.

Pursuant to the terms of the Share Option Scheme, adjustments to the Outstanding Options may be made if the Rights Issue becomes unconditional. The Company will instruct its auditors or an independent financial adviser to certify in writing the adjustment (if any) that ought to be made to the Outstanding Options and announce further details on such adjustment (if any) in accordance with the provisions under the Share Option Scheme.

Application for listing of the Rights Shares on the Stock Exchange

The Company has applied to the Listing Committee of the Stock Exchange for the listing of, and permission to deal in, the Rights Shares in both nil-paid and fully-paid forms.

Subject to the grant of listing of, and permission to deal in, the Rights Shares in both their nil-paid and fully-paid forms on the Stock Exchange as well as compliance with the stock admission requirements of HKSCC, the Rights Shares in both their nil-paid and fully-paid forms will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the respective commencement dates of dealings in the Rights Shares in their nil-paid and fully-paid forms on the Stock Exchange or such other dates as determined by HKSCC.

Settlement of transactions between participants of the Stock Exchange on any trading day is required to take place in CCASS on the second trading day thereafter. All activities under CCASS are subject to the General Rule of CCASS and CCASS Operational Procedures in effect from time to time.

All necessary arrangements will be made to enable the Rights Shares in both their nil-paid and fully-paid forms to be admitted into CCASS.

None of the securities of the Company is listed or dealt in on any other stock exchange other than the Stock Exchange and no such listing or permission to deal is being or is proposed to be sought.

Nil-paid Rights Shares are expected to be traded in board lots of 2,000 (Shares then in issue are traded in board lots of 2,000). Dealings in nil-paid and fully-paid Rights Shares will be subject to the payment of stamp duty in Hong Kong.

The first day of dealings in the Rights Shares in their fully-paid form is expected to commence on 18 April 2007.

Taxation

Qualifying Shareholders are recommended to consult their professional advisers if they are in any doubt as to the tax implications of the acquisition, holding or disposal of, or dealing in the Rights Shares and, as regards the Excluded Shareholders, their receipt of the net proceeds of sale of the Rights Shares otherwise falling to be issued to them under the Rights Issue. It is emphasized that none of the Company, the Directors or any other parties involved in the Rights Issue accepts responsibility for any tax effects or liabilities of holders of the Rights Shares resulting from the purchase, holding or disposal of, or dealing in the Rights Shares.

Conditions of the Rights Issue

The Rights Issue is conditional upon the following conditions being fulfilled:

(1) the Company despatching the Circular to the Shareholders containing, among other matters, details of the Rights Issue and Whitewash Waiver together with the proxy form and notice of the EGM;

(2) the passing by the Independent Shareholders to the Rights Issue at the EGM by way of poll of ordinary resolutions to approve the Rights Issue (if required by the SFC, the Stock Exchange or other regulatory authorities) and the Whitewash Waiver by no later than the date on which this Prospectus is despatched;

(3) the Executive granting the Whitewash Waiver to World Gain and parties acting in concert with it and the satisfaction of all conditions (if any) attached to the Whitewash Waiver granted;

(4) the Listing Committee of the Stock Exchange granting or agreeing to grant (subject to allotment) and not having withdrawn or revoked listing of and permission to deal in all the Rights Shares (in their nil-paid and fully-paid forms) by no later than the date on which this Prospectus is despatched;

(5) the filing and registration of all documents relating to the Rights Issue, which are required to be filed or registered with the Registrar of Companies in Hong Kong in accordance with the Companies Ordinance;

(6) the posting of the Rights Issue Documents to Qualifying Shareholders; and

(7) compliance with and performance of all the undertakings and obligations of the Company and World Gain under the terms of the Underwriting Agreement.

None of the Company, World Gain and the Underwriter may waive conditions (1), (2), (3), (4), (5) and (6) set out above. The Underwriter may waive condition (7) set out above in whole or in part by written notice to the Company and World Gain. If any of the conditions of the Rights Issue are not fulfilled or (in respect of condition (7) only) waived on or before the Latest Acceptance Time (or such later time and/or date as the Company and the Underwriter may determine in writing), the Underwriting Agreement shall terminate (save in respect of any rights and obligations which may accrue under the Underwriting Agreement prior to such termination) and neither the Company nor the Underwriter shall have any claim against the other party for costs, damages, compensation or otherwise and the Rights Issue will not proceed.

Reasons for the Rights Issue and the use of proceeds

In view of the favourable conditions in the market, the Directors have decided to raise further equity by means of rights issue which would allow the Company to strengthen its capital base and provide an opportunity to all Qualifying Shareholders to participate in the growth of the Company in proportion to their shareholdings.

The Company intends to use the net proceeds from the Rights Issue, being approximately HK$194.32 million if no Outstanding Options are exercised on or before the Record Date or approximately HK$197.29 million if all Outstanding Options (other than the 6,600,000 Outstanding Options held by parties acting in concert with World Gain and the 3,800,000 Outstanding Options held by Mr. Gu Laiyun and Ms. Xu Zhen (both are non-executive Directors)) are exercised on or before the Record Date, as to approximately 20% for general working capital of the Group and approximately 80% for future investment opportunities in Hong Kong and the PRC including the Group's property development business in the PRC.

The Company is an investment holding company. The principal activities of the Group are property investment, property development, trade and production of cement, and investment holding in Hong Kong and the PRC. Any new investment is likely to be in one of these sectors. The Directors are in the course of considering a number of potential property development projects in the PRC and will continue to identify suitable investment opportunities for the Group. As heavy funding and timely injection of fund are required for property investment and development projects alike, the Directors consider that the capital reserve and strength of the Company have to be increased and strengthened so that when suitable opportunities should arise, the Group will be able to capture these opportunities and respond to the market opportunities, developments and prospects.

In view of the favourable conditions currently prevailing over the capital market of Hong Kong, the Directors consider that it is good time for the Company to proceed with the Rights Issue to increase the Company's capital reserve and strengthen its capital strength. The Directors consider that additional capital as generated from the Rights Issue will further enhance the financial position of the Group and of the Group's financial flexibility in respond to future investment opportunities. However, the Directors would like to stress that, as at the Latest Practicable Date, save for the conditional acquisition of interests in two PRC companies subsequent to the Announcement dated 9 January 2007 each from a subsidiary of China Chengtong Holdings Group Limited which is to be announced by the Company, the property development projects in the PRC being considered are still at a preliminary stage and no binding agreements have been entered into in respect of any of them. Further announcements will be made by the Company in accordance with or as required under the Listing Rules if any investment opportunity materializes.

The Directors consider that it is in the interest of the Company and the Shareholders to raise further capital which will be used by the Company to support and expand the Group's business, operation and investment opportunities, and the Rights Issue will allow all Qualifying Shareholders the opportunity to maintain their respective pro-rata shareholding interests in the Company.

World Gain has no intention to make any changes to the Group's existing principal businesses, the deployment of the Company's fixed assets and the continued employment of the employee of the Group.

4. FINANCIAL AND TRADING PROSPECTS OF THE GROUP

Following the stringent macro-economic control measures implemented by the central government in the second half of 2005, sales turnover of the property market in Mainland China has become stable. In the long run, these measures will contribute to bring about sustained economic growth and influx of foreign investments, eventually leading to a healthier property market in the Mainland China.

In view of the favourable environment of the capital market, the Group had in August conducted a fund raising activity and an aggregate of 332,000,000 shares of the Company were placed to three independent investors in a top-up placing, raising a net proceeds of approximately HK$98.1 million. The net proceeds from the placing are intended to be used for the Group's property development business in Mainland China and for general working capital of the Group.

China Chengtong Holdings Group Limited ("**CCHG**") (formerly known as China Chengtong Holdings Company), the Group's ultimate holding company, is the largest integrated warehousing logistics service enterprise in Mainland China, and has been selected by the State-owned Assets Supervision and Administration Commission of the State Council as a state-owned asset operating company. It was assigned a group of state-owned factories which further increased its land reserve.

Further to the dedicated efforts on the disposals of non-core and not well performed assets in the past two years, the Group is now in a position to explore appropriate investment opportunities in Mainland China in order to enhance its growth. With the immense support from CCHG, the Group will endeavour to broaden its quality portfolio in its property development business. The Board is confident of the Group's prospects.

After completion of the Rights Issue, the financial position and financial flexibility of the Group will be significantly enhanced which prepare the Company to be financial capable and flexible to respond to and capture future investment opportunities which are beneficial to the Group. The Company will actively identify suitable business opportunities which are beneficial to the Group and any of these investments will likely to be in one of the Group's principal activities, i.e., property investment, property development, trade and production of cement, and investment holding.

5. WORKING CAPITAL

The Directors are of the opinion that after taking into account the Group's cashflow generated from operating activities and the estimated net proceeds from the Rights Issue, the Group has sufficient working capital for its present requirements, for at least the next 12 months from the date of this Prospectus.

6. MANAGEMENT DISCUSSION AND ANALYSIS

Property Development

Zhongshi Investment Company Limited

The Group's residential development project located at Xicheng District, Beijing completed on schedule in October 2005. It achieved a remarkable result by contributing a net profit of approximately HK$23 million to the Group for the six months ended 30 June 2006. Together with the sales made in 2005, all the residential units and 103 car parks of the project were sold and most of them had been delivered to the purchasers at 30 June 2006.

Huzhou Land

To further enhance the Group's property development business in Mainland China, in June 2006, at a consideration of approximately RMB27.5 million (which was fully paid in cash in August 2006), the Group acquired the entire equity interests of Great Royal International Limited, which is one of the equity owners of Huzhou Wangang United Estate Company Limited ("Huzhou Land Company"), a sino-foreign equity joint venture established in Mainland China, and had a capital commitment of 50% to the registered capital of Huzhou Land Company.

Huzhou Land Company is solely engaged in the development, construction and operation of a piece of vacant land of site area of approximately 214,000 square metres at Nos. 19, 20A of West Southern District of Huzhou City of the Zhejiang Province ("Huzhou Land"), which will be developed as a residential and commercial development for the re-housing of local farmers with a total building floor area of approximately 290,000 square metres. The whole development of Huzhou Land will be purchased by Huzhou People's Government upon its completion at an agreed consideration.

Cement Business

Nanda Cement recorded a turnover of HK$16.7 million for the six months ended 30 June 2006, representing a decrease of 44% as compared to that for the corresponding period in 2005. Despite the decrease in total turnover, Nanda Cement could still manage to achieve a decrease of approximately HK$4 million in its loss for the six months ended 30 June 2006 as compared to that for the corresponding period in 2005. The drop in loss was mainly attributable to its successful cost control measures.

The sales has picked up since March 2006 due to the overall improved market condition for cement industry in Suzhou. The management of Nanda Cement will continue to implement strict cost control measures and policies to improve its profitability.

Disposal of the entire shareholding and shareholder loan of Price Sales Limited

In January 2006, the Group entered into a conditional disposal agreement ("Disposal Agreement") for the disposal of a wholly owned subsidiary of the Group, Price Sales Limited, and the shareholder's loan to that subsidiary to an independent third party at a consideration of approximately US$24.7 million (equivalent to approximately HK$193 million). Price Sales Limited is the owner of a 32% interest in Goodwill (Overseas) Limited. The Group and the Purchaser have not come to an agreement on the terms of the formal agreement, as such, no formal agreement has been entered into and payment of the further deposit in the sum of US$4.5 million (equivalent to approximately HK$35.1 million) and completion of the disposal has eventually fallen through as announced in the announcement of the Company dated 24 November 2006. The Group has reserved all its rights and remedies against the third party purchaser.

Settlement Agreements in relation to Merry World Associates Limited

In March 2006, a wholly owned subsidiary of the Group, Merry World Associates Limited ("Merry World"), entered into two settlement agreements with Guangzhou Sui Nan Building Development Limited ("Plaintiff"), putting an end to the disputes and ensuing litigations between them in relation to Zone A ("Property A") and Zone C ("Property C") both of Level 3 of Li Wan Plaza, No. 9 Dexing Lu, Li Wan District, Guangzhou City, Guangdong Province, the PRC. Pursuant to the settlement agreements, among other matters, Property A was transferred to the Plaintiff in the six months ended 30 June 2006 and the Plaintiff had discontinued and withdrawn all its claims made and legal proceedings instituted against Merry World in relation to Property C and confirmed the title of Merry World to Property C. The entering into of the two settlement agreements enables the Group to retain Property C despite the judgment of the relevant court in the PRC ordering the transfer of Property C by Merry World to the Plaintiff.

Capital Reduction

On 20 June 2006, the High Court of the Hong Kong Special Administrative Region made an order confirming the cancellation of the entire sum standing to the credit of the share premium account of the Company as at 31 December 2004 and set off with the accumulated losses of the Company (the "Capital Reduction"). A credit amount of HK$939,273,144.96 arising from the Capital Reduction has been applied to write off the accumulated losses of HK$938,308,422.76 of the Company as at 31 December 2004 and the balance of HK$964,722.20 has been transferred to a special capital reserve created by the Company.

Although there is no assurance that a dividend will be declared or paid in the future, the principal purpose of the Capital Reduction is to enable the Company to achieve a capital structure that would permit the payment of dividends to its shareholders as and when appropriate.

Notes to the financial statements

For the year ended 31 December 2005

1. GENERAL

The Company is a public limited company incorporated in Hong Kong and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The address of the registered office of the Company are disclosed in the Corporate Information to the annual report.

The Company is an investment holding company. The principal activities of its principal subsidiaries are set out in note 16.

The financial statements are presented in Hong Kong dollars which is also the functional currency of the Company.

During the prior period, the Company changed its financial year end date from 31 March to 31 December and the consolidated financial statements incorporate the financial statements of the Company and its subsidiaries which cover nine months period ended 31 December 2004. For current year, the consolidated financial statements incorporated the financial statements of the Company and its subsidiaries cover twelve months period up to 31 December 2005. The corresponding amounts shown for the consolidated income statement, consolidated statement of changes in equity, consolidated cash flow statement and related notes cover a nine month period from 1 April 2004 to 31 December 2004 and therefore may not be comparable with amounts shown for the current year.

2. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARD/ CHANGES IN ACCOUNTING POLICIES

In the current year, the Group has adopted all the new and revised Hong Kong Financial Reporting Standards ("HKFRS(s)"), Hong Kong Accounting Standards ("HKAS(s)") and Interpretations (hereinafter collectively referred to as "new HKFRS(s)") issued by Hong Kong Institute of Certified Public Accountants that are relevant to its operations and are effective for accounting periods beginning on or after 1 January 2005. The application of the new HKFRSs has resulted in a change in the presentation of the consolidated income statement, consolidated balance sheet and the consolidated statement of changes in equity.

The adoption of the new HKFRSs has resulted in changes to the Group's accounting policies in the following areas that have an effect on how the results for the current or prior accounting years are prepared and presented.

Share-based payments

In the current year, the Group has applied HKFRS 2, Share-based Payment, which requires an expense to be recognised where the Group buys goods or obtains services in exchange for shares or rights over shares ("equity-settled transactions"). The principal impact of HKFRS 2 on the Group is in relation to the expensing of the fair value of directors' and employees' share options of the Company determined at the date of grant of the share options over the vesting period. Prior to the application of HKFRS 2, the Group did not recognise the financial effect of these share options until they were exercised. In relation to share options granted before 1 January 2005, the Group has not applied HKFRS 2 to share options granted on or before 7 November 2002 and share options that were granted after 7 November 2002 and had vested before 1 January 2005 in accordance with the relevant transitional provisions. However, the Group is still required to apply HKFRS 2 retrospectively to share options that were granted after 7 November 2002 and had not yet vested on 1 January 2005. Comparative figures have been restated (see note 3 for the financial impact).

Financial instruments

In the current year, the Group has applied HKAS 32 Financial Instruments: Disclosure and Presentation and HKAS 39 Financial Instruments: Recognition and Measurement. HKAS 32 requires retrospective application. HKAS 39, which is effective for annual periods beginning on or after 1 January 2005, generally does not permit to recognise, derecognise or measure financial assets and liabilities on a retrospective basis. The application of HKAS 32 has had no material impact on how financial instruments of the Group are presented for current and prior accounting periods. The principal effects resulting from the implementation of HKAS 39 are summarised below:

Classification and measurement of financial assets and financial liabilities

The Group has applied the relevant transitional provisions in HKAS 39 with respect to classification and measurement of financial assets and financial liabilities that are within the scope of HKAS 39.

From 1 January 2005 onwards, the Group classifies and measures its financial assets and financial liabilities in accordance with the requirements of HKAS 39. The classification depends on the purpose for which the assets are acquired. The Group's financial assets are loans and receivables which are measured at amortised cost using the effective interest method. Financial liabilities are generally classified as "financial liabilities at fair value through profit or loss" or "financial liabilities other than financial liabilities at fair value through profit or loss (other financial liabilities)". The Group's financial liabilities are "other financial liabilities" which are carried at amortised cost using the effective interest method. The adoption of HKAS 39 has no impact on the Group's accumulated losses on 1 January 2005 and results for the current year.

Investment properties

In the current year, the Group has, for the first time, applied HKAS 40 Investment Property. The Group has elected to use the fair value model to account for its investment properties which requires gains or losses arising from changes in the fair value of investment properties to be recognised directly in the profit or loss for the period in which they arise. In previous periods, investment properties under the predecessor standard were measured at open market values, with revaluation surplus or deficits credited or charged to investment property revaluation reserve unless the balance on this reserve was insufficient to cover a revaluation decrease, in which case the excess of the revaluation decrease over the balance on the investment property revaluation reserve was charged to the income statement. Where a decrease had previously been charged to the income statement and revaluation subsequently arose, that increase was credited to the income statement to the extent of the decrease previously charged. The Group has applied the relevant transitional provisions in HKAS 40 and elected to apply HKAS 40 from 1 January 2005 onwards. It has no impact on the Group's accumulated losses on 1 January 2005 and the results for the current year.

Deferred tax related to investment properties

In previous period, deferred tax consequences in respect of revalued investment properties were assessed on the basis of the tax consequence that would follow from recovery of the carrying amount of the properties through sale in accordance with the predecessor Interpretation. In the current year, the Group has applied HKAS Interpretation 21 Income Taxes – Recovery of Revalued Non-Depreciable Assets which removes the presumption that the carrying amount of investment properties are to be recovered through sale. Therefore, the deferred tax consequences of the investment properties are now assessed on the basis that reflect the tax consequences that would follow from the manner in which the Group expects to recover the property at each balance sheet date. In the absence of any specific transitional provisions in HKAS Interpretation 21, this change in accounting policy has been applied retrospectively. It has no impact on the results for current and prior accounting year/period as the Group's intention is to recover the property through sale.

3. SUMMARY OF THE EFFECTS OF ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARD CHANGES IN ACCOUNTING POLICIES

These HKFRSs may result in change in the future as to how the results and financial position are prepared and presented.

4. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared under the historical cost convention, except for investment properties which are stated at fair values.

The financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards issued by Hong Kong Institute of Certified Public Accountants. In additions, the financial statements include applicable disclosure required by the Rules Governing the Listing of Securities on the Stock Exchange and the Companies Ordinance.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries.

The results of subsidiaries acquired and disposed of during the year/period are included in the consolidated income statement from and up to their effective dates of acquisition and disposal respectively.

All significant inter-company transactions and balances within the Group have been eliminated on consolidation.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

Minority interests in the net assets of consolidated subsidiaries are presented separately from the Group's equity therein. Minority interests in the net assets consist of the amount of those interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination. Losses applicable to the minority in excess of the minority's interest in the subsidiary's equity are allocated against the interests of the Group except to the extent that the minority has a binding obligation and is able to make an additional investment to cover the losses.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the nominal course of business, net of discounts and sales related taxes.

Sales of goods are recognised when goods are delivered and title has been passed.

Service income is recognised when services are rendered.

Revenue from sale of properties in the ordinary course of business (including revenue from pre-completion contracts for the sale of development properties) is recognised when all of the following criteria are met:

- the significant risks and rewards of ownership of the properties are transferred to buyers;
- neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the properties are retained;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Deposit received from the purchasers prior to the above criteria are recorded as deposit received on sale of properties and included in current liabilities.

Rental income, including rentals invoiced in advance from properties let under operating leases, is recognised on a straight line basis over the term of the leases.

Interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial assets to that asset's net carrying amount.

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

Investment properties

On initial recognition, investment properties are measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

Property, plant and equipment

Property, plant and equipment other than construction in progress are stated at cost less accumulated depreciation and identified impairment losses.

Construction in progress is not depreciated until completion of construction and the asset is ready for its intended use.

Depreciation is provided to write off the cost of property, plant and equipment other than construction in progress over their estimated useful lives, using the straight line method, at the following rates per annum:

Buildings	1.67% to 3.60%
Plant and machinery	5% to 20%
Furniture and equipment	10% to 20%
Motor vehicles	20%

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the year in which the item is derecognised.

Subsidiaries

Investments in subsidiaries are included in the Company's balance sheet at cost less any identified impairment loss.

Investments in associates

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting, except when the investment is classified as held for sale (in which case it is accounted for under HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations). Under the equity method, investments in associates are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group's share of the profit or loss and of changes in equity of the associate, less any identified impairment loss. When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. An additional share of losses is provided for and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate.

Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition.

Non-current assets classified as held for sale are measured at the lower of the assets' previous carrying amount and fair value less costs to sell.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the first-in, first-out method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Properties under development for future sale/Properties held for sales

Properties under development for future sale/properties held for sales are stated at lower of cost and net realisable value. Cost comprises the cost of the land together with direct costs attributable to the development of the properties and borrowing costs capitalised during the period of development.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of cost of those assets. Capitalisation of such borrowing costs ceased when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from borrowing costs capitalised.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Impairment

At each balance sheet date, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year/period. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited to the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in its functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity in which cases, the exchange differences is recognised directly in equity.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Company (i.e. Hong Kong dollars) at the rate of exchange prevailing at the balance sheet date, and their income and expenses are translated at the average exchange rates for the year/period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised as a separate component of equity (the translation reserve). Such exchange differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the leasee, others are operating leases.

Rentals payable under operating leases are charged to the income statement on a straight line basis over the term of the relevant leases.

Financial instruments

Financial assets and financial liabilities are recognised on the balance sheet when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are mainly classified into loans and receivables. All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. The accounting policies adopted in respect of financial assets are set out below.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. At each balance sheet date subsequent to initial recognition, loans and receivables (including trade and other receivables, bills receivables, bank balances and cash, amounts due from a minority interest/associates/related companies) are carried at amortised cost using the effective interest method, less any identified impairment losses. An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits which are subject to an insignificant risk of changes in value.

Financial liabilities and equity

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities. The Group's financial liabilities are classified into other financial liabilities. The accounting policies adopted in respect of financial liabilities and equity instruments are set out below.

Financial liabilities

Financial liabilities including trade and other payables, loan from an intermediate controlling shareholder, amount due to a minority shareholder, other loans, bank loans are subsequently measured at amortised cost, using the effective interest rate method.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, and it is probable that the Group will be required to settle that obligation. Provisions are measured at the directors' best estimate of the expenditure required to settle the obligation at the balance sheet date, and are discounted to present value where the effect is material.

Retirement benefits costs

Payments to the defined contribution retirement benefits schemes are charged as expenses as they fall due.

Contingent liabilities acquired in a business combination

Contingent liabilities acquired in a business combination are initially measured at fair value at the date of acquisition. At subsequent balance sheet date, such contingent liabilities are measured at the higher of the amount that would be recognised in accordance with HKAS 37 Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less cumulative amortisation (if appropriate).

Share-based payment transactions

Equity-settled share-based payment transactions

Share options granted to employees of the Company

The fair value of services received determined by reference to the fair value of share options granted at the grant date is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share option reserve).

At the time when the share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When the share options are forfeited or are still not exercised at the expiry date, the amount previously recognised in share option reserve will continue to be held in share option reserve.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the process of applying the Group's accounting policies, which are described in note 4, management had made the following judgments that have the most significant effect on the amounts recognised in the financial statements.

Impairment of property, plant and equipment

Determining whether property, plant and equipment is impaired requires an estimation of the recoverable amounts of the assets. The recoverable amounts requires the entity to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. During the year, an impairment loss of HK$23,781,000 (1.4.2004 to 31.12.2004: HK$9,473,000) was recognised.

6. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include trade and other receivables, bank balance and cash, trade and other payables and borrowings. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Interest rate risk

The Group's cash flow interest rate risk primarily relates to fixed-rate bank loans.

The Group currently does not have any risk hedging policy. However, the management monitors interest rate risk exposure and will consider hedging significant risk exposure should the used arises.

Credit risk

The Group's credit risk is primarily attributable to trade and other receivables. The maximum exposure to credit risk in the event of the counterparties failure to perform their obligations as at 31 December 2005 in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated balance sheet. In order to minimise the credit risk, the management of the Group has reviewed the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

Concentration risk

The Group is exposed to concentration risk as a significant portion of its business are derived from its largest customer.

7. TURNOVER AND SEGMENT INFORMATION

Turnover represents the net amounts received and receivable for goods sold by the Group to outside customers, less returns and allowances.

Business Segments

The Group's principal activities are trade and manufacture of cement, trade of goods, property investment, property development and investments holding. 13. RETIREMENT BENEFITS SCHEMES

The Group participates in both a defined contribution scheme which is registered under the Occupational Retirement Scheme Ordinance (the ORSO Scheme) and a Mandatory Provident Fund Scheme (the MPF Scheme) established under the Mandatory Provident Fund Ordinance in December 2000. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees. All employees who were members of the ORSO Scheme prior to the establishment of the MPF Scheme were required to switch to the MPF Scheme, whereas all new employees joining the Group on or after December 2000 are required to join the MPF Scheme. The Group contributes 5% of relevant payroll costs to the MPF Scheme, which contribution is matched by employees.

The employees of the Group's subsidiaries in the PRC are members of a state-managed retirement benefit scheme operated by the PRC government. The subsidiaries are required to contribute 29% of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit scheme is to make the specified contributions.

Fair value of option at date of grant	HK$0.161
Share price at date of grant	HK$0.290
Exercise price	HK$0.245
Expected volatility	78%
Expected life in years	3
Risk free rate	1.5%
Expected dividend yield	0%

Expected volatility was determined by calculating the historical volatility of the Company's share price over the previous one year. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioral considerations.

On 20 June 2006, the High Court of the Hong Kong Special Administrative Region (the "High Court") made an order (the "Order") confirming the cancellation of the entire sum standing to the credit of the share premium account of the Company as at 31 December 2004 and set off with the accumulated losses of the Company as at 31 December 2004 (the "Capital Reduction"). The Order stipulated that after the Capital Reduction becoming effective, the Company will create a Special Capital Reserve in the amount of approximately HK$965,000 representing the amount by which the Capital Reduction exceeds the total accumulated losses of the Company as at 31 December 2004 and that for so long as there remained any debt of or claim against the Company outstanding at the date when the Capital Reduction became effective which, if such date were the date of commencement of the winding up of the Company, would have been admissible in proof against the Company and the persons entitled to the benefit thereof had not have agreed otherwise, such reserve:

(i) should not be treated as realised profits for the purposes of Section 79B of the Companies Ordinance;

It was also provided in the Order that, notwithstanding the above undertaking, (a) the Special Capital Reserve might be applied for the same purposes as a share premium account might be applied; (b) the amount standing to the credit of the Special Capital Reserve might be reduced by the aggregate of any increase in the paid up share capital or the amount standing to the credit of the share premium account of the Company resulting from the payment up of shares by the receipt of new consideration or upon a capitalisation of distributable reserve after the Capital Reduction becoming effective; and (c) in the event that the amount of the Special Capital Reserve is so reduced, the Company shall be at liberty to transfer the amount of any such reduction to the general reserves of the Company and the same shall become available for distribution.

Notes to the condensed consolidated financial statements

for the six months ended 30 June 2006

1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and with Hong Kong Accounting Standard 34 ("HKAS 34") "Interim Financial Reporting".

2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared under the historical cost basis except for investment properties, which are measured at fair value, as appropriate.

The accounting policies used in the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended 31 December 2005 except as described below.

Financial guarantee contracts

In the current period, the Group has applied HKAS 39 and HKFRS 4 (Amendments) *Financial Guarantee Contracts* which is effective for annual periods beginning on or after 1 January 2006.

A financial guarantee contract is defined by HKAS 39 *Financial Instruments: Recognition and Measurement* as "a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument".

The Group acts as the issuer of the financial guarantee contracts

Prior to 1 January 2006, financial guarantee contracts were not accounted for in accordance with HKAS 39 and those contracts were disclosed as contingent liabilities. A provision for financial guarantee was only recognised when it was probable that an outflow of resources would be required to settle the financial guarantee obligation and the amount can be estimated reliably.

Upon the application of these amendments, a financial guarantee contract issued by the Group and not designated as at fair value through profit or loss is recognised initially at its fair value less transaction costs that are directly attributable to the issue of the financial guarantee contract. Subsequent to initial recognition, the Group measures the financial guarantee contract at the higher of: (i) the amount determined in accordance with HKAS 37 Provisions, Contingent Liabilities and Contingent Assets; and (ii) the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with HKAS 18 Revenue.

In relation to a financial guarantee granted to a bank in favour of its customers in respect of the mortgage loans provided by the banks to such customers for purchase of the Group's developed properties, no financial guarantee contract was recognised as the fair values of these guarantees was insignificant.

Joint ventures

Jointly controlled entities

Joint venture arrangements that involve the establishment of a separate entity in which venturers have joint control over the economic activity of the entity are referred to as jointly controlled entities.

The results and assets and liabilities of jointly controlled entities are incorporated in the consolidated financial statements using the equity method of accounting. Under the equity method, investments in jointly controlled entities are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group's share of the profit or loss and of changes in equity of the jointly controlled entities, less any identified impairment loss. When the Group's share of losses of a jointly controlled entity equals or exceeds its interest in that jointly controlled entity (which includes any long-term interests that, in substance, form part of the Group's net investment in the jointly controlled entity), the Group discontinues recognising its share of further losses. An additional share of losses is provided for and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that jointly controlled entity.

When a group entity transacts with a jointly controlled entity of the Group, unrealised profits or losses are eliminated to the extent of the Group's interest in the jointly controlled entity, except to the extent that unrealised losses provide evidence of an impairment of the asset transferred, in which case, the full amount of losses is recognised.

In the current interim period, the Group has applied, for the first time, a number of new standards, amendments and interpretations (new "HKFRSs") issued by the HKICPA, which are either effective for accounting periods beginning on or after 1 December 2005 or 1 January 2006. The adoption of these new HKFRSs has had no material effect on how the results for the current and prior accounting periods are prepared and presented. Accordingly, no prior period adjustment has been required.

The Group has not early applied the following new standard amendment or interpretations that have been issued but are not yet effective. The directors of the Company anticipate that the application of these standard amendment or interpretations will have no material impact on the financial statements of the Group.
