Chairman's Statement

Dear Shareholders,

In the first six months of 2014, having aligned with the development trends of mobile Internet and proactively responded to challenges arising from various factors including the increasingly saturated traditional telecommunications market, fierce competition within the industry, the aggravated substitution effect of Over the Top (OTT) products and the adjustments of the relevant government policies, the Group accelerated strategic transformation, intensified reform and innovation, firmly seized the opportunities for 4G development, endeavored to enhance its capabilities in network, marketing, management and human resources, vigorously promoted its operations of existing customers and business, data traffic and corporate customer services, and enhanced business innovation in digital services. As a result, the Company achieved favorable results in its development. In the first six months of 2014, the initial 4G development has been remarkable with 4G network capabilities being rapidly built up, leading to rapid growth momentum of 4G customer scale. During the same period, the Company also maintained a solid customer base and continued the rapid development of data traffic services, and achieved stable operational results.

Chairman's Statement

Financial Results

In the first half of 2014, the Group's operating revenue maintained stable growth and reached RMB324.7 billion, up 7.1% over the same period last year, of which, revenue from telecommunications services was RMB297.9 billion, up 4.7% over the same period last year. Data business had a positive growth momentum with revenue of RMB121.9 billion, up 27.8% over the same period last year, and as a percentage of revenue from telecommunications services increased to 40.9%, of which, revenue from wireless data traffic reached RMB72.0 billion, up 51.8% over the same period last year. The revenue structure was further optimized. The Group reasonably increased its investment in the relevant resources in order to provide better support for the explosive growth in data traffic, in particular to accelerate expansion of 4G business and build up core competitiveness. Meanwhile, policy factors including the transformation from business tax to value-added tax and the adjustments of network interconnection settlement standards resulted in a decrease of profitability, however, the Group continued to lead the industry in terms of profitability. Profit attributable to equity shareholders decreased by 8.5% over the same period last year to RMB57.7 billion, and the margin of profit attributable to equity shareholders was 17.8%. EBITDA decreased by 4.4% over the same period last year to RMB118.3 billion, and EBITDA margin¹ was 36.4%. EBITDA was 39.7% of revenue from telecommunications services.

Business Development

Amidst the complex competitive landscape, by adhering to its established strategies, the Group continuously promoted development of the three major drivers of its operations, namely, existing customers and business, data traffic and corporate customer services, as well as development of new businesses, and achieved remarkable results in its transformation development.

The Group maintained a solid customer base. As of the end of June 2014, the Group had over 790 million customers, representing a growth of 23.41 million customers compared with the end of 2013, with a stable retention of middle-to-high-end customers. The Group's corporate customer business maintained favorable growth momentum with 3.27 million corporate customers in total, while revenue from communication and informationalization services showed rapid growth.

Our 4G development demonstrated a favorable growth momentum. The Group was the first to launch commercial 4G services in Mainland China after receiving its license in December last year. As of the end of June 2014, our 4G customers had reached 13.94 million. The Group accelerated network construction, built up network capabilities, fully respected customers' preferences for services and proactively promoted the development of 4G customers through various initiatives including optimizing data traffic tariffs, providing convenient and prompt upgrade services and increasingly diversifying 4G terminals. As a result, our 4G customer base showed a favorable momentum of accelerated growth.

¹ EBITDA margin = EBITDA/Operating revenue

Chairman's Statement

The Group achieved notable progress in data traffic operations. Aligned with the booming increase in data traffic demand, we launched various tariff plans with an emphasis on data traffic and has achieved strong business growth. Mobile data traffic increased by 91.4% compared with the same period last year. Revenue from wireless data traffic increased by 51.8% compared with the same period last year, contributing to 24.2% of telecommunications services revenue. Revenue derived from data traffic became a major driver of revenue growth.

We have also benefited from significant increase in terminal sales volume. In the first half of 2014, a total of 120 million TD handsets (including TD-SCDMA and TD-LTE standards) were sold through all distribution channels, and such increase accelerated the migration of customers from 2G network to 3G and 4G networks. Terminal sales provided strong support for existing customers and business and data traffic operations, and brought vibrancy to the 4G terminal industry.

By adhering to its mantra of "Customers are our priority, quality service is our principle", the Group continued to enhance services and improve customer satisfaction. The Group continued to promote customer services mechanism featuring front-end localization and back-end centralization, and focused on protecting customer rights and resolving issues of uninformed service subscriptions to promote transparency in customer consumption. We handled customer complaints in a serious manner focusing on online complaints and undertook effective blocking and control over spam messages. In the first six months of 2014, the Group maintained the lowest rate of escalated complaints within the industry in Mainland China.

Strategic Transformation

Aligned with the development trends of mobile Internet, the Group embraced the migration of the core telecommunications revenue driver from voice to data traffic and then to digital services, accelerated capabilities distribution and strategic transformation and made efforts to promote its development transition from voice to data traffic operation, from mobile communications services to innovative full-services and from communications services to digital services.

The Group deepened the development of Four-Network Coordination, continued to strengthen network capability in general and accelerated the transition from voice-centric to data-centric operations. We endeavored to promote 4G network construction and optimization aiming to construct a premier quality network. Currently, we have put in use 410,000 base stations covering more than 300 cities, and built up the world's largest 4G network. We will further accelerate network construction to achieve continuous coverage in almost all cities and county-level cities as well as effective network coverage in key villages and towns in Mainland China by the end of this year, and endeavour to carry out trial commercialization of VoLTE, consolidating our first-mover advantage in 4G services. We capitalized on our existing resources and capacity of our 3G network to enhance customer experience and strengthen customer relationships. We continued our efforts in 2G network maintenance preserving our advantages in voice quality and network efficiencies. We also maximised the network efficiency and traffic diversion of WLAN in order to meet traffic demand.

Chairman's Statement

Through deepening the development of Four-Network Coordination, the Group further consolidated its advantage in wireless network, maintained its leading position in voice quality and continuously optimized the network traffic structure. Currently, 3G/4G data traffic has reached 44% of the total mobile data traffic.

The Group strengthened the accumulation of infrastructure resources and continuously improved fundamental network capabilities. Our accessibility of corporate customer IP-VPN lines and introduction of Internet content were significantly enhanced. By the end of June 2014, the Internet traffic on-net rate reached 91%, and the mobile phone on-net hits rate reached 75%. Adhering to our established principles of high standards, product differentiation and focus on investment returns, we provided the foundation and support for the transition from mobile services to innovative full-services by improving our transmission network capabilities, accelerating public Internet construction, and effectively developing broadband access that leverages our 4G advantages.

Persisting with the policy of "smart pipes, open platform, featured services, friendly interface", and consolidating the advantages of a traditional operator and the features of mobile Internet, the Group proactively prepared for the establishment of a mobile Internet company to develop mobile Internet services, leveraging its advantages in resources, scale and capabilities. In the first six months of 2014, we consolidated five integrated product platforms targeting different customers, namely, "and-Communication", "and-Life", "and-Entertainment", "and-Family", and "and-Business", and endeavored to establish an integrated communications system featuring New Calls, New Messages and New Contacts, to promote the transformation from developing communications business to digital services.

Reform and Innovation

We strengthened our efforts in reform and promoted entrepreneurship and innovation. Adhering to the principles of centralized management, operational specialization, market-oriented mechanisms, the building of a flat organization and the standardization of processes, we constructed new infrastructure and developed products and services for specialized operations in order to enable our organizational structure to support both the development of our existing business and the achievement of sustainable growth in future.

We achieved notable progress in specialized operations. With respect to terminals, we significantly reduced the costs in distribution channels, increasingly diversified terminal models and launched the M811 mobile phone under our own brand featuring five modes and ten frequencies at a price of RMB1,000, effectively setting a trend for the industry. With respect to corporate customer operations, we launched products under our own brand including pre-installed automobile modules, innovated cooperation modes and steadily improved our products capability and operational efficiency. With respect to international business, we fully implemented our "RMB1/2/3" international voice roaming plans, and expanded the coverage of our "RMB3/6/9" international data roaming scheme to 80 major countries and regions. In the meantime, we also made great efforts to develop our 4G international roaming services.

We effectively promoted centralized management and significantly improved centralized procurement. The centralized management of our sales outlets was extended to cover 244 cities. Our online mobile mall was fully supported throughout the whole network. In the meantime, our centralized infrastructure including data centers, call centers, research and development centers, China Mobile South Base and the five regional logistics centers were further utilized.

Chairman's Statement

We accelerated our innovative development. We reformed our traditional geographically divided and voice-centric business model, accelerated our business transformation, development of digital service products, channel transformation and marketing innovation, and continued to improve and refine our management. We optimized resource allocation and utilization, intensified cost management and control to reduce costs and increase efficiency and achieved favorable results in innovative development.

Corporate Governance

Abiding by corporate governance principles of integrity, transparency, openness and efficiency, the Company strived to achieve best corporate governance practices by strictly following the requirements under the Listing Rules. In 2014, in response to internal and external operating environments as well as regulatory requirements, the Company focused on risk management and continued to improve the risk and internal control system, enhanced risk predictions and the effects of risk management and control, and promoted the integration of internal control and business processes. We continued to improve our legal risk management system and strengthened legal support for our innovative development and organizational reform. We further enhanced our system of internal audit and internal control by continuing to audit and monitor tenders, procurement and decision-making mechanisms in order to prevent and control the significant risks arising from business operations and development as well as non-compliant conduct in key operational areas. At the same time, the Group also paid great attention to development efficiency and benefits, and promoted the improvement of management system and the optimization of mechanisms and procedures in order to ensure the proper operation of our businesses.

Investment and Acquisition

On 9 June 2014, the Company agreed to, through its wholly-owned subsidiary, subscribe for shares in True Corporation Public Company Limited ("True Corporation") in Thailand through a private placement for a total consideration of approximately RMB5.5 billion. Upon completion of the transaction, the Company will indirectly hold 18% equity interest in True Corporation.

On 11 July 2014, the Company and two other communications operators jointly agreed to establish China Communications Facilities Services Corporation Limited ("CCFSCL"). The Company, through its wholly-owned subsidiary, subscribed for shares in CCFSCL, which represent 40.0% of its registered capital, for a total consideration of RMB4.0 billion. The establishment of CCFSCL will benefit the Company by reducing its overall investment scale and saving capital expenses.

Chairman's Statement

Corporate Social Responsibility

The Group attaches great importance to corporate social responsibility and has actively contributed to the provision of emergency communication services, network and information safety, energy saving and emissions reduction, and social welfare support. In the first six months of 2014, we deepened our benchmarking management based on the Dow Jones Sustainability Indices, and further optimized environment management and improved our performance in supply chain responsibilities while maintaining favorable performance in electromagnetic radiation management and customer privacy protection. We further deepened the "Green Action Plan" focusing on energy conservation and emission reduction, and aimed to realize a reduction in overall energy consumption per unit of information flow by 13.5% in 2014. Through our China Mobile Charity Foundation, we carried out philanthropic activities such as poverty alleviation and education support. By the end of June 2014, we had cumulatively sponsored surgeries for 1,692 children in poverty with congenital heart disease and continued to sponsor the training of secondary and elementary school principals in central and western rural China. Jointly with the PRC Ministry of Education, we also organized presentations on multi-media teaching applications.

Awards and Recognition

Our efforts have been widely recognized and praised. In 2014, our ranking in Forbes Magazine's "Global 2000" List improved to 28th and once again, we were listed among the "FT Global 500", ranking 25th. The China Mobile brand was named one of the "BRANDZ™ Top 100 Most Powerful Brands" by Millward Brown and Financial Times for the ninth consecutive year, ranking 15th globally. In the first half of 2014, Moody's and Standard & Poor's kept our corporate credit ratings equivalent to China's sovereign credit ratings, which are Aa3/Outlook Stable and AA-/Outlook Stable, respectively.

Dividends

In view of the Group's operating results in the first half of 2014, and taking into consideration its long-term sustainable development, the Board declared an interim dividend of HK\$1.540 per share in accordance with the dividend payout ratio planned for the full financial year of 2014.

The Board believes that the Company's industry-leading profitability and healthy cash flow generating capability will be able to provide sufficient support to its future development, while providing shareholders with a favorable return.

Chairman's Statement

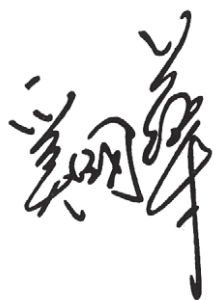

Future Outlook

In 2014, the Chinese government has set the general direction for steady domestic economic growth and improvement, and encourages the development of strategic emerging industry sectors and information consumption, providing us with broad development prospects. The commercialization and rapid development of 4G has provided the Company with a rare opportunity to reshape its advantages. In the meantime, with the commencement of trial operations of hybrid LTE (TD/FDD) network, the communications operators have entered into a new phase of 4G competition, and market competition will become fiercer. The substitution effect on the traditional telecommunications business by OTT business will be aggravated, and the effects of adjustments in government policies on the Company will start to become evident. Accordingly, the Company will face relatively high pressure in its short-term growth.

Facing both opportunities and challenges, the Company will focus on the strategic vision of Mobile Changes Life. Amid an ever expanding digital services market, the Company will embrace the migration trend of core telecommunications revenue driver from voice to data traffic and then to digital services, proactively develop digital services based on the solid foundation of its core resources to become a trustworthy digital services expert. We will further accelerate our strategic transformation, deepen our Four-Network Coordination, promote full-services operation and foster mobile Internet development. We will strengthen our reform efforts, build up new infrastructure system, end-to-end product services system and multi products-oriented marketing services system. The Company will endeavor to accelerate 4G development, continue to optimize network construction, accelerate customer development and business innovation, and maintain and create new competitive advantages in the 4G era in order to promote the sustainable and steady development of the Company.

We will look for appropriate external investment opportunities in an active but cautious manner, and strive to broaden our presence in the market to support our transformation and development.

We will persevere as always and strive to create value for investors.

The adoption of the above new and amended standards did not have any significant impact on the Group's unaudited condensed consolidated interim financial information.

In addition, the IASB and HKICPA also published a number of new standards and amendments to standards which are effective for the financial year beginning after 1 January 2014 and have not been early adopted by the Group. Management is assessing the impact of such new standards and amendments to standards and will adopt the relevant standards and amendments to standards in the subsequent periods as required.

An operating segment is a component of the Group that engages in business activities from which the Group may earn revenue and incur expenses, and is identified on the basis of the internal financial reports that are provided to and regularly reviewed by the Group's Chief Operating Decision Maker (the "CODM") in order to allocate resource and assess performance of the segment. The CODM has been identified as the Executive Directors of the Company. For the periods presented, the Group as a whole is an operating segment since the Group is only engaged in mobile telecommunications and related businesses. No geographical information has been disclosed as the majority of the Group's operating activities are carried out in Mainland China. The Group's assets located and operating revenue derived from activities outside Mainland China are less than 5% of the Group's assets and operating revenue, respectively.

Notes:

- (i) The provision for Hong Kong profits tax is calculated at 16.5% of the estimated assessable profits for the six months ended 30 June 2014 (for the six months ended 30 June 2013: 16.5%).
- (ii) The provision for the PRC enterprise income tax is based on the statutory rate of 25% on the estimated taxable profits determined in accordance with the relevant income tax rules and regulations of the PRC for the six months ended 30 June 2014 (for the six months ended 30 June 2013: 25%). Certain subsidiaries of the Company enjoy the preferential tax rate of 15% (for the six months ended 30 June 2013: 15%).
- (iii) Deferred taxes of the Group are recognized based on tax rates that are expected to apply to the periods when the temporary differences are realized or settled.
- (iv) On 22 April 2009, the State Administration of Taxation of the People's Republic of China issued the "Notice regarding Matters on Determination of Tax Residence Status of Chinese-controlled Offshore Incorporated Enterprises under Rules of Effective Management" (the "2009 Notice"). The Company is qualified as a PRC offshore-registered resident enterprise for purposes of the 2009 Notice. In accordance with the 2009 Notice and the PRC enterprise income tax law, the dividend income of the Company from its subsidiaries in the PRC is exempt from PRC enterprise income tax.

During the six months ended 30 June 2014, the Group acquired items of property, plant and equipment and construction in progress with a cost of RMB83,716,000,000 (for the six months ended 30 June 2013: RMB57,857,000,000).

(b) Write off of property, plant and equipment

Property, plant and equipment with a net book value of RMB815,000,000 were written off during the six months ended 30 June 2014 (for the six months ended 30 June 2013: RMB836,000,000).

11 Interest in Associates

	As at 30 June 2014	As at 31 December 2013
	Million	Million
Interest in associates	56,149	53,940

As at 30 June 2014, the Group's interest in associates is principally the equity investment in Shanghai Pudong Development Bank Co., Ltd. ("SPD Bank"). As at 30 June 2014, the fair value of investment in SPD Bank was RMB33,763,000,000 (as at 31 December 2013: RMB35,180,000,000), below its carrying amount of RMB54,755,000,000 (as at 31 December 2013: RMB52,548,000,000) by approximately 38.3% (as at 31 December 2013: approximately 33.1%).

The Group assesses at the end of each reporting period whether there is objective evidence that interest in associates are impaired and particularly, whether there were impairment indications existed on investment in SPD Bank. The recoverable amount of the investment in SPD Bank is determined by value-in-use. The calculation used pre-tax cash flow projections for the five years ending 30 June 2019 with subsequent extrapolation to perpetuity. The discount rate used was based on a cost of capital used to evaluate investments in Mainland China. Management judgement is required in estimating the future cash flows of SPD Bank which are sensitive to the cash flows projected. The key assumptions are determined with reference to external sources of information. Based on management's assessment results, there was no impairment as at 30 June 2014 and 31 December 2013, respectively. Changes in the key assumptions could have a significant impact on the recoverable amount of the investment in SPD Bank and could result in impairment charge in future periods.

Notes: (Continued)

- (v) The amounts represent the network assets leasing settlement received/receivable from or paid/payable to CMCC Group and the TD-SCDMA network capacity charges paid/payable to CMCC Group. On 29 December 2008, the Company entered into a network capacity leasing agreement (the "Network Capacity Leasing Agreement") with CMCC Group for the provision of TD-SCDMA related services. The lease was effective from 1 January 2009 to 31 December 2009 and is automatically renewed for successive one-year periods unless otherwise notified by one party to the other party. The Group is permitted to terminate the lease by giving 60 days advance written notice to CMCC Group. No penalty will be imposed in the event of a lease termination. Pursuant to the Network Capacity Leasing Agreement, the Group leases TD-SCDMA network capacity from CMCC Group and pays leasing fees to CMCC Group. The leasing fees are determined on a basis that reflects the actual usage of CMCC Group's TD-SCDMA network capacity and compensates CMCC Group for the costs of such network capacity. At the end of the lease terms, there is no purchase option granted to the Group to purchase the leased network assets. The Group also does not bear any gains or losses in the fluctuation in the fair value of the leased network assets at the end of the lease terms. As a result, the Group does not bear the risks associated with the ownership of the leased network assets, and accordingly the Group accounts for the network assets leasing and the network capacity leasing as operating leases.

The Group is a government-related enterprise and operates in an economic regime currently dominated by entities directly or indirectly controlled by the PRC government through government authorities, agencies, affiliations and other organisation (collectively referred to as “government-related entities”).

Apart from transactions with CMCC Group (note 21(a)) and associates (note 21(c)), the Group has collectively, but not individually, significant transactions with other government-related entities which include but not limited to the following:

- rendering and receiving telecommunications services, including interconnection revenue/charges
- purchasing of goods, including use of public utilities
- placing of bank deposits

These transactions are conducted in the ordinary course of the Group’s business on terms comparable to the terms of transactions with other entities that are not government-related. The Group prices its telecommunications services and products in accordance with rules and regulations stipulated by related authorities of the PRC Government, where applicable, or based on commercial negotiations. The Group has also established its procurement policies and approval processes for purchases of products and services, which do not depend on whether the counterparties are government-related entities or not.

China Communications Facilities Services Corporation Limited mainly engages in construction, maintenance and operation of telecommunication towers. The parties are also at a preliminary stage in considering potential injections of certain telecommunications assets into China Communications Facilities Services Corporation Limited.

Report on Review of Interim Financial Information

TO THE BOARD OF DIRECTORS OF CHINA MOBILE LIMITED

(Incorporated in Hong Kong with limited liability)

Introduction

We have reviewed the condensed interim financial information set out on pages 9 to 33, which comprises the consolidated balance sheet of China Mobile Limited (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2014 and the related consolidated statements of comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof, and to be in compliance with either International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") issued by the International Accounting Standards Board or Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants, depending on whether the issuer's annual financial statements are prepared in accordance with International Financial Reporting Standards ("IFRSs") or Hong Kong Financial Reporting Standards ("HKFRSs") respectively. As the annual financial statements of the Group are prepared in accordance with both IFRSs and HKFRSs, the directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with both IAS 34 and HKAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting" and Hong Kong Accounting Standard 34 "Interim Financial Reporting".

In the first half of 2014, the Group's operating expenses was RMB262.3 billion, up 13.2% over the same period last year and representing 80.8% of the operating revenue. Faced with the double challenge from the slower revenue growth and stronger resources demand during the transformation period, the Group adhered to the cost and resource allocation principle of "forward-looking planning, effective resource allocation, rational investment and refined management", strengthened its operations in existing business, promoted data traffic, expanded corporate customer services and explored new business growth. The Group deepened its vision on overall staff efficiency, established business operation models adaptable to the value-added tax regime and endeavored to maximize synergies from the limited resources.

The Group strengthened the management and control of marketing resources, emphasized precision in marketing, promoted transformation of sales channels and optimized customer services. The Group provided effective support for customer and business development while continuously enhancing the effectiveness of resources. With the expansion of asset scale and increases in resource prices, fixed costs relating to assets such as depreciation, utilities expenses, operating lease charges and others continued to increase relatively rapidly.

In relation to personnel expenses, in order to support the needs of business expansion and transformation development, the Group focused on enhancing reserves of high quality personnel and continued to optimize the personnel structure. As of 30 June 2014, the total number of employees of the Group was 198,000. Personnel expenses for the first half of 2014 were RMB18.1 billion, representing 5.6% of the operating revenue. The Group continued to implement strict management and control over its non-operating expenses with efforts on constantly reduce administration and management expenses such as office, conference, business travel expenses and others. The Group also fostered a favorable cost optimization culture and enhanced its low-cost and highly efficient operations by streamlining management processes and actively promoting cost benchmarking measures and best practices.

Discussion of Selected Items in the Interim Results (Continued)

3. Continued to Maintain Healthy Cash Flow and Capital Structure

Amidst the complex operation environment and intense investment pressure, the Group continued to maintain healthy cash flow as a result of stable and favorable growth in business operations and revenue, refined cost control and the continuous effect of economies of scale. Free cash flow (net cash generated from operating activities after deduction of capital expenditure incurred) of the Group was RMB36.3 billion for the six months ended 30 June 2014. As of 30 June 2014, the Group's total cash and bank balances were RMB463.1 billion, of which 98.2%, 0.1% and 1.7% were denominated in RMB, U.S. dollar and Hong Kong dollar, respectively.

As of 30 June 2014, the Group's total debt to book capitalization ratio (with total book capitalization representing the sum of total debt and total equity attributable to equity shareholders) was approximately 0.8%, and the borrowings of the Group totaled RMB6.4 billion. The financial position of the Group continued to remain at a sound level. Approximately 1.1% of the Group's borrowings were made at floating interest rates. The effective average interest rate of the borrowings of the Group was approximately 2.25% in the first half of 2014.

The Group will consistently uphold prudent financial principles and strictly monitor and control financial risks in order to maintain a healthy cash flow generating capability and preserve and enhance value capability. In addition, the Group will focus on scientific resource allocation and endeavor to maintain a solid structure and level of debt and reinforce and develop favorable economic benefits in order to continuously create value for its shareholders.

Share option scheme of Aspire Holdings Limited ("Aspire")

Pursuant to a resolution passed at the annual general meeting of the Company held on 24 June 2002, the share option scheme of Aspire (the "Aspire Scheme") was adopted by the Company.

The Aspire Scheme is valid and effective for a period of 10 years commencing on its adoption date after which period no further options to subscribe for shares of Aspire will be granted. The Aspire Scheme ceased to be valid and effective on 24 June 2012 and accordingly, no further options will be granted under the Aspire Scheme. However, the provisions of the Aspire Scheme shall remain in full force and effect to the extent necessary to give effect to the exercise of any options granted under the Aspire Scheme prior to the expiry of the 10-year period and which may become thereafter capable of being exercised under the rules of the Aspire Scheme.

As at 30 June 2014, the employees of Aspire had the following personal interests in options to subscribe for shares of Aspire granted under the Aspire Scheme.

	No. of shares involved in the options outstanding at the beginning of the period	No. of shares involved in the options outstanding at period end	Date on which options were granted	Normal period during which options are exercisable	No. of shares involved in the options lapsed during the period	Exercise price US\$

* During the six months ended 30 June 2014, no share options have been granted under the Aspire Scheme for the directors or chief executive of the Company.

Note:

(a) The initial 50% of the options granted to a particular employee are exercisable between the period:

— commencing on the later of:

(i) 2 years after the commencement of employment of that employee or the option offer date (as the case may be); or

(ii) the listing of the shares of Aspire; and

— ending on the date falling 10 years from the option grant date; and

(b) the remaining 50% of such options shall be exercisable between the period commencing 3 years after the initial 50% of the options become exercisable and ending on the date falling 10 years from the option grant date.

Other Information (Continued)

Directors', Chief Executive's and Employees' Rights to Acquire Shares (Continued)

Share option scheme of Aspire Holdings Limited (“Aspire”) (Continued)

None of the directors of Aspire had any personal interests in options to subscribe for shares of Aspire granted under the Aspire Scheme at the beginning and at the end of the six months ended 30 June 2014.

No options were granted or exercised under the Aspire Scheme during the six months ended 30 June 2014. Share options involving 770,000 Aspire shares have lapsed during the six months ended 30 June 2014.

Since the options granted pursuant to the Aspire Scheme are for the subscription of shares in Aspire which are not listed, the value of the options granted is not required to be disclosed under the Hong Kong Listing Rules.

In any event, since (i) the shares in Aspire are not listed, (ii) the options granted under the Aspire Scheme are not freely transferable (and hence there is no open market for transacting these options); and (iii) the grantee of an option will also not be able to charge, mortgage, encumber or create any interest in favour of any other person over or in relation to any option, any valuation of the options will necessarily be based on subjective assumptions, and may not provide a reliable measure of the fair value of the options and would potentially be misleading to the shareholders of the Company.

Apart from the foregoing, at no time during the period was the Company, any of its holding companies or subsidiaries, a party for any arrangement to enable the directors or chief executive of the Company or any of their spouses or children under eighteen years of age to acquire benefits by means of acquiring shares in or debentures of the Company or any other body corporate.

Pre-IPO Share Option Scheme of China Mobile Hong Kong Company Limited

Pursuant to a resolution passed by the shareholders of China Mobile Hong Kong Company Limited (formerly known as China Mobile Peoples Telephone Company Limited) (“CMHK”) on 4 March 2004, the pre-IPO share option scheme (the “CMHK Pre-IPO Scheme”) was adopted to incentivize the then employees of CMHK.

No share options were granted under the CMHK Pre-IPO Scheme after the listing of CMHK on 31 March 2004 and no further share options will be granted under the CMHK Pre-IPO Scheme. There were 70,000 shares covered by the share options granted under the CMHK Pre-IPO Scheme which were outstanding at the beginning of the six months ended 30 June 2014. All the share options outstanding at the beginning of the six months ended 30 June 2014 were granted to employees of CMHK on 11 March 2004, and the exercise price was HK\$4.55 per share, being the offer price of the shares of CMHK at the time of its initial public offering. All options granted under the CMHK Pre-IPO Scheme have been vested. Grantees of the outstanding share options are entitled to exercise the share options from 11 March 2005 to 10 March 2014. No share options granted under the CMHK Pre-IPO Scheme have been exercised during the six months ended 30 June 2014. Accordingly, all of the outstanding share options lapsed during the six months ended 30 June 2014.

Substantial Shareholders' and Other Persons' Interests and Short Positions in Shares and Underlying Shares

The Company has been notified of the following interests in the Company's issued shares as at 30 June 2014 amounting to 5% or more of the ordinary shares in issue:

	Ordinary shares held		Percentage of total issued share capital
	directly	indirectly	
(i) China Mobile Communications Corporation ("CMCC")	–	14,890,116,842	73.31%
(ii) China Mobile (Hong Kong) Group Limited ("CMHK (Group)")	–	14,890,116,842	73.31%
(iii) China Mobile Hong Kong (BVI) Limited ("CMHK (BVI)")	14,890,116,842	–	73.31%

Note: In light of the fact that CMCC and CMHK (Group) directly or indirectly control one-third or more of the voting rights in the shareholders' meetings of CMHK (BVI), in accordance with the SFO, the interests of CMHK (BVI) are deemed to be, and have therefore been included in, the interests of CMCC and CMHK (Group).

Apart from the foregoing, as at 30 June 2014, no person or corporation had any interest in the share capital of the Company as recorded in the register required to be kept under section 336 of the SFO as having an interest in 5% or more of or any short position in the issued share capital of the Company.

Other Information (Continued)

Withholding and Payment of Enterprise Income Tax for Non-Resident Enterprises in Respect of 2014 Interim Dividend

Pursuant to the "Enterprise Income Tax Law of the People's Republic of China", the "Detailed Rules for the Implementation of the Enterprise Income Tax Law of the People's Republic of China" and the "Notice regarding Matters on Determination of Tax Residence Status of Chinese-controlled Offshore Incorporated Enterprises under Rules of Effective Management", the Company is required to withhold and pay 10 per cent enterprise income tax on the distribution of the 2014 Interim Dividend to its non-resident enterprise shareholders. The withholding and payment obligation lies with the Company. In respect of all shareholders whose names appear on the Company's register of members as at the Record Date who are not individuals (including HKSCC Nominees Limited, corporate nominees or trustees such as securities companies and banks, and other entities or organizations, which are all considered as non-resident enterprise shareholders), the Company will distribute the 2014 Interim Dividend after deducting enterprise income tax of 10 per cent. The Company will not withhold and pay the income tax in respect of the 2014 Interim Dividend payable to any natural person shareholders whose names appear on the Company's register of members as at the Record Date.

If any resident enterprise (as defined in the "Enterprise Income Tax Law of the People's Republic of China") listed on the Company's register of members which is duly incorporated in the People's Republic of China (the "PRC") or under the laws of a foreign country (or a region) but with a PRC-based de facto management body, does not desire to have the Company withhold and pay the said 10 per cent enterprise income tax, it shall lodge with Hong Kong Registrars Limited documents from its governing tax authority confirming that the Company is not required to withhold and pay enterprise income tax in respect of the dividend to which it is entitled at or before 4:30 p.m. on Friday, 5 September 2014.

If anyone would like to change the identity of the holders in the register of members, please enquire about the relevant procedures with the nominees or trustees. The Company will withhold for payment of the enterprise income tax for its non-resident enterprise shareholders strictly in accordance with the relevant laws and requirements of the relevant government departments and adhere strictly to the information set out in the Company's register of members on the Record Date. The Company assumes no liability whatsoever in respect of and will not entertain any claims arising from any delay in, or inaccurate determination of, the status of the shareholders or any disputes over the mechanism of withholding.
