REASON FOR THE ISSUE OF CONVERTIBLE BONDS AND USE OF PROCEEDS

The gross proceeds from the issue of the Convertible Bonds will be approximately HK\$1,000,000,000.

The Group is principally engaging in shipbuilding related business. At present, the Group's existing facilities allow the Group to construct vessels with displacement of up to approximately 20,000 tonnes. The shipbuilding industry in the PRC has suffered from prolonged recession since late 2008. As a result, many private shipyards were struggling with plummeting orders and soaring debts. While the condition of the shipbuilding industry in the PRC remains difficult in the first half of 2014, based on a steady increase in new orders and building prices since late 2013 and the favourable policies adopted by the PRC government in 2013 to, among other things, mitigate overcapacity, facilitate structural adjustment, and promote corporate mergers, reorganisation and transformation of the shipbuilding industry, the Board believes that the prolonged recession faced by the industry is expected to come to an end in the near future.

The Board currently intends to use the proceeds from the issue of the Convertible Bonds as follows:

- (i) approximately 80% of the net proceeds to fund capital expenditure projects to increase the production capability by, among other things, acquiring or constructing new shipyards near the coast which allows the Group to build ships with a displacement of exceeding 20,000 tonnes and to upgrade the existing production facilities of the Company. While the production capacity of the Group's shipyard did not reach its full capacity during 2013, the Group has secured four orders for heavy lift vessels and six orders for multi-purposes vessels since early 2014 and the Group has been negotiating certain constructing contracts with various parties. In light of the Group's plan to enhance its shipbuilding capability to construct larger vessels which it currently is unable to build, the steady increase in new orders and in anticipation of the further increase in demand when the industry revives, the Board expects that the enhancement and increase of the Group's production capability will enable the Group to capture business growth in the long run. As at the date of this announcement, the Company has not identified any targets to be acquired but the Company will continue to explore; and
- (ii) approximately 20% of the net proceeds will be used for general working capital purposes.

Taking into account the terms of the Convertible Bonds, the Company believes that it is in the interests of the Company. In addition, the Directors consider that the issue of the Convertible Bonds will provide the Company with immediate funding without immediate dilution of the shareholding of the existing Shareholders. Having considered that (i) the interest rate payable on the Convertible Bonds is fair and reasonable as compared with the prevailing interest rates generally offered by banks and financial institutions for similar loan facilities; and (ii) if the Convertible Bonds are exercised, the financial position of the Group will be strengthened with the conversion of debt into further equity capital, the Directors consider that the issue of the Convertible Bonds is an appropriate means of fund raising for the Company.

The Directors consider that the terms of the Placing Agreement and the Convertible Bonds, which were arrived at after arm's length negotiations between the Company and the Placing Agent, are fair and reasonable, and are in the interests of the Company and the Shareholders as a whole.
