China Power's Unit No. 3 of Pingwei Power Plant II Successfully Passes its 168-Hour Test Run

China Power International Development Limited ("China Power" or the "Company", stock code: 2380) today announces the first 600 MW super-critical coal-fired power generation unit of Anhui Huainan Pingwei Electric Power Generating Company Limited ("Pingwei Power Plant II") had passed a 168-hour full load test run on 19 March 2007.

Pingwei Power Plant II, wholly-owned by China Power, is proposed to build two 600MW super-critical coal-fired power generation units and at the same time to install Flue and Gas Desulphurization equipment. The construction of the project had been commenced on 10 March 2005. Unit No. 3 of Pingwei Plant II was China Power's first power generation unit which has passed the 168-hour test run among the six 600 MW units under construction. Currently, China Power has an attributable installed capacity of 5,948 MW.

CHINA POWER INTERNATIONAL DEVELOPMENT LIMITED

The shares of the Company have been listed on the Main Board of The Stock Exchange of Hong Kong Limited since 15 October 2004. The Company is the flagship company of China Power Investment Corporation (one of the five national power generation groups in China) and its principal business is to develop, construct, manage and operate power plants in China. The Company has 100% ownership in its three high-capacity coal-fired power plants under commercial operation, namely, Pingwei Power Plant, Yaomeng Power Plant and Shentou I Power Plant and 50% ownership in the associated company, Changshu Power Plant. The Company has 100% ownership in two high-capacity coal-fired power plants which are under construction, namely, Pingwei Power Plant II and Yaomeng Power Plant II, and is the controlling shareholder of 93% interest of Huanggang Dabieshan Power Plant which is under construction. Meanwhile, the Company also owns a 25% stake in Shanghai Electric Power Co. Ltd., which is listed on the Shanghai Stock Exchange. Currently, China Power has an attributable installed capacity of approximately 5,948 MW.
