

Mr. He Xi Meets with Mr. Liu Yuxi, President of China Region of LONGi Global Marketing Center

On February 10, 2022, Mr. He Xi, Chairman of CPID and Chief Engineer (New Energy) of SPIC, met with Mr. Liu Yuxi, President of China Region of LONGi Global Marketing Center, at the headquarters in Beijing.

Mr. He extended a warm welcome to Mr. Liu and his delegation, and briefly introduced the strategic direction and achievements of CPID in serving national energy development and clean energy innovation. Mr. He pointed out that, as an energy enterprise directly under the Central Government, CPID was actively responding to the "3060" target and rapidly promoting the shift to a low-carbon and zero-carbon enterprise. Mr. He hoped that both sides would further deepen the cooperation in the fields of large bases and product supply chain on the basis of good cooperation, innovate the business model of cooperation between both sides, make joint achievements, and realize the strategy of both sides.

Mr. Liu expressed his appreciation for the recent strategic development achievements of CPID, and introduced the cooperation between LONGi and CPID on projects. Mr. Liu expressed his willingness to carry out deeper cooperation with CPID, so as to seize the development opportunity of CPID's "installed clean energy power capacity accounting for more than 90% by 2025", create a new model of "technology + capital + brand", and promote the cooperation between both sides.

During the meeting, both sides also fully communicated and exchanged views on the progress of some cooperation projects and the next work plan, and further discussed the innovative

development business model, and both sides expressed that they would further strengthen communication and jointly promote their cooperation to achieve greater progress.

Mr. Zhao Yonggang, Vice President of CPID, and Ms. Wang Qian, Vice President of China Region of LONGi Global Marketing Center, attended the meeting.
