

## **Mr. Yin Li, Secretary of Beijing Municipal Party Committee, Visits China Power Energy Storage Development Limited**

On July 25th, Mr. Yin Li, Member of the Political Bureau of the CPC Central Committee and Secretary of Beijing Municipal Party Committee, accompanied by Mr. He Xi, Chief Engineer (New Energy) of SPIC and Secretary of Party Committee and Chairman of CPID, made a research on "thoroughly studying and implementing Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era and promoting high-quality development of Beijing City" at China Power Energy Storage Development Limited.

Mr. Yin visited the exhibition hall and production line of the company, saw the products and their application scenarios, the performance display and production line operation, inspected the investigation and elimination of hidden hazards, listened to the report on the preparation of core technology and research and development, the development and layout of domestic and international markets, and the development layout of new-type energy storage technologies.

Mr. Yin fully endorsed the company's work, and pointed out that the future application demand for user-side energy storage is very broad, and the company's business development direction is highly compatible with Beijing's industrial planning, and the company's self-developed products have unique advantages and obvious market competitiveness, and encouraged the company to continue to be rooted in Beijing, and continuously strengthen the research and development and application of energy storage technologies. At the same time, Mr. Yin stressed the need to further strengthen the cooperation between the central and local enterprises to achieve win-win development, and work together to promote the upgrading of Beijing City.
