Chairman's Statement

On behalf of the Board, I am pleased to present to the shareholders of the Company the results of the Group for the year ended 31 December 2019 ("FY2019").

RESULTS

During FY2019, the Group continued to principally engage in the business of marine transportation, property holding and investment, investment holding and merchandise trading.

Against the backdrop of the trade disputes between the United States and China throughout the year, the Group managed to achieve a profitable results by posting a profit attributable to owners of the Company of US\$180,000 (2018: US\$1,251,000) and a basic earnings per share of US0.03 cent (2018: US0.25 cent). The Group also booked a total comprehensive income of US\$758,000 that compared favourably to the total comprehensive expense of US\$103,000 recorded last year. The Group's revenue for FY2019 increased by 21% reaching US\$14,708,000 (2018: US\$12,191,000) and was largely a result of the increase in revenue generated by the marine transportation business.

In February 2019, the Group completed the acquisition of a Supramax dry bulk carrier (now named MV Polyworld) with carrying capacity of approximately 57,000 dwt and has significantly increased the total carrying capacity of the Group's self-owned vessels to approximately 171,000 dwt. The acquisition of MV Polyworld is in line with the Group's corporate development strategy of expanding the scale of its marine transportation business.

Despite the increase in the Group's revenue, the Group's profit decreased as net impairment loss on vessels of US\$247,000 was booked in the current year in contrast to the reversal of impairment loss on vessels of US\$4,257,000 recorded last year, notwithstanding the considerable increase in profit contributed by the marine transportation operation of US\$2,081,000 (2018: US\$942,000) and the profitable results of US\$383,000 recorded by the investment holding business (2018: loss of US\$3,809,000).

PROSPECTS

Upon completion of the acquisition of MV Polyworld, the Group has significantly increased the carrying capacity of its dry bulk fleet and placed the Group in a better competitive position in the industry. Nevertheless, the outlook of the marine transportation industry is very challenging. Although the tension of trade disputes between the United States and China has eased following the signing of the first stage trade deal in January 2020, the global outbreak of the coronavirus pandemic, particularly in North America, Europe and Asia will inevitably hamper development of international trade flow which in turn poses negative impact on the Group's operation. It is difficult to predict the evolution and duration of the pandemic, but hopefully it should come to an end one day. Looking forward, the Group will continue to manage its businesses in a disciplined manner, and be cautious in seizing new investment/business opportunities with attractive returns as well as pursuing the plan in acquiring another dry bulk vessel to further expand the carrying capacity of its fleet.

APPRECIATION

The Group has achieved satisfactory performance for FY2019. I would like to take this opportunity to thank all our shareholders, investors, bankers, business associates and customers for their continuing support to the Group, my fellow directors for their valuable services, and all staff members for their great efforts and dedicated work during FY2019.

Management Discussion and Analysis

BUSINESS REVIEW

During the year ended 31 December 2019 (“FY2019”), the Group continued to principally engage in the business of marine transportation, property holding and investment, investment holding and merchandise trading.

Against the backdrop of the trade disputes between the United States and China throughout the year, the Group managed to achieve a profit attributable to owners of the Company of US\$180,000 (2018: US\$1,251,000) and posted a basic earnings per share of US0.03 cent (2018: US0.25 cent) for FY2019. The Group also booked a total comprehensive income of US\$758,000 which compared favourably to the total comprehensive expense of US\$103,000 recorded last year. The Group’s revenue grew by 21% to US\$14,708,000 (2018: US\$12,191,000) that was largely attributed to the increase in revenue of the marine transportation business.

Marine transportation

For FY2019, the Group’s marine transportation business reported significant progress in operating results by recording a 72% growth in revenue to US\$10,111,000 (2018: US\$5,886,000) and a 121% increase in profit to US\$2,081,000 (2018: US\$942,000). The substantial increases in revenue and profit of the operation were the combined results of (i) the commencement of the charter-in and charter-out vessel (“CICOV”) business since June 2018; (ii) the acquisition of a Supramax dry bulk carrier with carrying capacity of approximately 57,000 dwt completed in February 2019 (the vessel is now named MV Polyworld); and (iii) the increase in charter rates of the Group’s self-owned vessels, resulting mainly from the improved market conditions of vessel chartering business, although remained rather volatile, compared with the prior year.

As a measure to expand the scope and operations of the marine transportation business, the Group has commenced its CICOV business in June 2018. The principal purpose of commencing the CICOV business is to provide more options to customers in terms of mode of chartering i.e. voyage or time charter and duration of chartering period. Since June 2018, the Group had charter-in one Panamax size vessel with carrying capacity of approximately 82,000 dwt, however, as market conditions were not favourable primarily resulting from the year-long United States-China trade disputes, the Group had elected to terminate the charter-in contract and put this business on a temporary halt. The Group will consider resuming this business when market conditions improve.

In February 2019, the Group completed the acquisition of MV Polyworld and has increased the total carrying capacity of its self-owned vessels to approximately 171,000 dwt. The acquisition of MV Polyworld is in line with the Group’s corporate development strategy of expanding the scale of its marine transportation business.

Against the backdrop of the trade disputes between the United States and China, the BDI was rather volatile during the current year by hitting its low of below 600 points in February 2019, reaching its peak of over 2,500 points in September 2019, and was hovering between 600 to 1,500 points level throughout a large part of the year. The tension of the United States-China trade disputes was one of the major factors which accounted for much of the volatilities of BDI throughout the year, although the tension of disputes has eased following the signing of the first phase trade deal in January 2020, the recent global outbreak of the coronavirus pandemic has added new uncertainties to the market with BDI now standing at about 600 points level. Prevailing market conditions are challenging and business of the operation has been adversely affected to a certain extent owing to the coronavirus outbreak. It is difficult to predict the evolution and duration of the pandemic, the Group however remains cautiously optimistic about the prospect of this business in the medium to long-term on the belief that the pandemic will come to an end one day.

Management Discussion and Analysis

Property holding and investment

The property holding and investment business reported a profit of US\$30,000 (2018: US\$1,739,000) and contributed a revenue of US\$63,000 (2018: US\$273,000) to the Group. The Group's investment property is an office unit at Shun Tak Centre, Sheung Wan, Hong Kong and is leased under a new tenancy since September 2019 which generated a rental income of US\$63,000 (2018: US\$273,000). The decrease in rental income was due to the early termination of the previous tenancy and the property was vacant for several months during the current year. The investment property was valued at US\$10,462,000 at the year end (2018: US\$10,490,000) and a revaluation gain of US\$38,000 (2018: US\$1,432,000) was recognised in FY2019.

Investment holding

The Group's investment holding business contributed a revenue of US\$827,000 (2018: US\$784,000) and achieved a profit of US\$383,000 (2018: loss of US\$3,809,000) in FY2019. The revenue of the business comprised interest income from corporate bonds and dividend income from listed equity securities held by the Group.

During the year, the Group continued to invest in listed equity securities and corporate bonds. The corporate bonds acquired by the Group were issued by property and aircraft leasing companies listed on the Hong Kong Stock Exchange with a yield to maturity upon acquisition of these bonds ranging from approximately 4.68% to 12.33% per annum. For listed equity securities, the Group's investment strategy is to target for stocks with good value appreciation potential whether in short, medium or long term and/or good dividend yield. For corporate bonds, the Group is to target for bonds with good interest yield and low default risk. For making investment decision on securities or bonds of individual target company, references will usually be made to its announcements, news, latest financial information, dividend policy and business prospect.

At the year end, the Group's investments classified as "financial assets at fair value through profit or loss ("FVTPL")" of US\$1,861,000 (2018: US\$2,596,000) represented a portfolio of listed equity securities held for non-long term purpose, whereas the Group's investments classified as "debt instruments at fair value through other comprehensive income ("FVTOCI")" of US\$9,978,000 (2018: US\$8,829,000) represented a portfolio of corporate bonds held for long term purpose.

For the year under review, the revenue of this business comprised interest income from corporate bonds and dividend income from equity securities, whereas the profit of this business represented mainly interest income from corporate bonds of US\$692,000 (2018: US\$629,000), dividend income from equity securities of US\$135,000 (2018: US\$155,000) after offset by unrealised loss on listed equity securities held at year end of US\$456,000 (2018: US\$3,870,000). During the year, the Group disposed of part of its equity securities investments and recorded realised loss of US\$5,000 (2018: US\$716,000).

For FY2019, a net increase in fair value of the Group's debt instruments at FVTOCI of US\$576,000 (2018: net decrease of US\$1,107,000) was recognised as other comprehensive income. There were no material fundamental changes in the financial parameters of these debt instruments, the net increase in fair value of these debts was primarily due to the interest rate cut in general during FY2019 which drove up the market value of these debts.

Merchandise trading

The Group continued its merchandise trading business which focusing on trading of consumable goods relating to infant and personal care products as well as electronic components during FY2019. The business generated revenue of US\$3,707,000 (2018: US\$5,248,000), decreased by 29%, and posted an operating profit of US\$51,000 (2018: US\$71,000), decreased by 28%. The declines in both revenue and profit of the business were to a certain extent due to the trade disputes between the United States and China which caused a slowdown of the electronics industry in general.

Share of result of a joint venture

During FY2019, the Group shared the profit of a joint venture amounting to US\$399,000 (2018: US\$99,000) which mainly related to the increase in fair value of an industrial property in Shanghai, China held by the joint venture, the property is vacant at present and is intended for leasing. At 31 December 2019, the carrying value of the investment in joint venture was US\$4,680,000 (2018: US\$4,337,000).

Management Discussion and Analysis

OVERALL RESULTS

The Group recorded a profit for the year attributable to owners of the Company of US\$180,000 (2018: US\$1,251,000) and total comprehensive income attributable to owners of the Company of US\$758,000 (2018: total comprehensive expense of US\$103,000). Despite the increase in the Group's revenue, the Group's profit decreased as net impairment loss on vessels of US\$247,000 was booked in the current year in contrast to the reversal of impairment loss on vessels of US\$4,257,000 recorded last year, notwithstanding the considerable increase in profit contributed by the marine transportation operation of US\$2,081,000 (2018: US\$942,000) and the profitable results of US\$383,000 recorded by the investment holding business (2018: loss of US\$3,809,000). The other comprehensive income of US\$578,000 mainly represented the net increase in fair value of debt instruments at FVTOCI.

FINANCIAL REVIEW

Liquidity, financial resources and capital structure

During FY2019, the Group financed its operation mainly by cash generated from operations, credit facilities provided by banks and other financial institution, and shareholders' funds. At 31 December 2019, the Group had current assets of US\$5,941,000 (2018: US\$10,914,000) and liquid assets comprising bank balances and cash, time deposit and investment in listed equity securities totalling US\$4,312,000 (2018: US\$7,380,000). The Group's current ratio, calculated based on current assets over current liabilities of US\$7,139,000 (2018: US\$10,956,000), was at a ratio of about 0.83 at the year end (2018: 1.00). During the current year, the Group raised a new revolving loan from a bank with outstanding balance of US\$2,821,000 at the year end. The loan is revolving with no fixed repayment date whilst need to be repaid if demanded by bank. The revolving loan is classified as current liabilities, if the loan is excluded as current liabilities, the Group's current ratio would have been 1.38. At 31 December 2019, the equity attributable to owners of the Company amounted to US\$43,842,000 (2018: US\$43,084,000), increased by US\$758,000 or 2% compared to the prior year end that was largely attributed to the profit earned by the Group during the current year as well as the net increase in fair value of the Group's debt instruments at FVTOCI. At the year end, the Group's borrowings represented loans from banks and other financial institution mainly for financing the holdings of vessels and debt instruments at FVTOCI. During the current year, the Group successfully raised new loans in the aggregate amount of US\$12,908,000 mainly for financing the acquisition of MV Polyworld and working capital of the Group. During the current year, the Group repaid loans totalling US\$8,182,000. At 31 December 2019, the borrowings were denominated in United States dollars or Hong Kong dollars, bore interest at floating rates, and were secured by the three vessels, the investment property and the debt securities owned by the Group. The following is an analysis of the Group's borrowings and maturity profile:

Management Discussion and Analysis

	At 31 December 2019 US\$'000	At 31 December 2018 US\$'000
Secured loans	19,143	14,417
The carrying amounts of the loans are repayable*:		
On demand	2,821	–
Within one year	3,268	9,339
More than one year, but not exceeding two years	3,268	1,146
More than two years, but not exceeding five years	9,786	3,932
	19,143	14,417

* The amounts due are based on scheduled repayment dates set out in the loan agreements.

The Group's finance costs of US\$1,171,000 for the year represented mainly interests for the borrowings, finance costs increased by 44% (2018: US\$812,000) was largely a result of the new loans raised during the current year for financing the acquisition of MV Polyworld and the increase in interest rate charged for floating-rate borrowings compared to last year.

The Group's gearing ratio, calculated on the basis of total borrowings of US\$19,143,000 (2018: US\$14,417,000) divided by total equity of US\$43,842,000 (2018: US\$43,084,000), was at a ratio of about 44% at the year end (2018: 33%).

With the amount of liquid assets on hand as well as the credit facilities granted by banks and other financial institution, the management is of the view that the Group has sufficient financial resources to meet its ongoing operational requirement.

Event after the reporting period

The outbreak of the coronavirus pandemic that is affecting many nations, the global and local investment markets and the international trade flow has potential adverse impact on the Group's operations. The Directors considered it is difficult to predict the evolution and duration of the pandemic and that at the reporting date, the extent of its impact to the Group cannot be reliably quantified or estimated. The management will continue to closely monitor the situation and will take all necessary and appropriate measures to reduce the impact of the pandemic to the Group.

Foreign currency management

The monetary assets and liabilities as well as business transactions of the Group are mainly denominated in United States dollars and Hong Kong dollars. During FY2019, the Group had not experienced any significant exposure to exchange rate fluctuations, as such, the Group had not entered into any financial arrangements for hedging purposes. Appropriate measures will be undertaken by the Group should exchange rate fluctuations become significant.

Management Discussion and Analysis

Pledge of assets

At 31 December 2019, the three vessels owned by the Group, namely MV Zorina, MV Heroic and MV Polyworld, with aggregate carrying amount of US\$33,709,000 (including dry-docking), an investment property with carrying amount of US\$10,462,000 and debt instruments at FVTOCI with carrying amount of US\$7,918,000 were pledged to banks and other financial institution to secure loan facilities granted to the Group.

At 31 December 2018, the two vessels owned by the Group, namely MV Zorina and MV Heroic, with aggregate carrying amount of US\$23,459,000 (including dry-docking) were pledged to bank and other financial institution to secure loan facilities granted to the Group.

Contingent liabilities

At 31 December 2019, the Group had no significant contingent liability (2018: nil).

Capital commitments

At 31 December 2019, the Group had no significant capital commitment. At 31 December 2018, the Group had a maximum capital commitment of US\$10,412,000 being the balance of the unpaid consideration for acquisition of the entire issued share capital of, and the shareholder's loan to, Polyworld Marine Corp., with its sole assets being the vessel now named as MV Polyworld.

EMPLOYEES AND REMUNERATION POLICY

At 31 December 2019, the Group had 13 (2018: 14) employees including directors of the Company. For FY2019, staff costs (including directors' emoluments) amounted to US\$416,000 (2018: US\$560,000). The remuneration packages for directors and staff are normally reviewed annually and are structured by reference to prevailing market terms and individual competence, performance and experience. The Group operates a Mandatory Provident Fund Scheme for employees in Hong Kong. In addition, the Group provides other employee benefits including medical insurance, subsidised training programme as well as discretionary bonus. During FY2019, the Group continued to engage a shipping agency to provide crew services (about 44 crew members) (2018: about 22 crew members) for two (2018: one) of the Group's vessels, crew expenses for the year amounting to US\$1,714,000 (2018: US\$620,000).

Management Discussion and Analysis

RISK FACTORS

The Group has identified and is facing a number of significant risks during FY2019. Some of these risks are ongoing factors which the industry has to cope with in medium to long-term. Other risk factors are specific to the Group.

1. Economic Risk

The tension of the United States-China trade disputes was one of the major factors which resulted in the volatility of BDI during FY2019. The BDI, which has a close correlation to freight rate, was at its low and below 600 points in February 2019, reached its peak and over 2,500 points in September 2019, and was hovering between 600 to 1,500 points level throughout a large part of FY2019. The movement of BDI is outside of the Group's control and would have a material effect on the financial performance of the Group's marine transportation business.

The prospects of the Group's property holding and investment business depend on the state of property market in Hong Kong. Any real estate market downturn in Hong Kong may materially and adversely affect the financial position, operations, business and prospects of the Group's property holding and investment business. The real estate market in Hong Kong can be affected by many factors, including but not limited to changes in economic, political, social and legal environment and changes in fiscal and monetary policy, all of which are beyond the Group's control.

The global economic conditions and the state of international financial and investment markets, including the economy, financial and investment markets of the United States, Mainland China and Hong Kong, of which the Group has no control, have significant influence on the financial performance of the Group's investment holding business.

2. Market Risk

The Group's marine transportation business is operating in a rather volatile market. The business of dry bulk cargo carriers is subject to demand and supply of vessels by cargo shippers in the region as well as the worldwide market. The Group is therefore facing intense competition among shippers.

The Group's property investment business is operating in a rather competitive environment as rental rate of properties are transparent in property leasing market in Hong Kong. The transparency of the leasing market put pressure on the revenue and profitability of the Group's property investment business.

The merchandise trading business is highly competitive. The Group's competitive advantage is its ability of providing product differentiation by offering quality products at reasonable prices. However, the operating environment of the Group's merchandise trading business may become challenging in light of the increasing number of market participants.

Management Discussion and Analysis

3. Financial Risk

The Group is exposed to financial risks relating to foreign currency, interest rate, price of securities, credit and liquidity in its ordinary course of business. For details of such risks and management policies, please refer to note 39 to the consolidated financial statements.

4. Environment Risk

The Group is constantly exposed to inherent risks such as oil spills, pollution, collisions, mechanical breakdown of its vessels, adverse weather conditions, fire or other calamity. Any of these factors may cause disruptions to the Group's marine transportation operation and result in loss or damage to its vessels or cargos. The Group may also be liable for damages or compensation payable and its existing insurance may not be able to cover all claims fully or its costs may increase significantly. This may adversely affect the financial performance of the Group's marine transportation business.

5. Customer Risk

The Group has been relied on a small number of customers in the last few years. This has been limiting the Group's bargaining power on freight rates and flexibility in freight contract options. The Group may not be able to expand its customer base in the short to medium-term in light of prevailing competitive market conditions which may adversely affect the financial performance of the Group's marine transportation business.

6. Supply Chain Risk

The Group sources products from a number of suppliers. The cooperation is based on well-entrenched relationship and fair terms of trade between the Group and suppliers. However, the Group cannot warrant that the relationship with each supplier will remain unchanged, in the event the Group is unable to reach agreement upon reasonable terms with any suppliers and cannot find suitable substitute suppliers, the Group's merchandise trading business may be affected.

COMPLIANCE WITH THE RELEVANT LAWS AND REGULATIONS

As far as the Board and management are aware, the Group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of the Group. During the year, there was no material breach of or non-compliance with the applicable laws and regulations by the Group.

RELATIONSHIP WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group understands the importance of maintaining a good relationship with its employees, customers and suppliers to meet its immediate and long-term business goals. During FY2019, there were no material and significant dispute between the Group and its employees, customers and suppliers.

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group is committed to the long term sustainability of the environment and communities in which it operates. The Group is closely following the rules and regulations of the International Maritime Organisation ("IMO"). The IMO sets out a number of regulations and guidelines for the shipping industry that include safety, environment, human, technical, legal and security elements. The Group has established internal control systems and procedures based on these IMO rules, especially the International Safety Management Code. The Group's internal control systems are subject to annual review and audit by IMO compliance agents. The Group is working vigorously to improve its performance in order to follow and match the ever changing requirements of the industry and the IMO in particular.

Mr. To Yan Ming, Edmond (*passed away on 28 August 2019*)

In accordance with Bye-law 85(6) of the Bye-laws, any Director appointed by the Board shall retire at the next annual general meeting of the Company and shall then be eligible for re-election at that meeting. Accordingly, Mr. Tsao Hoi Ho shall retire at the forthcoming annual general meeting of the Company (the "2020 AGM"), and being eligible, offer himself for re-election.

In accordance with Bye-law 86 of the Bye-laws, each Director shall retire at least once every three years. Other than the above newly appointed Director, namely Mr. Tsao Hoi Ho, no remaining Director is required to retire pursuant to the Bye-laws as all remaining Directors were appointed at an annual general meeting less than three years before the 2020 AGM.

DIRECTORS' SERVICE CONTRACTS

None of the directors being proposed for re-election at the 2020 AGM has a service contract with the Company or any of its subsidiaries which is not determinable by the Group within one year without payment of compensation, other than statutory compensation.

Report of the Directors

PERMITTED INDEMNITY PROVISIONS

Pursuant to the Bye-laws, every director or other officer of the Company for the time being acting in relation to any affairs of the Company shall be entitled to be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses which he/she shall or may incur or sustain in or about the execution of the duties of his/her office or otherwise in relation thereto, and no director or other officer shall be liable for any loss, misfortune or damage which may happen in the execution of his/her office or in relation thereto provided that this indemnity shall not extend to any matter in respect of any fraud or dishonesty which may attach to any of the directors or other officers. The Company has arranged appropriate directors' and officers' liability insurance coverage for the directors and other officers of the Company during the year.

DIRECTORS' REMUNERATION

Details of the directors' remuneration are set out in note 12 to the consolidated financial statements.

DIRECTORS' MATERIAL INTERESTS IN CONTRACTS OF SIGNIFICANCE

No contract of significance to which the Company or any of its subsidiaries was a party and in which a director of the Company had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

DIRECTORS' INTERESTS AND SHORT POSITIONS, UNDERLYING SHARES AND DEBENTURES

At 31 December 2019, none of the directors and chief executive of the Company had any interests in the shares, underlying shares and debentures of the Company or its associated corporations (within the meaning of Part XV of the SFO) as recorded in the register required to be kept by the Company under section 352 of the SFO, or as otherwise notified to the Company and the Hong Kong Stock Exchange pursuant to the Model Code contained in the Hong Kong Listing Rules.

SHARE OPTION SCHEME

Details of the share option scheme of the Company are set out in note 31 to the consolidated financial statements.

Report of the Directors

DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES

Save as disclosed in the section headed "Share Option Scheme" above, at no time during the year was the Company or any of its subsidiaries a party to any arrangements to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, and none of the directors of the Company or their spouse or minor children had any rights to subscribe for the securities of the Company, or had exercised any such rights during the year.

INTERESTS AND SHORT POSITIONS OF SHAREHOLDERS DISCLOSEABLE UNDER THE SFO

At 31 December 2019, the following interests of more than 5% of the total number of issued shares of the Company were recorded in the register of interests required to be kept by the Company pursuant to section 336 of the SFO:

Long positions in the shares of the Company:

Name of Shareholder	Capacity and nature of interest	Number of shares held	Approximate percentage of the Company's issued share capital

The Group remunerates its employees based on their competence, performance, experience and prevailing market terms. Other employee benefits included provident fund scheme, medical insurance, subsidised training programme as well as discretionary bonuses.

DIRECTORS' INTERESTS IN COMPETING BUSINESS

During the year and up to the date of this annual report, none of the directors, or any of their respective close associates (as defined in the Hong Kong Listing Rules) had any material interest in a business that competes or may compete with the business of the Group.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Bye-laws or the Companies Act 1981 of Bermuda which would oblige the Company to offer new shares on a pro rata basis to existing shareholders.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the year ended 31 December 2019, neither the Company, nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

EQUITY-LINKED AGREEMENTS

Save for the share option scheme of the Company disclosed above, no equity-linked agreements were entered into by the Group, or existed during the year.

MANAGEMENT CONTRACTS

No contract concerning the management and administration of the whole or any substantial part of any business of the Company was entered into or existed during the year.

AUDIT COMMITTEE

The audited consolidated financial statements of the Company for the year ended 31 December 2019 have been reviewed by the Audit Committee before they are duly approved by the Board under the recommendation of the Audit Committee.

AUDITOR

The consolidated financial statements of the Company for the year ended 31 December 2019 have been audited by Deloitte Touche Tohmatsu. A resolution will be proposed at the 2020 AGM to re-appoint Deloitte Touche Tohmatsu as auditor of the Company.

On behalf of the Board

Sue Ka Lok
Chairman

Hong Kong, 25 March 2020

Corporate Governance Report

The Company has recognised the importance of transparency and accountability, and believes that shareholders can benefit from good corporate governance. The Company aims to achieve good standard of corporate governance.

CORPORATE GOVERNANCE

The Company had complied with all the applicable code provisions of the Corporate Governance Code (the “CG Code”) as set out in Appendix 14 to the Hong Kong Listing Rules for the year ended 31 December 2019 except for the following deviation with reasons as explained:

Code Provision A.5.5(2)

Code provision A.5.5(2) of the CG Code stipulates that where the board proposes a resolution to elect an individual as an independent non-executive director at the general meeting, it should set out in the circular to shareholders and/or explanatory statement accompanying the notice of the relevant general meeting why the board believes the individual would still be able to devote sufficient time to the board if the proposed independent non-executive director will be holding his seventh (or more) listed company directorship.

Deviation

During the year ended 31 December 2019, there had been a deviation from the code provision A.5.5(2) in respect of a disclosure (or the lack therein) in the circular to shareholders accompanying the notice of the annual general meeting of the Company held on 20 June 2019 (the “2019 AGM”) regarding reasons that the Board believes Mr. To Yan Ming, Edmond, an Independent Non-executive Director who was subject to re-election at the 2019 AGM, would still be able to devote sufficient time to the Board as he would be holding more than seven listed company directorship after re-election at the 2019 AGM. The Board had considered its reasons including that Mr. To had been providing valuable independent advice to the Board, his attendance at Board meetings and annual general meetings of the Company had been satisfactory and his directorships with other listed companies were non-executive in nature. The Board did not disclose its reasons in the circular as Mr. To was not a new director of the Company and his various external directorships was something that the Board had been aware of for many years. The existences of these external directorships had been disclosed to the shareholders in annual reports of the Company and in each circular relating to the re-election of Mr. To, together with a positive voting recommendation from the Board. The Board therefore did not consider that it was necessary to state its reasons for repeated re-election of the same director in the circular to shareholders and/or explanatory statement accompanying the 2019 AGM notice. However, for the purpose of good corporate governance, the Board will disclose such information in the future in respect of re-election of independent non-executive director(s) who will be holding his/her seventh (or more) listed company directorships after his/her re-election.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code as set out in Appendix 10 to the Hong Kong Listing Rules as its own code of conduct regarding securities transactions by directors of the Company. Having made specific enquiry with the directors, all of them confirmed that they had complied with the required standards set out in the Model Code during the year ended 31 December 2019.

Corporate Governance Report

BOARD OF DIRECTORS

The Board formulates the overall strategy of the Group, monitors its financial performance and maintains effective oversight over the management. The Board members are fully committed to their roles and have acted in good faith to maximise the shareholders' value in the long run, and have aligned the Group's goals and directions with the prevailing economic and market conditions. Daily operations and administration are delegated to the management.

The Board met regularly throughout the year to discuss the overall strategy as well as the operation and financial performance of the Group. The directors are kept informed on timely basis of major changes that may affect the Group's business, including relevant rules and regulations. The directors can, upon reasonable request, seek independent professional advice in appropriate circumstances, at the Company's expenses. The Board shall resolve to provide separate appropriate independent professional advice to the directors to assist the relevant directors to discharge their duties.

Mr. To Yan Ming, Edmond, an Independent Non-executive Director, passed away on 28 August 2019. Mr. To was the Chairman of the Audit Committee, and a member of the Remuneration Committee and the Nomination Committee. On 27 November 2019, Mr. Tsao Hoi Ho has been appointed as an Independent Non-executive Director, the Chairman of the Audit Committee, and a member of the Remuneration Committee and the Nomination Committee.

At 25 March 2020, the date of this annual report, the Board comprises five directors, one is a Non-executive Director, Mr. Sue Ka Lok (Chairman), one is an Executive Director, namely Ms. Wang Yu and three are Independent Non-executive Directors, namely Mr. Zhou Qijin, Mr. Pau Shiu Ming and Mr. Tsao Hoi Ho. The directors are considered to have a balance of skills and experience appropriate for the requirements of the business of the Company. The Company has received from each of the independent non-executive directors an annual confirmation of his independence pursuant to Rule 3.13 of the Hong Kong Listing Rules.

The Company considers all the independent non-executive directors are independent in accordance with the independence guidelines set out in the Hong Kong Listing Rules. Biographical details of the directors are set out under the section headed "Biographical Details of Director and Senior Management" on pages 14 to 15 of this annual report.

Mr. Suen Cho Hung, Paul ("Mr. Suen"), the ultimate beneficial owner of the substantial shareholder of the Company, is the ultimate beneficial owner of the controlling shareholder of Birmingham Sports Holdings Limited (stock code: 2309) of which Mr. Sue Ka Lok ("Mr. Sue") is a non-executive director. Mr. Suen is the ultimate beneficial owner of the substantial shareholder of EPI (Holdings) Limited (stock code: 689) of which Mr. Sue is an executive director. Mr. Suen is the ultimate beneficial owner of the substantial shareholder of PT International Development Corporation Limited (stock code: 372) of which Mr. Sue is an executive director. Mr. Suen also indirectly holds 9.89% of the issued share capital in China Strategic Holdings Limited (stock code: 235) of which Mr. Sue is an executive director and the chief executive officer. All the above companies are listed on the Main Board of the Hong Kong Stock Exchange.

Save for the aforesaid, there is no other financial, business, family or other material/relevant relationship between the substantial shareholders and members of the Board.

The Company will provide a comprehensive, formal and tailored induction to each newly appointed director on his/her first appointment in order to enable him/her to have an appropriate understanding of the business and operations of the Group and that he/she is fully aware of his/her responsibilities and obligations under the Hong Kong Listing Rules and relevant regulatory requirements.

Corporate Governance Report

All directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. Directors are continually updated on developments in the statutory and regulatory regime and the business environment to facilitate the discharge of their responsibilities. The Company has provided timely technical updates, including the briefing on the amendments on the Hong Kong Listing Rules and the news release published by the Hong Kong Stock Exchange to the directors. Continuing briefing and professional development for directors are arranged where necessary.

During the year ended 31 December 2019, four regular Board meetings and two general meetings were held and the attendance of each director is set out as follows:

Mr. Tsao Hoi Ho (<i>appointed on 27 November 2019</i>)	1/1	0/0
Mr. To Yan Ming, Edmond (<i>passed away on 28 August 2019</i>)	1/3	1/2

CHAIRMAN AND CHIEF EXECUTIVE

The Group adopts a dual leadership structure in which the role of the Chairman is separated from that of the Chief Executive Officer (the "CEO"). The Chairman is responsible for overseeing all Board functions, while the management is under the leadership of the CEO to oversee the day-to-day operations of the Group and implement the strategies and policies approved by the Board.

The position of Chairman of the Board is currently held by Mr. Sue Ka Lok and the position of CEO is currently held by Mr. Yuen Chee Lap, Carl.

TERM OF APPOINTMENT OF NON-EXECUTIVE DIRECTORS

Each of the Independent Non-executive Directors is appointed for a term of twelve-month period which automatically renews for successive twelve-month periods unless terminated by either party in writing prior to the expiry of the term. All the Independent Non-executive Directors are also subject to retirement by rotation and re-election at least once every three years at the annual general meetings of the Company in accordance with the Company's Bye-laws.

Corporate Governance Report

REMUNERATION COMMITTEE

The Remuneration Committee has specific written terms of reference that is in compliance with the CG Code. At the date of this annual report, the Remuneration Committee comprises three Independent Non-executive Directors, namely Mr. Pau Shiu Ming, Mr. Zhou Qijin and Mr. Tsao Hoi Ho and Mr. Pau Shiu Ming is the Chairman of the Remuneration Committee.

The Remuneration Committee is mainly responsible for formulating the remuneration policy, reviewing and recommending to the Board the annual remuneration policy and the remuneration of the directors. The overriding objective of the remuneration policy is to ensure that the Group is able to attract, retain and motivate a high-caliber team which is essential to the success of the Group. The full terms of reference are available on the Company's website and the Hong Kong Stock Exchange's website.

The Remuneration Committee met two times during the year ended 31 December 2019 to assess the performance of the directors, and to review and make recommendations to the Board on the remuneration packages for directors. The attendance of each member is set out as follows:

Members	Number of attendance
Mr. Pau Shiu Ming	2/2
Mr. Zhou Qijin	2/2
Mr. Tsao Hoi Ho (<i>appointed on 27 November 2019</i>)	1/1
Mr. To Yan Ming, Edmond (<i>passed away on 28 August 2019</i>)	0/0

NOMINATION COMMITTEE

The Nomination Committee has specific written terms of reference that is in compliance with the CG Code. At the date of this annual report, the Nomination Committee comprises four members, including three Independent Non-executive Directors, namely Mr. Zhou Qijin, Mr. Pau Shiu Ming and Mr. Tsao Hoi Ho; and one Non-executive Director, namely Mr. Sue Ka Lok. Mr. Zhou Qijin is the Chairman of the Nomination Committee.

The Nomination Committee is mainly responsible for identifying potential directors and making recommendations to the Board on the appointment or re-appointment of directors of the Company. Potential new directors are selected on the basis of their qualifications, skills and experience that he/she could add value to the management through his/her contributions in the relevant strategic business areas. The full terms of reference are available on the Company's website and the Hong Kong Stock Exchange's website.

Corporate Governance Report

The Nomination Committee met two times during the year ended 31 December 2019 to review the board diversity policy of the Company (the "Board Diversity Policy"), the independence of independent non-executive directors, and the structure, size and composition of the Board; and to make recommendation to the Board on the appointment and re-election of directors. The attendance of each member is set out as follows:

Members	Number of attendance
Mr. Zhou Qijin	2/2
Mr. Pau Shiu Ming	2/2
Mr. Tsao Hoi Ho (<i>appointed on 27 November 2019</i>)	0/0
Mr. Sue Ka Lok	2/2
Mr. To Yan Ming, Edmond (<i>passed away on 28 August 2019</i>)	0/0

The Company recognises the benefits of having a diverse Board to enhance the quality of its performance and adopted the Board Diversity Policy in March 2014. The Board Diversity Policy sets out that in determining the optimum composition of the Board, differences in skills, regional and industry experience, background, race, gender and other qualities of directors shall be considered. All Board appointments are made on merits, in the context of skills and experience the Board as a whole requires, with due regard for the benefits of diversity of the Board. The Nomination Committee shall review and assess the Board composition and its effectiveness on an annual basis. When there is vacancy on Board, the Nomination Committee will recommend suitable candidates for appointment to the Board on merits, based on the terms of reference of the Nomination Committee, with due regard to the Company's own circumstances. The Nomination Committee had reviewed the diversity of the Board during the year ended 31 December 2019 and will review the Board Diversity Policy from time to time to ensure that the policy will be implemented effectively.

AUDITOR AND AUDITOR'S REMUNERATION

The statement of the external auditor of the Company about their responsibilities on the Company's consolidated financial statements for the year ended 31 December 2019 is set out in the "Independent Auditor's Report" on pages 44 to 49 of this annual report.

For the year ended 31 December 2019, remuneration payable to the Company's auditor, Deloitte Touche Tohmatsu, for the provision of audit services was HK\$1,600,000. During the year, HK\$224,000 was paid as remuneration to Deloitte Touche Tohmatsu for the provision of non-audit related services.

Corporate Governance Report

AUDIT COMMITTEE

The Audit Committee has specific written terms of reference that is in compliance with the CG Code.

Following the pass away of Mr. To Yan Ming, Edmond on 28 August 2019, the Company only had two Independent Non-executive Directors and thus the number of independent non-executive directors and the number of members of the Audit Committee fell below the minimum number required under the Rule 3.10(1), Rule 3.10(2) and Rule 3.21 of the Hong Kong Listing Rules. Upon the appointment of Mr. Tsao Hoi Ho as an Independent Non-executive Director on 27 November 2019, the Company has fully complied with the requirements under Rule 3.10(1), Rule 3.10(2) and Rule 3.21 of the Hong Kong Listing Rules.

At the date of this annual report, the Audit Committee comprises three Independent Non-executive Directors, namely Mr. Tsao Hoi Ho, Mr. Zhou Qijin and Mr. Pau Shiu Ming, who among themselves possess a wealth of management experience in the accounting profession and in commercial fields. Mr. Tsao Hoi Ho is the Chairman of the Audit Committee.

The Audit Committee is mainly responsible for reviewing financial statements of the Company, discussing the risk management and internal control of the Group and meeting with the auditor of the Company. Any findings and recommendations of the Audit Committee will be submitted to the Board for consideration. The Audit Committee is authorised by the Board to investigate any activity within its terms of reference. It is authorised to seek any information it requires from any employee. It is also authorised to obtain outside legal or other independent professional advice and to secure the attendance of outsiders with relevant experience and expertise if it considers necessary. The full terms of reference are available on the Company's website and the Hong Kong Stock Exchange's website.

The Audit Committee met two times during the year ended 31 December 2019 and the attendance of each member is set out as follows:

Members	Number of attendance
Mr. Tsao Hoi Ho (<i>appointed on 27 November 2019</i>)	0/0
Mr. Zhou Qijin	2/2
Mr. Pau Shiu Ming	2/2
Mr. To Yan Ming, Edmond (<i>passed away on 28 August 2019</i>)	1/2

Corporate Governance Report

RISK MANAGEMENT AND INTERNAL CONTROL

The Board has ultimate responsibilities for evaluating and determining the Company's levels of risk tolerance, overseeing the management in the design, implementation and monitoring of the risk management and internal control systems on an ongoing basis and reviewing their effectiveness.

The Group established the risk management and internal control systems with aims to manage rather than eliminate the risk of failure to achieve business objectives, and provide reasonable and not absolute assurance against material misstatements or losses caused by judgment in decision making process, human error, fraud or other irregularities.

The Board is also committed to review the adequacy and effectiveness of the Group's risk management and internal control systems annually, including financial, operational and compliance controls. The Group does not have an internal audit function due to the size of the Group and consideration for cost effectiveness. Instead, such review is carried out with the assistance of Roma Risk Advisory Limited, an independent outsourced internal auditor. The review aims to ensure the adequacy of resources, staff qualifications and experience, training programmes and budget of the Group's accounting, internal audit and financial reporting functions. It also assists the Group to maintain the quality of the review in assessing its risk management and internal control systems.

During the year ended 31 December 2019, the Group has reviewed an internal audit charter which defined the scope and duties and responsibilities of the internal audit function and its reporting protocol. The Group has also conducted an annual risk assessment to identify, evaluate and manage respective significant strategic risks, operational risks, financial risks and compliance risks of its major business segments. Based on the risk assessment results following a risk based methodology audit approach, an annual review was performed with a view to assisting the Board and the Audit Committee to evaluate the effectiveness of the Group's risk management and internal control systems. The independent outsourced internal auditor has reviewed the relevant policies and procedures of the Group, conducted collaborative interviews, document inspection and performed walkthrough tests and samples testing procedures and presented to the Board and the Audit Committee an Internal Control and Enterprise Risk Management Report which contained certain findings and relevant recommendations and suggestions for improvement. The review covered material controls, including financial, operational and compliance controls at entity and operational levels.

The Company has established a policy on handling and dissemination of inside information that set out the procedures in handling inside information in an accurate and secure manner and to avoid possible mishandling of inside information within the Group.

Based on the risk management and internal control systems established and maintained by the Group, the work performed by the outsourced internal and external auditors, and reviews performed by the management, the Audit Committee and the Board, the Audit Committee and the Board are not aware of any significant internal control and risk management weaknesses or inconsistencies with risk management policies, and are of the opinion that the Group has maintained adequate and effective risk management and internal control systems addressing strategic, operational, financial and compliance risks for the year ended 31 December 2019. The Company has complied with the relevant code provisions of the CG Code relating to risk management and internal control.

Environmental, Social and Governance Report

OVERVIEW

The Board is pleased to present this Environmental, Social and Governance (the “ESG”) Report of the Group which summarises the efforts and achievements made by the Group in corporate responsibility and sustainable development.

The Board is responsible for the Group’s ESG strategy and reporting, evaluating and determining the Group’s ESG-related risks, and ensuring that appropriate and effective ESG risk management and internal control systems are in place. In order to determine the ESG reporting scopes, the key management personnel has discussed internally and identified the environmental, social and operating items, and assessed their importance to the stakeholders and the Group. The summary of material ESG items are listed out in this report.

INTRODUCTION

The Group is principally engaged in the businesses of marine transportation, property holding and investment, investment holding and merchandise trading. In particular, the marine transportation business comprises vessel chartering business and charter-in and charter-out vessel operation, and the merchandise trading business focuses on trading of consumable goods including infant and personal care products as well as electronic components.

This Environmental, Social and Governance Report (the “ESG Report”) summarises the ESG initiatives, plans and performances of the Group and demonstrates its commitment to sustainable development.

The ESG Governance Structure

The Group conducts a top-down management approach regarding ESG issues. The Board endorses an initiative to pursue a clear ESG management approach that is closely in line with the Group’s overall business strategic development. The Board therefore oversees and sets out ESG strategies for the Group.

The Group has designated personnel to systematically identify and manage ESG issues. The designated personnel are responsible for collecting relevant ESG data, and analysing and identifying the Group’s ESG issues. The said personnel then report to the Board for the evaluation and subsequent implementation or revision of the Group’s ESG strategies.

REPORTING SCOPE

This ESG Report only covers the Group’s office-based businesses in relation to the business of marine transportation and merchandise trading, as these two business segments have relatively high relevance to the ESG issues. The ESG key performance indicator (“KPI”) data is gathered and includes companies and subsidiaries that are under the Group’s direct operational control. The Group will extend the scope of disclosures when and where applicable. The KPIs are shown in the ESG Report and are supplemented by explanatory notes to establish benchmarks. The ESG Report specifies the ESG activities, challenges and measures taken by the Group during the financial year ended 31 December 2019 (“FY2019”).

REPORTING FRAMEWORK

The ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide (the “ESG Reporting Guide”) as set out in Appendix 27 of the Hong Kong Listing Rules.

Information relating to the Group’s corporate governance practices can be found in the Corporate Governance Report on pages 21 to 30 of this annual report.

Environmental, Social and Governance Report

STAKEHOLDERS' ENGAGEMENT

The Group values its stakeholders and their feedback regarding its businesses and ESG aspects. The Group maintains close communication with its key stakeholders, including but not limited to, government and regulatory authorities, shareholders and investors, employees, customers, suppliers, media and the public.

Stakeholders' expectations have been taken into consideration by utilising diversified engagement methods and communication channels as shown below:

Stakeholders	Communication channels	Expectations
Government and regulatory authorities	<ul style="list-style-type: none"> • Routine reports • Written or electronic correspondences • Supervision on local laws and regulations 	<ul style="list-style-type: none"> • Compliance with local laws and regulations • Stability in business operations

Media and the public	<ul style="list-style-type: none"> • ESG report • Company website • Regular reports and announcements 	<ul style="list-style-type: none"> • Transparency of financial and ESG issues disclosure • Compliance with legislations

The Group aims to actively listen to and collaborate with its stakeholders to ensure that their opinions can be voiced out through a proper communication channel. In the long run, the stakeholders' contribution will aid the Group in improving potentially overlooked ESG performances.

Environmental, Social and Governance Report

MATERIALITY ASSESSMENT

The Group values the feedback of stakeholders and their opinions on what ESG aspects they consider as material. Therefore, the respective management personnel and employees responsible for key functions of the Group have participated in the preparation of the ESG Report. They have assisted the Group in reviewing its operations, identified key ESG issues and assessed its importance to our businesses and stakeholders.

A summary of material ESG aspects of the Group is as follows:

Least material	Material	Most material
Air emissions	Greenhouse gas ("GHG") emissions	Recruitment, promotion and remuneration
Community participation	Waste management	Working hours and rest periods
Indoor air quality	Energy efficiency	Compensation and dismissal
	Development and training	Other benefits and welfare
	Prevention of child and forced labour	Data privacy protection
		Customer service quality
		Whistle-blowing mechanism
		Equal opportunities, diversity and anti-discrimination
		Occupational health and safety management
		Supply chain management
		Product and service quality assurance
		Anti-corruption

For FY2019, the Group confirmed that it has established appropriate and effective management policies and internal control systems for ESG issues and confirmed that the disclosed contents are in compliance with the requirements of the ESG Reporting Guide.

Environmental, Social and Governance Report

A. ENVIRONMENTAL

A1. Emissions

General Disclosure and KPIs

The Group recognises the importance of operating business in a sustainable manner. Thus, the Group continuously improves existing policies and incorporates new policies with the intention of mitigating potential direct and indirect negative environmental impacts arising from the business operations.

During FY2019, the Group was not aware of any material non-compliance with laws and regulations that would have a significant impact on the Group, including but not limited to, Air Pollution Control Ordinance, Waste Disposal Ordinance and Water Pollution Control Ordinance of the laws of Hong Kong.

Air Emissions

The Group does not own any company vehicles. The Group owns three vessels and they have been chartered on time charter basis during FY2019 and the use of fuels by such vessels are therefore not directly controlled by the Group but by the charterers. Accordingly, the Group considers that air emissions generated by the Group in FY2019 were immaterial.

GHG Emissions

The principal GHG emissions of the Group were generated from purchased electricity (Scope 2) and office paper disposal and business air travel (Scope 3).

Scope 1- Direct GHG Emissions

During FY2019, the Group did not own any vehicles and therefore did not produce any direct GHG emissions.

Scope 2 – Indirect GHG Emissions

Electricity consumption accounted for the total indirect GHG emissions within the Group. The Group has implemented measures to reduce energy consumption, the measures are mentioned in “Aspect A2 – Use of Resources”.

Scope 3 – Other Indirect GHG Emissions

Paper waste disposal and business air travel by employees accounted for other indirect GHG emissions. The Group encourages its employees to adopt communication methods such as telecommunications and video conferences to reduce the need for business air travel. Measures implemented to reduce paper waste disposal can be found in “Aspect A2 – Use of Resources”.

As a result, the employees’ awareness of reducing indirect GHG emissions has been increased through these measures.

Environmental, Social and Governance Report

Sewage Discharges into Water and Land

Owing to the Group's business nature, the discharges into land is insignificant. Similarly, there has not been a significant and unreasonable amount of water used in all the Group's offices through business activities.

Summary of GHG emissions performance:

Indicator¹	Unit	FY2019
Scope 1 – Direct GHG Emissions	tCO ₂ e ²	–
Scope 2 – Indirect GHG Emissions	tCO ₂ e	8.72
• Purchased electricity		
Scope 3 – Other Indirect GHG Emissions	tCO ₂ e	3.47
• Air travel		
• Paper waste disposed at landfills		
Total GHG emissions	tCO₂e	12.19
Total GHG emissions intensity³	tCO₂e/employee	0.94

Notes:

1. GHG emissions data is presented in terms of carbon dioxide equivalent and is based on, but not limited to, "The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards" issued by the World Resources Institute and the World Business Council for Sustainable Development, "How to prepare an ESG report – Appendix II: Reporting Guidance on Environmental KPIs" issued by the Hong Kong Stock Exchange, the "Global Warming Potential Values" from the IPCC Fifth Assessment Report, 2015 (AR5), the latest published Baseline Emission Factors for Regional Power Grids in China, and Sustainability Report 2018 published by the HK Electric.
2. tCO₂e is defined as tonnes of carbon dioxide equivalent.
3. At 31 December 2019, the Group had 13 employees. This data has also been used for calculating other intensity data.

Waste Management

Hazardous Waste Management

Owing to the Group's business nature, no material hazardous waste has been generated by the Group during FY2019.

Environmental, Social and Governance Report

Non-hazardous Waste Management

The majority of non-hazardous waste generated by the Group was mainly office paper. Though there has not been a disproportional amount of waste produced, the Group nevertheless makes a conscious effort into encouraging employees to reduce waste production. The Group continues to place great effort in educating its employees on the importance of reducing waste production and has adopted the following environmentally friendly initiatives to enhance its environmental performance.

Green measures include but not limited to the following:

- print electronic correspondences only when necessary;
- recycle used single-sided office paper;
- double-sided printing or photocopying;
- procure paper with Forest Stewardship Council Recycled Label; and
- recycle office and electronic equipment after their life cycle.

As a result, employees' awareness of waste management has been increased through these implementations.

Summary of non-hazardous waste discharge performance:

Category of waste	Unit	FY2019
Office paper ⁴	Tonnes	0.306
Total non-hazardous waste	Tonnes	0.306
Total non-hazardous waste intensity	Tonnes/employee	0.024

Note:

4. Only 80gsm A4 paper was used, the consumption was approximately 61,229 sheets.

A2. Use of Resources

General Disclosure and KPIs

The Group takes the initiative to introduce green measures to reduce environmental impact arising from its business operations. Measures on reducing office paper waste are mentioned in the preceding "Waste Management" section.

Energy Efficiency

Given the Group's business nature, the variety of green measures applicable and possible to be implemented into the Group's policy is limited. Nevertheless, the Group strives to further reduce energy consumption by adopting energy-saving measures such as the following:

- post eye-catching stickers on energy efficiency as a reminder to employees;
- switch off unnecessary lightings and electrical appliances when not in use;
- purchase energy-efficient equipment on replacement of retired equipment;
- set all computer screens and printers to standby mode after a certain period; and
- encourage employees to utilise public transportation where possible.

Anomaly in electricity consumption will be investigated to find out the root cause and preventative measures will be taken. As a result, the employees' awareness of energy conservation has been increased through these energy-saving measures.

Environmental, Social and Governance Report

Summary of energy consumption performance:

Type of energy	Unit	FY2019
Electricity	kWh	10,901.00
Total energy consumption	kWh	10,901.00
Total energy consumption intensity	kWh/employee	838.54

Water Consumption

Owing to the Group's business nature, the usage of water only confined to water used by employees at the office. Water consumption data was not available since water usage was covered in the office building management fee.

The Group actively promotes the importance of water conservation to its employees. Apart from posting banners around the office, the Group also regularly inspects water taps to prevent leakage and encourages employees to cherish water usage such as reducing unnecessary water consumption in washrooms and pantries. As a result of these implementations, the employees' awareness of water conservation has been increased.

Owing to the Group's business nature, it did not encounter any problem in sourcing water that is fit for its purpose. The Group was not aware of any abnormal water usage in FY2019.

Use of Packaging Material

Owing to the Group's business nature, the use of packaging material is not considered as a material ESG aspect to the Group.

A3. The Environment and Natural Resources

General Disclosure and KPIs

Although the core business of the Group has remote impact on the environment and natural resources, as an ongoing commitment to good corporate social responsibility, the Group realises its responsibility in minimising any negative environmental impacts in its business operations. The Group regularly assesses the environmental risks of its business and adopts preventive measures to reduce the risks and ensures compliance with relevant laws and regulations.

Indoor Air Quality

Indoor air quality in the workplace is regularly monitored and measured. During FY2019, the indoor air quality of the Group's offices has been satisfactory. To improve indoor air quality, air purifying equipment is used in offices and the air conditioning system is cleaned periodically. These measures resulted in controlling indoor air quality at a satisfactory level and filtering out pollutants, contaminants and dust particles.

Environmental, Social and Governance Report

B. SOCIAL

B1. Employment

General Disclosure

Human resources are the foundation of the Group. The Group recognises that sustainable growth of the Group relies on good recruitment and retention practices.

At 31 December 2019, the Group had 13 employees performing administration tasks in the Group's headquarter, other staff (i.e. crews) ashore and aboard are employed and managed by a shipping agency (the "Agency"). All employees are geographically located in Hong Kong and Singapore. The breakdown of employees according to gender, age, employee category and geographical region are as follows:

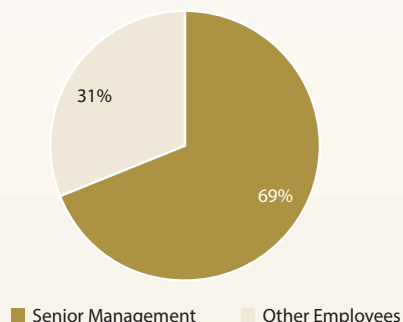

Employee by Gender

Employee by Age Group

Employee by Employee Category

Employee by Geographical Region

During FY2019, the Group was not aware of any material non-compliance with employment-related laws and regulations that would have a significant impact on the Group, including but not limited to Employment Ordinance, Sex Discrimination Ordinance, and Employees' Compensation Ordinance of the laws of Hong Kong.

Relevant employment policies are formally documented in the Employee Handbook, Code of Conduct and Ethics, and Management for Crew Employment/Manning. The policies cover topics such as recruitment and remuneration, compensations, working hours and rest periods, diversity and equal opportunities, etc. The Group periodically reviews its current employment practices and policies to ensure continuous improvement of its employment standards and competitiveness against companies of the similar industry.

Environmental, Social and Governance Report

Recruitment, Promotion and Remuneration

Talent acquisition is vital to the sustainable development of the Group's business. The employees are recruited via a robust, transparent and non-discriminatory recruitment process based on their merits and their potential to fulfil the Group's current and future needs.

Remuneration and promotion are based on job-related skills, qualifications and performances. The Group will conduct annual performance and salary review to determine any salary adjustments and/or promotion opportunities. Remuneration packages include variable bonuses, annual leave, maternity leave, paternity leave, marriage leave, bereavement leave, etc.

The Board also ensures that the seafarers hired to work on the vessels bear relevant qualifications that meet the requirements of the International Safety Management ("ISM") Code.

Working Hours and Rest Periods

The Group has formulated policies in determining the working hours and rest periods for employees following local employment laws.

Compensation and Dismissal

All employees are covered under the Employees' Compensation Ordinance of the laws of Hong Kong upon joining the Group. The statute provides protection to employees who sustain personal injury by accident or disease arising out of the course of employment.

Unreasonable dismissal under any circumstances is strictly prohibited, dismissal would be based on reasonable and lawful grounds supported by internal policies of the Group.

Equal Opportunities, Diversity and Anti-discrimination

Sustainable growth of the Group relies on the diversity of talents. The Group is committed to creating and maintaining an inclusive and collaborative workplace culture. Furthermore, the Group is dedicated to providing equal opportunities in all aspects of employment and protecting its employees from discrimination, physical or verbal harassment based on their gender, age, religion, disability, ethnicity, political stance, marital status, etc.

Other Benefits and Welfare

The Group understands that good benefits and welfare encourage retention and foster a sense of belonging, therefore the Group actively seeks to introduce additional benefits and welfare where possible.

Environmental, Social and Governance Report

B2. Health and Safety

General Disclosure

Occupational Health and Safety Management

During FY2019, the Group was not aware of any material non-compliance with health and safety-related laws and regulations that would have a significant impact on the Group, including but not limited to the Occupational Safety and Health Ordinance of the laws of Hong Kong.

Providing employees with a safe and healthy working environment is of utmost importance to the Group. Therefore, the Group has set out comprehensive policies to safeguard the interest and wellbeing of all employees. Health and safety measures that are applicable to an office-based business operation is limited. The Group is nevertheless committed to safeguarding the wellbeing of all employees. At the office, fire extinguishers are strategically placed and fire exits are free from obstruction; first aid boxes can be found around the premise. Relevant policies are reviewed annually, or soon after an incident arises, to make sure the said policies continue to be of relevance.

For marine transportation operation, the Group has established a sound safety management system with a comprehensive Safety Management Manual and Shipboard Emergency Plan to assist its crews and ashore staff in dealing with unexpected incidents and the subsequent approach in minimising damages, losses or hazardous outputs.

The Group understands that the potential impact of an incident in the marine transportation operation would be higher than that of an office-based operation. Therefore, the Group convenes a safety management system review meeting at least once every year to review the effectiveness of the safety management system and reviews whether the latest ISM code has been dealt with or not. Relevant training sessions will be provided to staff where necessary.

There were no incidents with regard to occupational health and safety reported during FY2019.

B3. Development and Training

General Disclosure

Development and Training

Training and continuous development are indispensable to the Group's employees to keep abreast of the ever-changing trend in the industry. Thus, the Group takes a proactive approach to provide employees with opportunities to advance their careers. The employees are encouraged to apply for internal and external training courses to refresh prior knowledge and acquire new knowledge.

Regular training and drills are carried out to familiarise employees with the Group's policies and any newly updated guidelines. Trainings range from proper shipboard operation, correct procedures at emergency to the awareness of marine pollution prevention. By doing so, this lowers the risk of avoidable incidents and ensures compliance with the provisions set out by the International Maritime Organisation. Contents of internal training sessions are regularly updated to be in line with the industrial standard and the Group's business nature and provide maximum benefit to employees.

Environmental, Social and Governance Report

B4. Labour Standards

General Disclosure

Prevention of Child and Forced Labour

Child and forced labour are strictly prohibited during the recruitment process as defined by laws and regulations. Personal data is collected during the process to assist the selection of suitable candidates and to verify candidates' personal data. The human resources department also ensures that identity documents are carefully checked.

During FY2019, the Group was not aware of any material non-compliance with child and forced labour-related laws and regulations that would have a significant impact on the Group, including but not limited to Employment Ordinance of the laws of Hong Kong.

B5. Supply Chain Management

General Disclosure

Supply Chain Management

The Group selects suppliers based on their technical submission, prevailing market price, delivery time and reputation. The Group strives not to over-rely on a specific supplier in order to prevent jeopardising its provision of services. An annual performance evaluation is performed to assess the suppliers' quality of products and services. Contracts with suppliers or sub-contractors may be de-activated or terminated if the expectation of the Company is not met. Any discrimination against certain vendors without reasonable grounds and any types of business bribery are strictly prohibited. To further supplement, a Ship Supply Procedures Manual is in place to ensure the quality and safety of its chartering services.

B6. Product Responsibility

General Disclosure

Health and Safety

The Group is committed to providing the highest quality of service to its customers, not only is it crucial to the health and safety of our customers and clients, but also to the potential of attracting future business opportunities.

During FY2019, the Group was not aware of any incidents of non-compliance with laws and regulations that would have a significant impact on the Group, concerning advertising, labelling and privacy matters relating to products and services provided and methods of redress, including but not limited to, Personal Data (Privacy) Ordinance, Trade Descriptions Ordinance, Food Safety Ordinance of the laws of Hong Kong and the Food and Drugs (Composition and Labelling) (Amendment) (No. 2) Regulation 2014.

Environmental, Social and Governance Report

Product and Service Quality Assurance

Although the Group has appointed the Agency to manage the daily operations of its vessels, the Group understands the necessity to further safeguard health and safety matters of its related businesses. In addition to the strict compliance with the ISM code, the Group has established a number of policies to stipulate the responsibilities of each officers on board of the vessels. In particular, the Group has a well-established shipboard emergency alert mechanism, a Safety Committee and Emergency Response Team are set up to investigate and handle any shipboard hazardous occurrences or emergency incidents.

In respect of its merchandise trading business, consumable goods including infant and personal care products as well as electronic components are the principal products traded by the Group. The Group understands that a stringent quality control process is nevertheless required to ensure that delicate products received such as consumable goods are of the quality advertised. The Group has implemented quality control procedures with regard to logistics and customs clearance process. In particular, the Group ensures strict compliance with relevant laws and regulations regarding the trading of infant products and sales distribution.

Data Privacy Protection

The Group respects the values and rights of customers' information assets and strictly complies with the customers' information security management systems and standards. In addition, the Group has provisions regarding data privacy in its Code of Conduct and Ethics. Employees are trained to respect the confidentiality of the customers' information. Any leakage of confidential information to third parties is strictly prohibited. The Group has also implemented firewall, anti-virus, and anti-spam solutions for the IT systems to safeguard confidential information and are routinely upgraded.

Customer Service Quality

Feedbacks from customers are welcomed as it is the key to enhancing the Group's service. Procedures for handling feedbacks or complaints have been set up, they are recorded in detail and appropriate follow-up actions are taken. Should the feedback bear significant weight to the improvement of the Group, the feedback or complaint will be considered as a case study to prevent re-occurrence.

Advertising and Labelling

Owing to the Group's business nature, the Group has an insignificant amount of business dealing on advertising and labelling matters.

Environmental, Social and Governance Report

B7. Anti-corruption

General Disclosure

Solid corporate governance and risk management are essential to the Group's long-term development and sustainable growth. The Group endeavours to continuously improve its corporate rules and regulations and ensure strict compliance with local laws and regulations. The Group values and upholds integrity, honesty and fairness in how the Group conducts business. The Group emphatically asserts its zero-tolerance stance regarding any behaviours that not only violate local laws and regulations but also severely damage the Group's reputation.

During FY2019, the Group was not aware of any material non-compliance with the relevant laws and regulations of bribery, extortion, fraud and money laundering that would have a significant impact on the Group, including but not limited to Prevention of Bribery Ordinance of the laws of Hong Kong.

Anti-corruption

The Group affirms its zero-tolerance policy regarding corruption, fraud and all other behaviours that severely violate professionalism and work ethics. The Code of Conduct and Ethics and Conflict of Interest and Transactions with Interested Persons Policy have been established to prevent misconduct and wrongdoing and to promote ethical and honest business conduct. The Group's employees are required to familiarise themselves with the Code. Moreover, board members and all staff are required to declare their interests, gifts, or hospitality received in connection with their role within the Group.

Whistle-blowing Mechanism

The Group has established a Whistle Blowing Procedure which sets out the reporting and investigative procedures to facilitate the reporting of any fraudulent activities. The Group intends to protect the whistle-blower from common concerns such as confidentiality, reprisal and potential retaliation. A corporate email address has been set up for access to the Chairman of the Audit Committee and all independent directors for whistle-blowing purposes. The Group provides assurance to the whistle-blower reporting in good faith against unfair dismissal or victimisation, even if the reports are subsequently proved to be unsubstantiated.

B8. Community Investment

General Disclosure

Community Participation

The Group realises the importance of giving back to the members of the society. Therefore, the Group encourages its employees to engage in community services and voluntary activities to develop their social network and give back to society. The Group intends to extend its scope of financial contribution to benefit the financially disadvantaged in the future.

(Incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of Courage Investment Group Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 50 to 106, which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") issued by International Accounting Standards Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report

KEY AUDIT MATTERS

Key audit matters

How our audit addressed the key audit matters

Net impairment loss on vessels

We identified the net impairment loss on vessels as a key audit matter due to the significance of the balance and significant management's judgment required in the assessment of impairment loss.

The carrying values of vessels were US\$33,046,000 as at 31 December 2019, of which US\$22,421,000 of vessels are subject to impairment assessment. As disclosed in note 5 to the consolidated financial statements, the management determines the recoverable amounts of vessels based on the higher of value in use and fair value less costs of disposal and compares such recoverable amount to the carrying amount to determine if any indication of impairment exist or whether reversal of impairment should be recognised. The net impairment loss of US\$247,000 had been recognised as set out in note 16 to the consolidated financial statements.

Our procedures in relation to the assessment of impairment loss on vessels included:

- Assessing the methodologies used by the management for the impairment assessment;
- Obtaining the valuation reports on the vessels to evaluate the relevance of key data inputs underpinning the valuation, including the recent transactions of vessels of similar age and weight carrying capacity from open sources;
- Assessing the reasonableness of the management's estimation in costs of disposal;
- Checking, on a sample basis, the accuracy and relevance of the input data used in the value in use calculation by the management;
- Assessing the reasonableness of the management's key assumptions used in the value in use calculation based on the available market data of the vessel chartering industry; and
- Comparing the higher of value in use and fair value less costs of disposal with the carrying amounts of vessels.

KEY AUDIT MATTERS

Key audit matters

How our audit addressed the key audit matters

Valuation of an investment property

We identified the valuation of an investment property as a key audit matter due to the significance of the balance to the consolidated financial statements as a whole, combined with the significant judgements associated with determining the fair value.

As at 31 December 2019, the Group's investment property amounted to US\$10,462,000 and represented 16.2% of the Group's total assets. The Group's investment property is stated at fair value based on valuation performed by an independent qualified professional valuer (the "Valuer"). The fair value of the investment property is derived using the direct comparison method. Details of the valuation techniques used in the valuation are disclosed in note 17 to the consolidated financial statements.

Our procedures in relation to the valuation of the investment property included:

- Evaluating the competence, capabilities and objectivity of the Valuer and obtaining an understanding of the Valuer's scope of work and the terms of engagement;
- Evaluating the appropriateness of the Valuer's valuation approach to assess if it is consistent with the industry norms;
- Evaluating the reasonableness of the key assumptions applied based on available market data and our knowledge of the property industry in Hong Kong; and
- Obtaining the works of the Valuer on the investment property to evaluate the relevance of key data inputs underpinning the valuation, including the recent market transactions of properties in similar location and condition and the adjustment factors applied in the valuation.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Woo King Wa.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

1. GENERAL

Courage Investment Group Limited (the "Company") (Registration No. 36692) was incorporated in Bermuda on 5 April 2005 as an exempted company with limited liability under the Companies Act 1981 of Bermuda. Its registered office is at Clarendon House, 2 Church Street, Hamilton HM11, Bermuda and its principal place of business is at Suite 1510, 15th Floor, Great Eagle Centre, 23 Harbour Road, Wanchai, Hong Kong. The Company is primarily listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange") and secondarily listed on the Main Board of the Singapore Exchange Securities Trading Limited (the "SGX-ST"). The consolidated financial statements are presented in the United States dollars ("US\$"), which is the functional currency of the Company, and all values are rounded to the nearest thousand (US\$'000) where appropriate as indicated.

The Company acts as an investment holding company. The principal activities of its principal subsidiaries and a joint venture are set out in notes 42 and 18 respectively.

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2019, the Company and its subsidiaries (collectively referred to as the "Group") had net current liabilities of US\$1,198,000. The consolidated financial statements of the Company have been prepared on a going concern basis as the Group is able to repay its current liabilities when due by its own working capital and the proceeds from disposal of certain amount of the debt instruments at fair value through other comprehensive income ("FVTOCI") in the market with good liquidity. The directors of the Company have carefully considered the future liquidity of the Group and concluded that the Group has sufficient working capital to meet in full its financial obligations as and when they fall due in the foreseeable future.

3. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs")

New and amendments to IFRSs that are mandatorily effective for the current year

The Group has applied the following new and amendments to IFRSs for the first time in the current year:

IFRS 16	Leases
IFRIC 23	Uncertainty over Income Tax Treatments
Amendments to IFRS 9	Prepayment Features with Negative Compensation
Amendments to IAS 19	Plan Amendment, Curtailment or Settlement
Amendments to IAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to IFRSs	Annual Improvements to IFRSs 2015 – 2017 Cycle

Except as described below, the application of the new and amendments to IFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

3. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) (continued)

New and amendments to IFRSs that are mandatorily effective for the current year (continued)

Definition of a lease

The Group has applied IFRS 16 for the first time in the current year. IFRS 16 superseded IAS 17 *Leases*, and the related interpretations.

The Group has elected the practical expedient to apply IFRS 16 to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 *Determining Whether an Arrangement Contains a Lease* and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after 1 January 2019, the Group applies the definition of a lease in accordance with the requirements set out in IFRS 16 in assessing whether a contract contains a lease.

In accordance with the transitional provisions in IFRS 16, the Group is not required to make any adjustment on transition for leases in which the Group is a lessor but account for these leases in accordance with IFRS 16 from the date of initial application and comparative information has not been restated.

Based on the assessment by the directors of the Company, the transition to IFRS 16 would have no impact on the consolidated financial statements of the Company at 1 January 2019 and 31 December 2019.

New and amendments to IFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

IFRS 17	Insurance Contracts ¹
Amendments to IFRS 3	Definition of a Business ²
Amendments to IFRS 10 and IAS 28	Sales or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Amendments to IAS 1	Classification of Liabilities as Current or Non-current ⁵
Amendments to IAS 1 and IAS 8	Definition of Material ⁴
Amendments to IFRS 9, IAS 39 and IFRS 7	Interest Rate Benchmark Reform ⁴

¹ Effective for annual periods beginning on or after 1 January 2021.

² Effective for business combination for which the acquisition date is on or after the beginning of the first annual period beginning on or after 1 January 2020.

³ Effective for annual periods beginning on or after a date to be determined.

⁴ Effective for annual periods beginning on or after 1 January 2020.

⁵ Effective for annual periods beginning on or after 1 January 2022.

In addition to the above new and amendments to IFRSs, a revised Conceptual Framework for Financial Reporting was issued in 2018. Its consequential amendments, the Amendments to References to the Conceptual Framework in IFRS Standards, will be effective for annual periods beginning on or after 1 January 2020.

The directors of the Company anticipate that the application of all new and amendments to IFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with IFRSs. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange and the disclosure requirements by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments and an investment property that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with IFRS 16 (since 1 January 2019) or IAS 17 (before application of IFRS 16), and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 *Inventories* or value in use in IAS 36 *Impairment of Assets*.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of consolidation (continued)

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Where necessary, adjustments are made to financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Acquisition of a subsidiary not constituting a business

When the Group acquires a group of assets and liabilities that do not constitute a business, the Group identifies and recognises the individual identifiable assets acquired and liabilities assumed by allocating the purchase price first to investment properties which are subsequently measured under fair value model and financial assets/financial liabilities at the respective fair values, the remaining balance of the purchase price is then allocated to the other identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction does not give rise to goodwill or bargain purchase gain.

Interest in a joint venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the joint venture. Changes in net assets of the joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of a joint venture exceeds its interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

The Group assesses whether there is an objective evidence that the interest in an associate or a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract liability relating to the same contract is accounted for and presented on a net basis.

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Output method

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group’s performance in transferring control of goods or services.

Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Borrowing costs

Borrowing costs not directly attributable to the acquisition, construction or production of qualifying assets are recognised in profit or loss in the period in which they are incurred.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interest in a joint venture except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Notes to the Consolidated Financial Statements

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation (continued)

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. US\$) at the rate of exchange prevailing at the end of the reporting period, and their income and expenses are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve.

Property, plant and equipment

Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method. When parts of an item of property, plant and equipment have different useful lives, the cost of each part is depreciated separately.

Depreciation of vessels is charged so as to write off the cost of vessels over their remaining estimated useful lives from the date of initial delivery from the shipyard (second hand vessels are depreciated from the date of their acquisition over their remaining estimated useful lives), after allowing for residual values estimated by the directors of the Company, using the straight-line method. Each vessel's residual value is estimated at the product of its lightweight tonnage and estimated scrap rate.

Upon acquisition of a vessel, the components of the vessel which are required to be replaced at the next dry-docking are identified and their costs are depreciated over the period to the next estimated dry-docking date, usually ranging from 2.5 to 5 years. Costs incurred on subsequent dry-docking of vessels are capitalised and depreciated over the period to the next estimated dry-docking date. When significant dry-docking costs are incurred prior to the expiry of the depreciation period, the remaining costs of the previous dry-docking are written off immediately.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Property, plant and equipment (continued)

Expenditure incurred after items of property, plant and equipment have been put into operations, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment property

Investment property is property held to earn rentals and/or for capital appreciation. Investment property is initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment property is measured at its fair value, adjusted to exclude any prepaid or accrued operating lease income. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the year in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the item is derecognised.

Impairment on property, plant and equipment

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In addition, the Group assesses whether there is indication that corporate assets may be impaired. If such indication exists, corporate assets are also allocated to individual cash-generating units, when a reasonable and consistent basis of allocation can be identified, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment on property, plant and equipment (continued)

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average cost method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Leases

Definition of a lease (upon application of HKFRS 16 in accordance with transitions in note 3)

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

Leases (continued)

The Group as lessee (prior to 1 January 2019)

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

The Group as a lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term.

Interest and rental income which are derived from the Group's ordinary course of business are presented as revenue.

The Group as a lessor (upon application of IFRS 16)

Allocation of consideration to components of a contract

When a contract includes both leases and non-lease components, the Group applies IFRS 15 Revenue to allocate consideration in a contract to lease and non-lease components. Non-lease components are separated from lease component on the basis of their relative stand-alone selling prices.

Refundable rental deposits

Refundable rental deposits received are accounted for under IFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest/dividend income which are derived from the Group's ordinary course of business are presented as revenue.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at FVTOCI:

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Classification and subsequent measurement of financial assets (continued)

All other financial assets are subsequently measured at FVTPL, except that at the date of initial application of IFRS 9/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3 Business Combinations applies.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost and debt instruments/receivables subsequently measured at FVTOCI. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

(ii) Debt instruments classified as at FVTOCI

Subsequent changes in the carrying amounts for debt instruments classified as at FVTOCI as a result of interest income calculated using the effective interest method, and foreign exchange gains and losses are recognised in profit or loss. All other changes in the carrying amount of these debt instruments are recognised in other comprehensive income ("OCI") and accumulated under the heading of investment revaluation reserve. Impairment allowances are recognised in profit or loss with corresponding adjustment to OCI without reducing the carrying amounts of these debt instruments. The amounts that are recognised in profit or loss are the same as the amounts that would have been recognised in profit or loss if these debt instruments had been measured at amortised cost. When these debt instruments are derecognised, the cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss.

Financial instruments (continued)

Financial assets (continued)

Classification and subsequent measurement of financial assets (continued)

(iii) Equity instruments designated as at FVTOCI

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in OCI and accumulated in the investment revaluation reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to accumulated losses. Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the revenue line item in profit or loss.

(iv) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the "revenue" line item.

Impairment of financial assets subject to impairment assessment under IFRS 9

The Group performs impairment assessment under expected credit losses ("ECL") model on financial assets (including trade and other receivables, amount due from a joint venture, time deposit and bank balances and cash), which are subject to impairment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. The ECL on these assets are assessed individually for debtors.

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets subject to impairment assessment under IFRS 9 (continued)

For all other instruments, the Group measures the loss allowance equal to 12-month ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) *Significant increase in credit risk*

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets subject to impairment assessment under IFRS 9 (continued)

(i) *Significant increase in credit risk (continued)*

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk as all the Group's debt instruments at FVTOCI are listed bonds that had no recent default history.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) *Definition of default*

For internal credit risk management, the Group considers an event occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) *Credit-impaired financial assets*

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets subject to impairment assessment under IFRS 9 (continued)

(iv) *Write-off policy*

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) *Measurement and recognition of ECL*

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition. For a lease receivable, the cash flows used for determining the ECL is consistent with the cash flows used in measuring the lease receivable in accordance with IFRS 16 (since 1 January 2019) or IAS 17 (prior to 1 January 2019).

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

Except for investments in debt instruments that are measured at FVTOCI, the Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, where the corresponding adjustment is recognised through a loss allowance account. For investments in debt instruments that are measured at FVTOCI, the loss allowance is recognised in OCI and accumulated in the investment revaluation reserve without reducing the carrying amount of these debt instruments. Such amount represents the changes in the FVTOCI reserve in relation to accumulated loss allowance.

Financial assets (continued)

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in a debt instrument classified as at FVTOCI upon application of IFRS 9, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI upon application of IFRS 9, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to profit or loss, but is transferred to accumulated losses.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Interest expense is recognised on an effective interest basis for debt instruments.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial liabilities and equity instruments (continued)

Financial liabilities at amortised cost

Financial liabilities (including trade payables, borrowings and other payables) are subsequently measured at amortised cost, using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Retirement benefit costs

Payments to defined contribution retirement benefit plan are recognised as an expense when employees have rendered service entitling them to the contributions.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 4, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgement in applying accounting policies

The following is the critical judgement, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Critical judgement in applying accounting policies (continued)

Principal versus agent consideration (principal)

The Group engages in merchandise trading. The Group reassessed whether the Group should continue to recognise revenue on gross basis based on the requirements in IFRS 15. The Group concluded that the Group acts as the principal for such transactions as it controls the specified good before it is transferred to the customer after taking into consideration indicators such as the Group is primarily responsible for fulfilling the promise to provide the goods and the Group has inventory risk before the specify good being transferred to a customer.

Key sources of estimation uncertainty

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Net impairment loss (reversal of impairment loss) on vessels

The Group assesses regularly whether the vessels have any indications of impairment in accordance with its accounting policy. The Group determines the recoverable amount of the vessels based on the higher of value in use and fair value less costs of disposal. By comparing the recoverable amount of the vessels with their respective carrying amounts, net impairment loss on vessels amounting to US\$247,000 (2018: reversal of impairment loss on vessels of US\$4,257,000) was recognised in the profit or loss. The aggregate carrying amount of the Group's vessels at the end of the reporting period was US\$33,046,000 (2018: US\$23,305,000).

Fair value of an investment property

As described in note 17, the investment property is stated at fair value based on the valuation performed by an independent qualified professional valuer. In determining the fair value, the valuer has used a method of valuation which involves certain estimates. In relying on the valuation report, the management has exercised its judgment and is satisfied that the method of valuation is reflective of the current market conditions. If there are changes in the assumptions used for the valuation, the fair value of the investment property will change accordingly. At 31 December 2019, the carrying amount of the investment property was US\$10,462,000 (2018: US\$10,490,000).

Notes to the Consolidated Financial Statements

6. REVENUE (continued)

(ii) Performance obligations for contracts with customers

Marine transportation income (revenue recognised over time)

The Group provides marine transportation services to customers. Such service income is recognised over time as a performance obligation when the customer simultaneously receives the benefit provided by the Group. Revenue is recognised for these marine transportation services based on the stage of completion of the contract using output method.

The Group normally requires customers to provide upfront payment and that receipts are recognised as contract liabilities until the services have been performed for the customers.

Merchandise trading income (revenue recognised at one point in time)

The Group sells merchandise to retailers in Hong Kong. Revenue is recognised when the title of the good has been transferred. The normal credit term is 0 to 60 days upon delivery, except for certain contracts that require upfront payment of the transaction price in full.

A contract liability is recognised upon payment received for sales in which revenue has yet been recognised.

(iii) Transaction price allocated to the remaining performance obligation for contracts with customers

All merchandise trading and marine transportation are for periods of one year or less. As permitted under IFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

(iv) Leases

7. SEGMENT INFORMATION

The following is an analysis of the Group's revenue and results by operating segments, based on information provided to the executive directors and chief executive of the Company, being the chief operating decision makers, for the purposes of resources allocation and assessment of segment performance. This is also the current basis of organisation in the Group, whereby the management has chosen to organise the Group in different operating activities.

The accounting policies of the reportable and operating segments are the same as the Group's accounting policies described in note 4.

Specifically, the Group's reportable and operating segments are as follows:

1. Marine transportation
2. Property holding and investment
3. Investment holding
4. Merchandise trading

Segment results represent the profit/loss from each segment without allocation of corporate income, corporate expenses, net impairment loss/reversal of impairment loss on vessels, share of result of a joint venture and finance costs.

Segment revenue and results

The following is an analysis of the Group's revenue and results by reportable and operating segments:

	Marine transportation		Property holding and investment		Investment holding		Merchandise trading		Total

Unallocated corporate liabilities									2,928	163
Total liabilities									20,928	16,034

For the purposes of monitoring segment performances and allocating resources between segments:

- all assets are allocated to operating segments other than certain other receivables and prepayments and bank balances and cash; and
- all liabilities are allocated to operating segments other than certain other payables and accruals.

Geographical information

The Group's operations are located in Hong Kong and other Asian countries.

The directors of the Company consider that the nature of the Group's marine transportation business precludes a meaningful allocation of the Group's revenue and non-current assets relating to such business to specific geographical segments as these revenue and non-current assets mainly derives from and include vessels which are utilised across different geographical markets.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

7. SEGMENT INFORMATION (continued)

Geographical information (continued)

Information about the Group's revenue from external customers/sources (other than marine transportation business) is presented based on the location of the operations. Information about the Group's non-current assets (other than marine transportation business) is presented based on the geographical location of the assets.

11. INCOME TAX EXPENSE

	2019 US\$'000	2018 US\$'000
Current tax		
– Hong Kong Profits Tax	–	(1)

No tax is payable on the profit for the year ended 31 December 2019 arising in Hong Kong since the assessable profit is wholly absorbed by tax losses brought forward. In the opinion of the directors of the Company, there is no taxation arising in other jurisdictions.

Income tax expense for the year can be reconciled to profit before tax per the Group's results as follows:

	2019 US\$'000	2018 US\$'000
Profit before tax	180	1,252
Tax at the applicable income tax rate of 16.5% (<i>note</i>)	(30)	(207)

Tax effect of expenses not deductible for tax purpose	(1,427)	(378)
Effect of utilisation of tax losses previously not recognised	10	5
Tax effect of tax losses not recognised	(50)	(180)
Others	–	4
Income tax expense for the year	–	(1)

Note: Hong Kong Profits Tax rate is used for the tax reconciliation as the Group is considered to be principally managed in Hong Kong.

At the end of the reporting period, the Group had unused tax losses of US\$4,771,000 (2018: US\$4,518,000). For the year ended 31 December 2019, no deferred tax asset had been recognised in respect of such losses due to the unpredictability of future profit streams.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

16. PROPERTY, PLANT AND EQUIPMENT (continued)

The directors of the Company conducted a review of the Group's vessels at the end of every reporting period and determined the recoverable amounts of the vessels based on the higher of value in use and fair value less costs of disposal. The fair value less costs of disposal was determined based on direct comparison approach by making reference to the recent transactions of similar vessels with similar age and condition (Level 2 hierarchy). In estimating the fair value of these vessels, the highest and best use of the vessels were their current use. There were no transfers into or out of Level 2 during both years.

During the year ended 31 December 2019, net impairment loss on vessels of US\$247,000 (2018: reversal of impairment loss of US\$4,257,000) was recognised in profit or loss.

Details of the pledge of property, plant and equipment are set out in note 35.

17. INVESTMENT PROPERTY

	<i>US\$'000</i>
FAIR VALUE	
At 1 January 2018	9,058
Increase in fair value recognised in profit or loss	<u>1,432</u>
At 31 December 2018	10,490
Increase in fair value recognised in profit or loss	38
Exchange difference	<u>(66)</u>
At 31 December 2019	<u>10,462</u>

The Group's property interest held to earn rental income or for capital appreciation purposes represented an office unit in Hong Kong and was measured using the fair value model and was classified and accounted for as investment property.

The fair value of the Group's investment property at 31 December 2019 and 2018 had been arrived at on the basis of a valuation carried out on that date by JP Assets Consultancy Limited, an independent qualified professional valuer not connected to the Group.

The fair value was determined based on direct comparison approach by making reference to the recent transactions of similar properties in similar location and condition under prevailing market conditions, which the market unit rate ranged from HK\$30,000 to HK\$35,000 per square feet. A significant increase in the market unit rate used would result in a significant increase in fair value, and vice versa. In estimating the fair value of the property, the highest and best use of the property was its current use. The fair value of an investment property has been adjusted to exclude prepaid or accrued operating lease income to avoid double counting. The investment property is at Level 2 fair value hierarchy and there were no transfers into or out of Level 2 in the current year.

The Group leases out its investment property under operating leases with rentals payable monthly. The leases typically run for an initial period of one to two years, with unilateral rights to extend the lease beyond initial period held by lessees only.

The Group is not exposed to foreign currency risk as a result of the lease arrangements, as the lease is denominated in Hong Kong dollars which is the functional currency of the Group entity.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

17. INVESTMENT PROPERTY (continued)

The rental income generated from the Group's investment property, which was under operating lease, amounted to US\$63,000 (2018: US\$273,000) for the current year. No material direct operating expenses were incurred for the investment property.

* The amounts due are based on scheduled repayment dates set out in the loan agreements.

The Group's borrowings were denominated in United States dollars and Hong Kong dollars which were also the functional currencies of the respective entities of the Group.

At 31 December 2019, the loans were carrying interest at London Interbank Offered Rate ("LIBOR") or Hong Kong Interbank Offered Rate ("HIBOR") plus certain basis points. The outstanding loans at 31 December 2019 were repayable within one to five years (2018: repayable within one to four years).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

29. BORROWINGS (continued)

The borrowings at 31 December 2019 and 2018 were secured by the followings:

- (i) corporate guarantee from the Company;
- (ii) first preferred mortgage over the vessels held by Zorina Navigation Corp., Heroic Marine Corp. and Polyworld Marine Corp., named MV Zorina, MV Heroic and MV Polyworld, respectively (2018: first preferred mortgage over the vessels MV Zorina and MV Heroic);
- (iii) assignment of insurance proceeds in respect of vessels MV Zorina, MV Heroic and MV Polyworld (2018: assignment of insurance proceeds in respect of vessels MV Zorina and MV Heroic);
- (iv) first mortgage over the investment property held by the Group (2018: nil); and
- (v) pledge of certain debt instruments at FVTOCI held by the Group (2018: nil).

31. SHARE-BASED PAYMENT TRANSACTIONS

Equity-settled share option scheme of the Company

The share option scheme of the Company (the "Share Option Scheme") was adopted by the Company at the annual general meeting of the Company held on 28 June 2017. Unless otherwise cancelled or amended, the Share Option Scheme will be valid and effective for a period of ten years commencing on the date of adoption.

The purpose of the Share Option Scheme is to provide participants with the opportunity to acquire proprietary interests in the Company and to encourage participants to work towards enhancing the value of the Company and its shares for the benefit of the Company and its shareholders as a whole. Participants of the Share Option Scheme comprise of (a) directors (including executive directors, non-executive directors and independent non-executive directors); (b) employees of the Group; and (c) any advisors, consultants, business partners, agents, customers, suppliers, service providers, contractors of any member of the Group or any company or other entity in which the Group or any member of it has a shareholding interest, who, in the sole discretion of the Board, has contributed or may contribute to the Group or any member of it. The offer of a grant of options may be accepted for a period of 30 days from the date of grant, provided that no such offer shall be open for acceptance after the expiry of the period of ten years commencing on the adoption date of the Share Option Scheme or after the Share Option Scheme has been terminated. The amount payable by each grantee of options to the Company on acceptance of the offer for the grant of options is HK\$1.00.

The subscription price for the shares on the exercise of options under the Share Option Scheme shall be a price as determined by the Board in its absolute discretion at the time of the grant of the relevant option (and shall be stated in the letter containing the offer of the grant of the option) but in any case the subscription price shall not be less than the higher of (i) the closing price of the Company's shares as stated in the Hong Kong Stock Exchange's daily quotations sheet on the date of grant, which must be a trading day; (ii) the average closing price of the Company's shares as stated in the Hong Kong Stock Exchange's daily quotations sheets for the five trading days immediately preceding the date of grant; or (iii) the nominal value of a Company's share (if any) on the date of grant.

The total number of the Company's shares issued and to be issued upon exercise of the options granted to each participant, together with all options granted and to be granted to him/her/it under any other share option scheme(s) of the Company within the 12-month period immediately preceding the proposed date of grant (including exercised, cancelled and outstanding options) shall not exceed 1% of the total number of the Company's shares in issue as at the proposed date of grant. Any further grant of options to a participant in excess of the 1% limit shall be subject to the shareholders' approval of the Company with such participant and his/her/its associates abstaining from voting.

The limit on the total number of the Company's shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option scheme(s) of the Company must not exceed 30% of the total number of the Company's shares in issue from time to time. In addition, the total number of the Company's shares which may be issued upon exercise of all options to be granted under the Share Option Scheme, together with all options to be granted under any other share option scheme(s) of the Company (excluding lapsed options), must not represent more than 10% of the total number of the Company's shares in issue as at the date of adoption of the Share Option Scheme (the "Scheme Mandate Limit") or as at the date of the approval of the refreshed Scheme Mandate Limit as the case may be.

No share option has been granted under the Share Option Scheme since its adoption. The total number of shares of the Company available for issue under the Share Option Scheme is 45,737,678 shares representing approximately 8.33% of the issued shares of the Company at the date of this annual report.

Notes to the Consolidated Financial Statements

32. DEPOSIT PAID FOR AN ACQUISITION AND CAPITAL COMMITMENT

On 16 November 2018 and 16 January 2019, Peak Prospect Global Limited ("Peak Prospect"), a wholly owned subsidiary of the Company, entered into a sale and purchase agreement (the "S&P Agreement") and a supplemental agreement (collectively the "Agreement") respectively with Mr. Suen Cho Hung, Paul, a substantial shareholder of the Company (the "Vendor"), as vendor and Peak Prospect as purchaser, for the acquisition of the entire issued share capital of and the shareholder's loan to Polyworld Marine Corp. ("Polyworld") for a maximum aggregate consideration of US\$11,500,000 (the "Acquisition"). The principal purpose of entering into the Agreement was to facilitate the acquisition of a vessel formerly named MV Grand Pioneer (now known as MV Polyworld) (the "Vessel"), accordingly, on 16 November 2018 prior to the signing of the S&P Agreement, the Vendor procured Polyworld to enter into a memorandum of agreement for the acquisition of the Vessel, with the intention of transferring the Vessel to the Group through the sale of Polyworld to the Group.

At 31 December 2018, a deposit of US\$1,088,000 was paid to the Vendor for the Acquisition, and the balance of the maximum consideration of US\$10,412,000 was disclosed as a capital commitment of the Group at 31 December 2018. The acquisition of Polyworld was completed on 20 February 2019. Details of the Acquisition were disclosed in the Company's circular dated 29 January 2019. The total cost for acquisition of the Vessel was US\$10,898,000 and was included as an addition of property, plant and equipment for the year ended 31 December 2019 as set out in note 16. The asset acquired did not constitute a business as defined under IFRS 3 Business Combinations and therefore, the Acquisition was accounted for as an asset acquisition.

33. OPERATING LEASES

The Group as lessor

	2018 US\$'000
Minimum lease payments received under operating leases for its property and vessels	1,439

At the end of the reporting period, the Group had contracted with tenants for the following future minimum lease payments:

	2019 US\$'000	2018 US\$'000
Within one year	1,288	1,460
In the second year	93	608
	1,381	2,068

34. CONTINGENT LIABILITY

At 31 December 2019, the Group had no significant contingent liability (2018: nil).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

35. PLEDGE OF ASSETS

At 31 December 2019, three vessels with an aggregate carrying amount of US\$33,709,000 (including dry-docking), an investment property with carrying amount of US\$10,462,000 and debt instruments at FVTOCI with carrying amount of US\$7,918,000 were pledged to banks and other financial institution as security for the loan facilities granted to the Group.

At 31 December 2018, two vessels with an aggregate carrying amount of US\$23,459,000 (including dry-docking) were pledged to bank and other financial institution as security for the loan facilities granted to the Group.

36. RETIREMENT BENEFITS SCHEME

The Group operates a Mandatory Provident Fund Scheme for all qualifying employees in Hong Kong. The assets of the schemes are held separately from those of the Group in funds under the control of trustees. Both the Group and employees contribute a fixed percentage to the Mandatory Provident Fund Scheme based on their monthly salary in accordance with government regulations.

37. RELATED PARTY DISCLOSURES

(a) Other than as disclosed elsewhere in these consolidated financial statements, during the year, the Group had the following transactions with related parties:

Related parties	Nature of transaction	2019 US\$'000	2018 US\$'000
Poly Investment & Finance Limited ("PIF") (note)	Rental expense	112	79
U Credit (HK) Limited ("U Credit") (note)	Interest expense	63	–

Note: At 31 December 2019, Mr. Suen Cho Hung, Paul (a substantial shareholder of the Company) was the sole shareholder of PIF and had an approximately 9.9% indirect shareholding interest in U Credit. At 31 December 2019, Mr. Sue Ka Lok was a director of the Company and U Credit.

(b) Remuneration of key management personnel

During the year ended 31 December 2019, the remuneration of the Group's key management personnel comprising directors and chief executive officers was disclosed in note 12.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

38. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders of the Company through the optimisation of the debt and equity balance.

The capital structure of the Group consists of debt, which includes the borrowings as disclosed in note 29, offset by cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure on a continuous basis taking into account the cost of capital and the risk associated with the capital. The Group will balance its overall capital structure through payment of dividend, issuance of new shares as well as the raising of new debts or the repayment of existing debts. The Group also ensures that it maintains net worth and capital-assets ratio within a set range to comply with the loan covenant imposed by the banks.

The Group's overall strategy remains unchanged from prior year.

39. FINANCIAL INSTRUMENTS

(a) Categories of financial instruments

The following table sets out the financial instruments as at the end of the reporting period:

	2019 <i>US\$'000</i>	2018 <i>US\$'000</i>
Financial assets		
Debt instruments at FVTOCI	9,978	8,829
Financial assets at FVTPL	1,861	2,596
Financial assets at amortised cost	<u>3,978</u>	<u>7,227</u>
Financial liability		
Amortised cost	<u>19,477</u>	<u>14,798</u>

(b) Financial risk management objectives and policies

The Group's financial instruments include trade receivables, other receivables, amount due from a joint venture, debt instruments at FVTOCI, financial assets at FVTPL, time deposit, bank balances and cash, trade payables, other payables and borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with the Group's financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

39. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

(i) Currency risk

The Group's principal subsidiaries are operating in Hong Kong and their transactions are mostly denominated and settled in HK\$ and US\$. As HK\$ is pegged to US\$, the management thus considers the Group's foreign currency exposure is not significant. To the extent that the Group's revenue and expenditure are not naturally matched in the same currency and to the extent that there are timing differences between receipt and payment, the Group will be exposed to foreign currency exchange gains and losses arising from transactions in currencies other than its functional currency. As a result, the Group's results may be affected. Certain bank balances of the Group which are denominated in New Taiwan Dollars, Singapore Dollars and Renminbi are considered insignificant. The management will consider using foreign exchange forward contracts to hedge its foreign currency exposure if it considers the risk to be significant.

As the Group does not have significant foreign currency exposures, foreign currency sensitivity analysis is not presented.

(ii) Interest rate risk

The Group is exposed to cash flow interest rate risk primarily relating to certain time deposit, bank balances and borrowings at the end of the reporting period which carry variable interest rates, as disclosed in notes 24, 25 and 29 respectively. The Group has not used any interest rate swaps to mitigate its exposure associated with fluctuations relating to interest rate risk. However, the management monitors interest rate exposure and will consider necessary actions when significant interest rate exposure is anticipated.

The Group's exposures to interest rates on financial liability are detailed in the liquidity risk. The Group's cash flow interest rate risk is mainly concentrated on the fluctuations of LIBOR and HIBOR arising from the Group's variable-rate borrowings.

The directors of the Company consider that the changes in interest rates of bank balances have no significant impact on the Group and the sensitivity analysis of interest rate risk of such balances is not presented.

The sensitivity analyses below have been determined based on the exposure to interest rates for non-derivative instruments relating to variable-rate borrowings at 31 December 2019 and 2018. The analysis is prepared assuming the variable-rate borrowings outstanding at the end of the reporting period were outstanding for the whole reporting year. An 100 basis points increase or decrease is used as it represents management's assessment of the reasonably possible change in interest rates. If interest rates had been 100 basis points higher/lower and all other variables were held, the Group's profit (2018: profit) for the year ended 31 December 2019 would decrease/increase by US\$191,000 (2018: decrease/increase by US\$144,000).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

39. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

(iii) Other price risk

The Group is exposed to price risk arising from the investment in listed equity securities and debt securities. The management manages this exposure by maintaining a portfolio of investments with different risks. The Group's price risk is mainly concentrated on equity instruments and debt securities quoted in the Hong Kong Stock Exchange or SGX-ST. In addition, the Group will consider hedging the risk exposure should the need arise.

The sensitivity analyses below have been determined based on the exposure to price risk at the reporting date. If the prices of the respective listed equity and debt securities had been 10% higher/lower, the Group's profit for the year ended 31 December 2019 would increase or decrease by approximately US\$186,000 (2018: US\$260,000) and the Group's other comprehensive income for the year ended 31 December 2019 would increase or decrease by approximately US\$998,000 (2018: US\$883,000).

(iv) Credit risk and impairment assessment

Trade receivable arising from contracts with customer

In order to minimise the credit risk, the directors generally grant credit only to customers with good credit ratings and also closely monitors overdue trade debts. The unsettled trade receivables are monitored on an ongoing basis and followed up by the finance department. In addition, the Group performs impairment assessment under ECL model on trade balances individually. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Bank balances

The credit risks on bank balances are limited because the counterparties are banks/ financial institutions with high credit ratings assigned by international credit-rating agencies.

Debts instruments at FVTOCI

All the Group's debt instruments at FVTOCI are listed bonds that had no recent default history. Therefore, they are considered to be low credit risk investments.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

39. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

(iv) Credit risk and impairment assessment (continued)

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables	Other financial assets/other items
Low risk	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL – not credit-impaired	12-month ECL
Watch list	Debtor frequently repays after due dates but usually settle after due date	Lifetime ECL – not credit-impaired	12-month ECL
Doubtful	There have been significant increases in credit risk since initial recognition through information developed internally or externally	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

The tables below detail the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

2019	Notes	External credit rating	Internal credit rating	12-month or lifetime ECL	Gross carrying amount	
					2019 US\$'000	2018 US\$'000

Notes to the Consolidated Financial Statements

For the year ended 31 December 2019

39. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

(iv) Credit risk and impairment assessment (continued)

Notes:

- For the purposes of internal credit risk management, the Group uses past due information to assess whether credit risk has increased significantly since initial recognition.
- For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the expected credit losses on trade receivables individually.

During the year ended 31 December 2019, no impairment allowance for trade receivable was provided for the Group's trade receivables based on the individual assessments.

(v) Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

Management also monitors the utilisation of borrowings and ensures compliance with loan covenants.

The management therefore considers that the Group's liquidity risk has been reduced.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities, based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are based on floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.

39. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

(v) Liquidity risk (continued)

The amounts included above for variable interest rate instruments for non-derivative financial liabilities are subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

(vi) Fair values

The fair values of financial assets and financial liabilities are determined as follows:

- The fair values of listed debt securities classified as debt instruments at FVTOCI and listed equity securities classified as financial assets at FVTPL are determined with reference to quoted prices in active market; and
- The fair values of other financial assets and financial liability are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost at the end of each reporting period approximate their fair values.

Fair value of the Group's financial assets are measured at fair value on a recurring basis.

Some of the Group's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair value of these financial assets is determined (in particular, the valuation techniques and inputs used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.
