However, if more than one of such joint holders are present at the meeting personally or by proxy, that one of such holders whose name stands first in the register of members of the Company shall alone be entitled to vote in respect of that share.

To Shareholders.

On behalf of the Board of Directors, I hereby present the annual report of the Group for the year ended 31 March 2011.

FINANCIAL RESULTS

The Group's audited consolidated loss for the year ended 31 March 2011 was HK\$391,908,000 compared with last year's attributable loss of HK\$7,382,000. The net assets value of the Group decreased from HK\$1,113,319,000 as at 31 March 2010 to HK\$957.970.000 as at 31 March 2011.

The Group recorded a negative revenue for the year amounted to HK\$171,624,000 compared to last year negative revenue of HK\$79,098,000. Details of the breakdown of the revenue can be seen on note 5 to the financial statements.

On the expenses side, the level of total operating expenses increased in this year mainly due to the fair value losses on investments at fair value through profit or loss amounted to HK\$72,834,000. General and administrative expenses increased from last year's figure of HK\$30,261,000 to HK\$35,471,000 in this year being in line with the increase in the size of our operation. Finance costs decreased from last year's figure of HK\$3,124,000 to HK\$2,144,000 this year.

FINAL DIVIDEND

The Directors do not recommend the payment of any final dividend for the financial year (2010: Nil).

MANAGEMENT DISCUSSION AND ANALYSIS FINANCIAL RESULTS

The Board announces that the Group has made a loss before tax of approximately HK\$392 million for the year ended 31 March 2011. The loss is mainly attributable to loss on sale of equity and debt investments, unrealised fair value losses arisen from equity and debt investments and share of losses of associates as at the fiscal year end date.

The Group is an investment holding company with the following major lines of business:

a) Real Estate Investment

The Group owned certain commercial properties in North Point and a luxury residential property in Stanley. With the increase in property prices in Hong Kong the Group's property portfolio appreciated in value. The gain arising from changes in fair value amounted to approximately HK\$4.2 million for the year ended 31 March 2011. The value of the Group's property investment stood at HK\$246.8 million as at 31 March 2011. Subsequent to fiscal year end, the Group entered into an agreement on 4 May 2011 with an independent third party to dispose of one of its commercial properties in cash of approximately HK\$117 million. This transaction is subject to approval by shareholders at the forth coming special general meeting on 28 June 2011.

b) Investment in Listed Securities

The Group's securities portfolio has suffered a loss on sale of investments at fair value through profit or loss of approximately HK\$177.1 million for the year ended 31 March 2011. Besides, there are fair value losses on investments at fair value through profit and loss of approximately HK\$72.8 million in the same period.

c) Money Lending Business

The Group's share of losses of associates, engaging in money lending business, amounted to approximately HK\$182.6 million for the year ended 31 March 2011. Besides, a new wholly owned subsidiary was formed to engage in the money lending business.

d) Investment in Lottery Related Business in the People's Republic of China (the "PRC")

The Group has a 20% interest in a company engaging in lottery related business in the PRC (the "PRC Company"). In view of the technological development in the PRC which makes internet more popular and selling of lottery tickets through internet possible, the Group is recently considering diversifying its business into internet lottery business by increasing its investment in the PRC Company.

PROSPECT

With the globalization of the world economy, economic measures taken in one country may have devastating consequences in other nations. For example, in the United States, the loose monetary policy quantitative easing 2, lead to severe inflation in other parts of the world. On the other hand, if an over aggressive tightening policy was used, it may block economic rebound. While the global economy is dealing with the aftermath of the financial tsunami and each country is trying to resolve its own economical problems, China has proactively taken monetary precautionary measures to guard against the rising inflation. With its existing foreign exchange policy and economic growth and size, China is relatively insulated from global economic forces. To avoid economic bubble, the central government restored China's economy through a series of tightening policy measures including currency revaluation, interest rate controls and tightening money supply to drive away unacceptable inflation. Such policies will slowdown China's economy in the immediate term but it is believed to be beneficial to the long term growth and sustainability of the economy as a whole. To get through such economic volatility, the Group is prepared and equipped through the combination of sufficient cash level and low gearing.

Recently, the Group has developed a new line of business in traditional Chinese medicine industry through the operation of the Hon Chinese Medicine Clinic. This operation includes Chinese medical consultation and other Chinese manipulative therapy treatments such as acupuncture, tui na, moxibustion, fire cupping, Chinese herbalism and qigong. The Management believes that the outlook of the Chinese medicine business is buoyant as Chinese medicine is gaining popularity especially among the younger generation.

With the growing uncertainty in the global economy and gradual slowdown of the economy in China, the Group is taking a cautious approach in its future growth. However since the Group is relatively lowly geared, it will take on good business opportunity as and when it arises.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 31 March 2011, the Group's total assets and borrowings were HK\$1,049,257,000 and HK\$66,244,000 respectively. Borrowings represented interest-bearing bank borrowings. A majority of the bank borrowings of the Group carried floating interest rates with reference to the Hong Kong dollar prime rate/HIBOR and were denominated in Hong Kong dollar, and thus, there is no exposure to fluctuations in exchange rate. The gearing ratio (total borrowings/total assets) was approximately 6%. As at 31 March 2011, investment properties amounted to HK\$244,500,000, were pledged to banks to secure certain loan facilities granted to the Group and investments in securities with carrying amount of HK\$636,488,000 were pledged to certain financial institutes to secure certain margin financing facilities provided to the Group.

EMPLOYEES, REMUNERATION POLICY AND RETIREMENT BENEFITS SCHEME

The Group selects and promotes staff based on their qualification, experience and suitability for the position offered. The Group's remuneration policy aims to retain and motivate staff. Performance of staff is appraised annually to provide a base for the review of the remuneration package. The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme under the Hong Kong Mandatory Provident Fund Schemes Ordinance for all its employees.

CONTINGENT LIABILITIES

The Company has major contingent liabilities relating to guarantees given to banks in connection with facilities granted to subsidiaries of approximately HK\$61,500,000 (2010: HK\$65,500,000).

Finally, I would like to take this opportunity to thank all of my fellow directors and members of staff for their dedicated services, support and contribution during the year. Looking forward to their continue support and excellent services in the coming years.

The Chairman and chief executive officer of the Company is Dr. Kwong Kai Sing, Benny. The deviates from Code Provision A.2.1 which stipulates that the roles of the Chairman and chief executive officer should be separate and should not be performed by the same individual.

Dr. Kwong Kai Sing, Benny is primarily responsible for the leadership of the Board and overall management of the Company. The Company considers that currently vesting the roles of both Chairman and chief executive officer in the same person provided the Group with strong and consistent leadership and allows for more effective planning and execution of business strategies. However, the Company understands the importance to comply with Code Provisions and it is also the Company's aim to comply with all the Code Provisions. Therefore, the Company will continue to consider the feasibility to comply with Code Provision A.2.1. If compliance is determined, appropriate persons will be nominated to the different roles of Chairman and chief executive officer.

NON-EXECUTIVE DIRECTORS

Although not less than one-third of the Directors of the Company (both executive and non-executive) are subject to retirement by rotation at the Company's annual general meeting (Code Provision A.4.2 requires every director should be subject to retirement by rotation at least once every three years (the "Rotation Period Restriction")) as specified by the Company's bye-laws, they are not appointed for a specific term. Thus the Company has deviated from Code Provision A.4.1. The Company considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are similar to those provided in the Code.

Corporate Governance Report

REMUNERATION OF DIRECTORS

The remuneration committee of the Company (the "Remuneration Committee") was established in March 2006. As at the date of this report, the Remuneration Committee comprises two Independent Non-executive Directors and one Executive Director:

Mr. To Shing Chuen (Independent Non-executive Director)

Mr. Ha Kee Choy, Eugene (Independent Non-executive Director)

Ms. Poon Chi Wan (Executive Director)

The adopted terms of reference of the Remuneration Committee is in compliance with the Code Provision B.1.3.

The Remuneration Committee held one meeting during the financial year of 2011. Details of the attendance of the Remuneration Committee meeting were as follows:

The Board will review the profile of current Directors and nominated directors (if any) on a regular basis in order to ensure that the composition of the Board is capable to fulfill its obligation and be responsible for the Company.

AUDITORS' REMUNERATION

During the year ended 31 March 2011, fees paid to the Company's external auditors for non-audit activities amounted to approximately HK\$590,000 which comprised agreed-upon procedures in respect of the Group's interim financial information and corporate transactions.

Audit fee for the year 2011 is HK\$1,588,000.

AUDIT COMMITTEE

The Audit Committee is composed of five independent non-executive Directors namely Chan Sze Hung (Chairman of the Committee), To Shing Chuen, Ha Kee Choy, Eugene, Chung Yuk Lun and Lo Wong Fung. Two of the members possess appropriate professional accounting qualification; the other one member is a practicing solicitor. Code Provision C.3.3 requires the terms of reference of the audit committee should include certain minimum duties. The terms of reference of the audit committee were revised to include all the duties set out in the Code Provision C.3.3 of which among other things include reviewing financial statements of the Company. Any findings and recommendations of the Audit Committee are to be submitted to the Board for consideration.

The Audit Committee is authorized by the Board to investigate any activity within its terms of reference. It is authorized to seek any information it requires from any employee. It is also authorized to obtain outside legal or other independent professional advice and to secure the attendance of outsiders with relevant experience and expertise if it considers necessary.

During the meetings, the Audit Committee reviewed reports from external auditors regarding their audit on annual financial statements and review on interim financial results.

OTHERS

The Directors are responsible for the preparation of financial statements. The Directors are not aware of material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern, therefore the Directors continue to adopt the going concern approach in preparing the financial statements. Also, the internal control system of the Group has also been reviewed during the year.

The statement of the auditors of the Company regarding their reporting responsibilities is set out in the Auditors' Report on pages 25 to 26 of this Annual Report.

To the shareholders of Heritage International Holdings Limited (Incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Heritage International Holdings Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 27 to 122, which comprise the consolidated and company statements of financial position as at 31 March 2011, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. Our report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Independent Auditors' Report

To the shareholders of Heritage International Holdings Limited

(Incorporated in Bermuda with limited liability)

AUDITORS' RESPONSIBILITY (continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 March 2011, and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Notes to Financial Statements

31 March 2011

I. CORPORATE INFORMATION

Heritage International Holdings Limited is a limited liability company incorporated in Bermuda. The principal place of business of the Company is located at 29th Floor, China United Centre, 28 Marble Road, North Point, Hong Kong.

During the year, the Group was primarily involved in property investment, investments in securities, money lending and investment holding.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties, a convertible note classified as a financial liability at fair value through profit or loss, derivative financial instruments and certain investments, which have been measured at fair value. These financial statements are presented in Hong Kong dollars ("HK\$") and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

Basis of consolidation from 1 April 2010

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 March 2011. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. All intra-group balances, transactions, unrealised gains and losses resulting from intra-group transactions and dividends are eliminated on consolidation in full.

Losses within a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

31 March 2011

2.1 BASIS OF PREPARATION (continued)

Basis of consolidation (continued)

Basis of consolidation from 1 April 2010 (continued)

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate.

Basis of consolidation prior to 1 April 2010

Certain of the above-mentioned requirements have been applied on a prospective basis. The following differences, however, are carried forward in certain instances from the previous basis of consolidation:

- Losses incurred by the Group were attributed to the non-controlling interest
 until the balance was reduced to nil. Any further excess losses were attributable
 to the parent, unless the non-controlling interest had a binding obligation to
 cover these. Losses prior to I April 2010 were not reallocated between noncontrolling interest and the parent shareholders.
- Upon loss of control, the Group accounted for the investment retained at its
 proportionate share of net asset value at the date control was lost. The carrying
 amount of such investment at 1 April 2010 has not been restated.

2.2 CHANGES IN ACCOUNTING POLICY AND DISCLOSURES

The Group has adopted the following new and revised HKFRSs for the first time for the current year's financial statements.

HKFRS I (Revised)	First-time Adoption of Hong Kong Financial Reporting Standards

Other than as further explained below regarding the impact of HK Interpretation 5, the adoption of the new and revised HKFRSs has had no significant financial effect on these financial statements and there have been no significant changes to the accounting policies applied in these financial statements.

31 March 2011

2.2 CHANGES IN ACCOUNTING POLICY AND DISCLOSURES

(continued)

HK Interpretation 5 Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause

The interpretation requires a term loan that contains a clause that gives the lender the unconditional right to call the loan at any time shall be classified in total by the borrower as current in the statement of financial position. This is irrespective of whether a default event has occurred and notwithstanding any other terms and maturity stated in the loan agreement. Prior to the adoption of this interpretation, the Group's term loans were classified in the statement of financial position as non-current liabilities based on their maturity dates of repayment. Upon the adoption of the interpretation, the term loans have been reclassified entirely as current liabilities. The interpretation has been applied by the Group retrospectively and comparative amounts have been restated. In addition, as a result of this change and as required by HKAS I, these financial statements also include a statement of financial position as at I April 2009.

Further details of the loans are disclosed in note 22 to the financial statements.

The above change has had no effect on the consolidated income statement. The effect on the consolidated statement of financial position is summarised as follows:

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (continued)

The Group is in the process of making an assessment of the impact of these new and revised HKFRSs upon initial application but is not yet in a position to state whether these new and revised HKFRSs would have a significant impact on its results of operations and financial position.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsidiaries

A subsidiary is an entity whose financial and operating policies the Company controls, directly or indirectly, so as to obtain benefits from its activities.

The results of subsidiaries are included in the Company's income statement to the extent of dividends received and receivable. The Company's investments in subsidiaries are stated at cost less any impairment losses.

Joint ventures

A joint venture is an entity set up by contractual arrangement, whereby the Group and other parties undertake an economic activity. The joint venture operates as a separate entity in which the Group and the other parties have an interest.

The joint venture agreement between the venturers stipulates the capital contributions of the joint venture parties, the duration of the joint venture and the basis on which the assets are to be realised upon its dissolution. The profits or losses from the joint venture's operations and any distributions of surplus assets are shared by the venturers, either in proportion to their respective capital contributions, or in accordance with the terms of the joint venture agreement.

A joint venture is treated as:

- (a) a subsidiary, if the Group has unilateral control, directly or indirectly, over the joint venture;
- (b) a jointly-controlled entity, if the Group does not have unilateral control, but has joint control, directly or indirectly, over the joint venture;

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Joint ventures (continued)

- (c) an associate, if the Group does not have unilateral or joint control, but holds, directly or indirectly, generally not less than 20% of the joint venture's registered capital and is in a position to exercise significant influence over the joint venture; or
- (d) an equity investment accounted for in accordance with HKAS 39, if the Group holds, directly or indirectly, less than 20% of the joint venture's registered capital and has neither joint control of, nor is in a position to exercise significant influence over, the joint venture.

Jointly-controlled entities

A jointly-controlled entity is a joint venture that is subject to joint control, resulting in none of the participating parties having unilateral control over the economic activity of the jointly-controlled entity.

The Group's investments in jointly-controlled entities are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. The Group's share of the post-acquisition results and reserves of jointly-controlled entities is included in the consolidated income statement and consolidated reserves, respectively. Unrealised gains and losses resulting from transactions between the Group and its jointly-controlled entities are eliminated to the extent of the Group's investments in the jointly-controlled entities, except where unrealised losses provide evidence of an impairment of the asset transferred. Goodwill arising from the acquisition of jointly-controlled entities is included as part of the Group's investments in jointly-controlled entities. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

Associates

An associate is an entity, not being a subsidiary or a jointly-controlled entity, in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Associates (continued)

The Group's investments in associates are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. The Group's share of the post-acquisition results and reserves of associates is included in the consolidated income statement and consolidated reserves, respectively. Unrealised gains and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's investments in the associates, except where unrealised losses provide evidence of an impairment of the asset transferred. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

The results of associates are included in the Company's income statement to the extent of dividends received and receivable. The Company's investments in associates are treated as non-current assets and are stated at cost less any impairment losses.

Business combinations and goodwill

Business combinations from 1 April 2010

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value as at the acquisition date through profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Business combinations and goodwill (continued)

Business combinations from 1 April 2010 (continued)

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognised in accordance with HKAS 39 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it shall not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the net identifiable assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets of the subsidiary acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 March. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill forms part of a cash-generating unit (group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Business combinations and goodwill (continued)

Business combinations prior to 1 April 2010 but after 1 January 2005

In comparison to the above-mentioned requirements which were applied on a prospective basis, the following differences applied to business combinations prior to I April 2010:

Business combinations were accounted for using the purchase method. Transaction costs directly attributable to the acquisition formed part of the acquisition costs. The non-controlling interest was measured at the proportionate share of the acquiree's identifiable net assets.

Business combinations achieved in stages were accounted for as separate steps. Any additional acquired share of interest did not affect previously recognised goodwill.

When the Group acquired a business, embedded derivatives separated from the host contract by the acquiree were not reassessed on acquisition unless the business combination resulted in a change in the terms of the contract that significantly modified the cash flows that otherwise would have been required under the contract.

Contingent consideration was recognised if, and only if, the Group had a present obligation, the economic outflow was more likely than not and a reliable estimate was determinable. Subsequent adjustments to the contingent consideration were recognised as part of goodwill.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than financial assets, investment properties and goodwill), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs to sell, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the income statement in the period in which it arises.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Impairment of non-financial assets (continued)

An assessment is made at the end of each reporting period as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the income statement in the period in which it arises.

Related parties

A party is considered to be related to the Group if:

- (a) the party, directly or indirectly through one or more intermediaries, (i) controls, is controlled by, or is under common control with, the Group; (ii) has an interest in the Group that gives it significant influence over the Group; or (iii) has joint control over the Group;
- (b) the party is an associate;
- (c) the party is a jointly-controlled entity;
- (d) the party is a member of the key management personnel of the Group;
- (e) the party is a close member of the family of any individual referred to in (a) or (d);
- (f) the party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or
- (g) the party is a post-employment benefit plan for the benefit of the employees of the Group, or of any entity that is a related party of the Group.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the income statement in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold improvements

Over the shorter of the lease terms and 20%

Furniture, fixtures and office equipment 20%

Motor vehicles 25% to 30%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the income statement in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Investment properties

Investment properties are interests in land and buildings (including the leasehold interest under an operating lease for a property which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the supply of services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in the income statement in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the income statement in the year of the retirement or disposal.

Leases

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under operating leases are credited to the income statement on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases are charged to the income statement on the straight-line basis over the lease terms.

Investments and other financial assets

Initial recognition and measurement

Financial assets within the scope of HKAS 39 are classified as financial assets at fair value through profit or loss and loans and receivables, as appropriate. The Group determines the classification of its financial assets at initial recognition. When financial assets are recognised initially, they are measured at fair value, plus, in case of investments not at fair value through profit or loss, directly attributable transaction costs.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

31 March 2011

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Investments and other financial assets (continued)

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition as at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of sale in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKAS 39. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with changes in fair value recognised in other income or finance costs in the income statement. These net fair value changes do not include any dividends or interest earned on these financial assets, which are recognised in accordance with the policies set out for "Revenue recognition" below.

The Group evaluates its financial assets at fair value through profit or loss (held for trading) to assess whether the intent to sell them in the near term is still appropriate. When the Group is unable to trade these financial assets due to inactive markets and management's intent to sell them in the foreseeable future significantly changes, the Group may elect to reclassify these financial assets in rare circumstances. The reclassification from financial assets at fair value through profit or loss to loans and receivables or held-to-maturity investments depends on the nature of the assets. This evaluation does not affect any financial assets designated at fair value through profit or loss using the fair value option at designation.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in the income statement. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Investments and other financial assets (continued)

Subsequent measurement (continued)

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income in the income statement. The loss arising from impairment is recognised in the income statement in other expenses.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the assets, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's continuing involvement in the asset. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

31 March 2011

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Impairment of financial assets

The Group assesses at the end of each reporting period whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses individually whether objective evidence of impairment exists for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (that is, the effective interest rate computed at initial recognition). If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the income statement. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Impairment of financial assets (continued)

Financial assets carried at amortised cost (continued)

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is credited to finance costs in the income statement.

Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of HKAS 39 are classified as financial liabilities at fair value through profit or loss and loans and borrowings, as appropriate. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value and in the case of loans and borrowings, plus directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities

held for trading and financial liabilities designated upon initial recognition as at
fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKAS 39. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the income statement. The net fair value gain or loss recognised in the income statement does not include any interest charged on these financial liabilities.

31 March 2011

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Financial liabilities (continued)

Subsequent measurement (continued)

(ii) Loans and borrowings

After initial recognition, loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the income statement when the liabilities are derecognised as well as through the effective interest rate method amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the income statement.

(iii) Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contract at the higher of: (i) the amount of the best estimate of the expenditure required to settle the present obligation at the end of the reporting period; and (ii) the amount initially recognised less, when appropriate, cumulative amortisation.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the income statement.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Fair value of financial instruments

The fair value of financial instruments that are traded in active markets is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction. For financial instruments where there is no active market, the fair value is determined using appropriate valuation techniques. Such techniques include using recent arm's length market transactions; reference to the current market value of another instrument which is substantially the same; a discounted cash flow analysis; and other valuation models.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the statement of financial position, cash and bank balances comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the income statement.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the country in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and jointly-controlled entities, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carryforward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

• where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

31 March 2011

Income tax (continued)

in respect of deductible temporary differences associated with investments in subsidiaries, associates and jointly-controlled entities, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) rental income, on a time proportion basis over the lease terms;
- (b) income from the sale of equity and debt securities, on a trade-date basis;
- (c) management fee income, when such services are rendered;
- (d) dividend income, when the shareholders' right to receive payment has been established; and
- (e) interest income, on an accrual basis using the effective interest method by applying the rate that discounts the estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Share-based payment transactions

The Company currently operates a share option scheme for the purpose of providing incentives and rewards to eligible participants (including the Company's directors and other employees of the Group and of the investee entities and any consultant, advisor or agent engaged by any member of the Group or any investee entity) who render services and/or contribute to the success of the Group's operations. Employees (including directors) and investment advisors of the Group receive remuneration in the form of share-based payment transactions, whereby employees/investment advisors render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants after 7 November 2002 is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binominal model, further details of which are given in note 26 to the financial statements.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the income statement for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee/investment advisors as measured at the date of modification.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Share-based payment transactions (continued)

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph. All cancellations of equity-settled transaction awards are treated equally.

Other employee benefits

Retirement benefit schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group's subsidiary which operates in Mainland China are required to participate in a central pension scheme operated by the local municipal government. This subsidiary is required to contribute a certain percentage of its payroll costs to the central pension scheme. The contributions are charged to the income statement as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

All borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rates of exchange ruling at the end of the reporting period. All differences are taken to the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The functional currencies of a subsidiary registered in the People's Republic of China (the "PRC") and certain jointly-controlled entities registered in the PRC are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into the presentation currency of the Company at the exchange rates ruling at the end of the reporting period and their income statements are translated into Hong Kong dollars at the weighted average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in a separate component of equity. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the income statement.

For the purpose of the consolidated statement of cash flows, the cash flows of a subsidiary registered in the PRC are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of the subsidiary registered in the PRC which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rate for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Operating lease commitments – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties which are leased out on operating leases.

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the supply of services or for administrative purposes. If these portions could be sold separately (or leased out separately under a finance lease), the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the supply of services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

Income taxes

Significant judgements on the future tax treatment of certain transactions are required in determining income tax provisions. The Group carefully evaluates tax implications of transactions and tax provisions are made accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislation.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND

ESTIMATES (continued)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Impairment of loans and receivables

The Group assesses at the end of each reporting period whether there is any objective evidence that a loan/receivable is impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

The Group maintains an allowance for estimated losses arising from the inability of its debtors to make the required payments. The Group makes its estimates based on the ageing of its debtor balances, debtors' creditworthiness, repayment history, historical write-off experience and other relevant information. If the financial condition of its debtors was to deteriorate so that the actual impairment loss might be higher than expected, the Group would be required to revise the basis of making the allowance and its future results would be affected.

Fair value of investment properties

Investment properties are carried in the statement of financial position at their fair value. The fair value was based on a valuation on these properties conducted by an independent firm of professional valuers using property valuation techniques which involve making assumptions on certain market conditions. Favourable or unfavourable changes to these assumptions would result in changes in the fair value of the Group's investment properties and the corresponding adjustments to the gain or loss recognised in the income statement.

31 March 2011

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Non-financial assets with finite useful lives are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The calculation of the fair value less costs to sell is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

Estimation of fair values of convertible notes classified as financial assets/liabilities at fair value through profit or loss

Convertible notes classified as financial assets/liabilities at fair value through profit or loss are stated at their fair values. The fair values were determined based on the quoted market prices of their underlying listed securities conducted by an independent firm of professionally qualified valuers using valuation techniques which involve making assumptions on certain market conditions. Favourable or unfavourable changes to these assumptions would result in changes in the fair values of the Group's convertible notes classified as financial assets/liabilities at fair value through profit or loss and the corresponding adjustments to the gain or loss recognised in the income statement.

Fair value of an unlisted equity investment

The unlisted equity investment has been valued based on observable market prices or rates in comparable market transactions. The fair value of the unlisted equity investment at 31 March 2011 was HK\$78,000,000 (2010: HK\$15,000,000). Further details are included in note 20 to the financial statements.

31 March 2011

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND

ESTIMATES (continued)

Estimation uncertainty (continued)

Fair value of equity-settled transactions

The Group operates a share option scheme under which eligible participants (including the Company's directors and other employees of the Group and of the investee entities and any consultant, advisor or agent engaged by any member of the Group or any investee entity) receive remuneration in the form of share-based payment transactions. The cost of these equity-settled transactions with eligible participants is measured by reference to the fair value at the date at which they are granted, using assumptions including expected volatility and risk-free interest rate.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has four reportable operating segments as follows:

- (i) the property investment segment engages primarily in the investments in properties for rental income potential and/or appreciation in values;
- (ii) the investments in securities segment engages primarily in the purchase and sale of securities and the holding of equity and debt investments primarily for interest income, dividend income and capital appreciation;
- (iii) the money lending segment engages primarily in money lending operations in Hong Kong; and
- (iv) the investment holding segment engages primarily in investment holding for a continuing strategic or long term purpose, primarily for dividend income and capital appreciation.

There were no material intersegment sales and transfers during the year (2010: Nil).

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment results, which is a measure of adjusted profit/(loss) before tax. The adjusted loss before tax is measured consistently with the Group's loss before tax except that interest income, certain gains and finance costs, and unallocated expenses are excluded from such measurement.

The Group's revenue is substantially derived from its external customers in Hong Kong and the Group's operating assets are substantially located in Hong Kong.

The share of tax expense attributable to associates for the year ended 31 March 2010 amounting to HK\$950,000 is included in "Share of losses of associates" on the face of the consolidated income statement.

II. LOSS FOR THE YEAR ATTRIBUTABLE TO OWNERS OF THE COMPANY

The consolidated loss attributable to owners of the Company for the year ended 31 March 2011 includes a loss of HK\$240,101,000 (2010: profit of HK\$45,760,000) which has been dealt with in the financial statements of the Company.

12. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

(a) Basic loss per share

The calculation of the basic loss per share amount for the year is based on the loss for the year attributable to ordinary equity holders of the Company of HK\$391,908,000 (2010: HK\$7,382,000), and the weighted average number of ordinary shares of 151,993,978 (2010: 47,314,727 (restated)) in issue during the year as adjusted to reflect the consolidation of shares and rights issue during the year (note 25). The basic loss per share amount for the prior year has been adjusted to reflect the consolidation of shares and rights issue during the year.

(b) Diluted loss per share

No adjustment has been made to the basic loss per share amount presented for the year ended 31 March 2011 in respect of a dilution as the Group had no potentially dilutive ordinary shares in issues during the year. No adjustment had been made to the basic loss per share amount presented for the year ended 31 March 2010 as the impact of the convertible note classified as a financial liability at fair value through profit or loss outstanding during that year had an anti-dilutive effect on the basic loss per share amount presented.

Due to the dismal performance of certain subsidiaries, an impairment testing for amounts due therefrom was performed. An impairment was recognised for certain amounts due from subsidiaries with a carrying amount of HK\$2,600,075,000 (2010: HK\$2,457,098,000) (before deducting the impairment loss) because these subsidiaries have deficiency in assets and, accordingly, a portion of the receivables is impaired. The impairment losses recognised for the year amounted to HK\$218,586,000 (2010: reversal of impairment losses of HK\$39,581,000).

The amounts due from subsidiaries are unsecured, interest-free and have no fixed terms of repayment. In the opinion of the directors, these balances are considered as quasi-equity loans to the subsidiaries.

16. INVESTMENTS IN JOINTLY-CONTROLLED ENTITIES

(continued)

On 28 June 2006, the Group entered into an agreement (the "Agreement") to subscribe for a 20% equity interest in New Range. Pursuant to the Agreement, within 18 months from the date of approval and due registration of a joint venture contract to be entered into between the shareholders of New Range in relation to their respective rights and obligations in New Range by the relevant government authorities and registration authorities, respectively, the Group would also have the rights to further increase its equity interest in New Range to 40% by injecting another HK\$20 million into New Range.

The Group's share of net liabilities and losses of the jointly-controlled entities was limited by its investments in the jointly-controlled entities as further explained below.

The Group has discontinued the recognition of its share of losses of New Range and its subsidiaries because the share of losses of the jointly-controlled entities exceeded the Group's investments in the jointly-controlled entities. The amounts of the Group's unrecognised share of profit of the jointly-controlled entities for the current year and the cumulative losses were approximately HK\$28,000 (2010: share of loss of HK\$45,000) and HK\$649,000 (2010: HK\$677,000), respectively.

In the prior years, the Group recognised a provision for impairment of investments in jointly-controlled entities of HK\$15,972,000, based on an annual assessment of the recoverable amount for the cash-generating unit specific to the jointly-controlled entities.

On 4 January 2011, the Group entered into a sale and purchase agreement with Hennabun Capital Group Limited ("Hennabun"), a company incorporated in the British Virgin Islands, to dispose of a 19.75% equity interest in Best Purpose for a consideration of HK\$69,000,000, resulting in a gain on disposal of HK\$69,000,000. The consideration was satisfied by the issue and allotment of 11,500,000 shares issued by Hennabun to the Group at the issue price of HK\$6 per share. The disposal was completed on 16 February 2011 and Best Purpose became a 27.75%-owned associate of the Group thereafter.

17. INVESTMENTS IN ASSOCIATES (continued)

During the year, the Group's share of losses of Best Purpose and its subsidaries (collectively the "Best Purpose Group") amounted to HK\$182,587,000 (2010: HK\$16,294,000). The Group has discontinued the recognition of its share of losses of the Best Purpose Group because the share of losses of the Best Purpose Group exceeded the Group's investments in the associates. The amounts of the Group's unrecognised share of losses of the Best Purpose Group for the current year and the cumulative losses were approximately HK\$26,286,000 (2010: Nil) and HK\$26,286,000 (2010: Nil), respectively.

Loans receivable as at 31 March 2011 represented receivables arising from the money lending business of the Group and bore interest at rates ranging from 1.33% to 10% per annum. The granting of these loans had been approved and monitored by the Company's executive directors in charge of the Group's money lending operations. Overdue balances were reviewed regularly by senior management.

The movements in the provision for impairment of loans receivable are as follows:

18. LOANS RECEIVABLE (continued)

Receivables that were neither past due nor impaired relate to a number of borrowers for whom there was no recent history of default. Based on past experience, the executive directors of the Company in charge of the Group's money lending operations were of the opinion that no provision for impairment was necessary in respect of these balances as there had not been a significant change in credit quality and the balances were still considered fully recoverable. The Group did not hold any collateral or other credit enhancements over these balances, except for a loan receivable as at 31 March 2011 amounting to HK\$6,000,000, which was secured by the pledge of collateral.

On 16 February 2008, an indirect wholly-owned subsidiary of the Company (the "Subscriber") entered into a conditional subscription agreement (the "Subscription Agreement") with Hang Fa Lau Holdings Limited ("Hang Fa Lau"), a private company incorporated in Hong Kong with limited liability, for the subscription of a 2% convertible bond due 2011 with an aggregate principal amount of HK\$18 million issued by Hang Fa Lau (the "Convertible Bond"), which will entitle the holder thereof to convert the principal amount outstanding into new fully paid ordinary shares of Hang Fa Lau (the "Conversion Shares") at the then effective conversion price. The Convertible Bond is unsecured, bears interest at a rate of 2% per annum and will mature in three years from the date of issue of the Convertible Bond (the "Maturity Date"). The initial conversion price is HK\$1,800 per Conversion Share. The Convertible Bond does not contain any provisions for anti-dilution adjustments but provides that Hang Fa Lau may not create or issue any class of share capital, without the written approval of holder(s) of 51% of the aggregate principal amount of the Convertible Bond then outstanding.

31 March 2011

19. CONVERTIBLE BOND (continued)

The holder of the Convertible Bond has the right to convert the whole or any part of the outstanding principal amount of the Convertible Bond into the Conversion Shares at the then prevailing conversion price at any time on or after the issue of the Convertible Bond up to the close of business of the Maturity Date. Upon full conversion of the entire principal amount of the Convertible Bond by the Group at the initial conversion price of HK\$1,800 per Conversion Share, the Group would be interested in 50% of the enlarged issued share capital of Hang Fa Lau. On early redemption of the Convertible Bond, the interest in issued share capital of Hang Fa Lau will be decreased proportionally.

Unless previously converted, redeemed or cancelled in accordance with the terms of the Convertible Bond, Hang Fa Lau will redeem the Convertible Bond on the Maturity Date at 124% of the principal amount of the Convertible Bond then outstanding. Hang Fa Lau may at any time on or before the Maturity Date redeem the whole or any part of the outstanding principal amount of the Convertible Bond at the following rates:

- (i) if redemption is made on or before the first anniversary date from the issue date of the Convertible Bond, at 108% of the principal amount of the Convertible Bond to be redeemed:
- (ii) if redemption is made on or before the second anniversary date from the issue date of the Convertible Bond but after the first anniversary date from the issue date of the Convertible Bond, at 116% of the principal amount of the Convertible Bond to be redeemed; and
- (iii) if redemption is made on or before the third anniversary date from the issue date of the Convertible Bond but after the second anniversary date from the issue date of the Convertible Bond, at 124% of the principal amount of the Convertible Bond to be redeemed.

31 March 2011

19. CONVERTIBLE BOND (continued)

During the years ended 31 March 2009 and 2010, Hang Fa Lau served a notice to the Group to early redeem part of the Convertible Bond with an aggregate principal amount of HK\$15,000,000 and HK\$450,000, respectively. The redemption was made at 100% (instead of 108% and 124%, respectively, under the original terms of the Convertible Bond) of the principal amount to be redeemed. During the year ended 31 March 2011, Hang Fa Lau fully redeemed the remaining principal amount of the Convertible Bond of HK\$2,550,000 by way of loan advance by the Group in the same amount. The redemption was made at 100% (instead of 124% under the original terms of the Convertible Bond) of the principal amount to be redeemed. The Group has agreed to waive the penalty to be received from Hang Fa Lau as a result of the above redemptions with a view to maintaining a good co-operative relationship with Hang Fa Lau.

Pursuant to the terms of the Subscription Agreement, so long as any Convertible Bond remains outstanding and registered in the name of the Subscriber, the Subscriber shall have the rights to appoint up to two directors to the board of Hang Fa Lau and to remove or substitute any of them by giving written notice to Hang Fa Lau.

The fair values of the Convertible Bond's option derivatives had been determined using the trinomial model.

The effective interest rate of the loan portion of the Convertible Bond as at 31 March 2010 was 11%.

On the same date of entering into the Subscription Agreement, an indirect wholly-owned subsidiary of the Company also entered into a loan agreement with Hang Fa Lau to make available to Hang Fa Lau an unsecured revolving loan facility of up to HK\$25 million, subject to and upon the terms and conditions contained in the loan agreement (the "Revolving Loan Facility"). The revolving loan would bear interest at 5% over the prime or best lending rate for Hong Kong dollar loans as quoted by The Hongkong and Shanghai Banking Corporation Limited from time to time and is available from 16 February 2009 to the earlier of 15 February 2011 and the date on which the Revolving Loan Facility is cancelled or terminated under the provisions of the loan agreement. During the year, none of the Revolving Loan Facility was utilised (2010: Nil) and the Revolving Loan Facility expired on 15 February 2011.

The above listed equity investments and convertible notes classified as financial assets at fair value through profit or loss at 31 March 2011 and 2010 were classified as held for trading.

The fair values of the convertible notes classified as financial assets at fair value through profit or loss have been estimated by independent professionally qualified valuers using valuation techniques based on the quoted market prices of the underlying listed securities. The fair value of the unlisted investment has been estimated based on the observable market prices or rates in comparable market transactions.

20. INVESTMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS (continued)

At the end of the reporting period, the Group's investments in listed equity securities with an aggregate carrying amount at the end of the reporting period of approximately HK\$636,488,000 (2010: HK\$669,012,000) were pledged to certain financial institutions to secure certain margin financing facilities granted to the Group (note 30).

At 31 March 2011 and 2010, the carrying amount of the Group's shareholding in the following listed equity security exceeded 10% of the total assets of the Group.

Notes:

(a) As further explained in notes 2.2 and 35 to the financial statements, due to the adoption of HK Interpretation 5 in the current year, term loans of the Group with an aggregate carrying amount of HK\$66,244,000 (2010: HK\$71,987,000) containing a repayment on demand clause have been classified in total as current liabilities. Accordingly, a portion of the bank loans due for repayment after one year with an aggregate carrying amount of HK\$62,275,000 (2010: HK\$68,424,000) has been reclassified under current liabilities. Ignoring the effect of any repayment on demand clause and based on the maturity terms of the loans, the loans are repayable:

23. CONVERTIBLE NOTE

On 12 October 2009, the Group issued a zero coupon convertible note due 2012 in the principal amount of HK\$90 million (the "Note") to an independent third party (the "Noteholder"). The Note is unsecured, non-interest-bearing and will mature in 2012. The Note is convertible at the option of the Noteholder into the Company's ordinary shares at a conversion price of HK\$0.76 per share, subject to adjustments, in full or part in an integral multiple of HK\$1 million at any time from the date of issue up to the maturity date of the Note. The Group has the right to early redeem the Note in full or part in an integral multiple of HK\$1 million at any time from the date of issue up to the maturity date of the Note. To the extent not previously redeemed or converted, the Group shall, on the maturity date, redeem at 100% of the outstanding principal amount of the Note.

The Note was, upon initial recognition, designated by the Group as a financial liability at fair value through profit or loss as the Note contains embedded derivatives. As at 31 March 2010, the fair value of the Note was HK\$80,712,000. The fair value of the Note had been estimated by independent professionally qualified valuers using a valuation technique based on the quoted market price of the Company's listed ordinary shares. A fair value gain of HK\$11,595,000 was recognised in the income statement for the year ended 31 March 2010.

On 22 June 2010, the Group fully redeemed the Note in the principal amount of HK\$90 million and recognised a loss on redemption of HK\$9,288,000 in the income statement during the year.

31 March 2011

25. SHARE CAPITAL (continued)

Notes: (continued)

(b) During the year ended 31 March 2008, a bonus issue of warrants (the "Warrants") was made in the proportion of one Warrant for every five shares held by members of the Company on the register of members of the Company on 20 December 2007, resulting in 355,333,583 Warrants being issued. Each Warrant originally entitled the holder thereof to subscribe for one ordinary share of the Company of HK\$0.10 at an initial subscription price of HK\$0.60, payable in cash and subject to adjustment, and the Warrant would be exercisable at any time between the date of issue of the Warrants and the day immediately preceding the date which is 18 months after the date of issue.

Pursuant to the terms and conditions of the instrument creating the Warrants, the subscription price and rights of the outstanding Warrants of the Company were adjusted as a result of a capital reorganisation of the Company which became effective on 28 November 2008. The subscription price of the outstanding Warrants of the Company was adjusted from HK\$0.60 per share to HK\$6.00 per consolidated share and the subscription rights attached to each Warrant were adjusted from the rights to subscribe for one ordinary share of the Company to the rights to subscribe for 0.1 consolidated share.

During the year ended 31 March 2010, 19,540 Warrants were exercised for 1,954 shares of HK\$0.10 each at a price of HK\$6.00 per share. As at 31 March 2010, the Company had no outstanding Warrants as the Warrants expired on 30 June 2009.

(c) During the year ended 31 March 2010, the subscription rights attaching to 21,300,000 share options were exercised at the subscription price of HK\$0.23 per share, resulting in the issue of 21,300,000 ordinary shares of HK\$0.10 each for a total cash consideration, before expenses, of approximately HK\$4,920,000.

 - (i) On 3 June 2010, the Company allotted and issued a total of 400,000,000 ordinary shares of HK\$0.10 each for cash at a price of HK\$0.250 per share. Further details of the placing are set out in the Company's announcement dated 9 April 2010.
 - (ii) On 2 August 2010, the Company allotted and issued a total of 182,006,498 ordinary shares of HK\$0.10 each for cash at a price of HK\$0.112 per share. Further details of the placing are set out in the Company's announcement dated 27 July 2010.
 - (iii) On 19 October 2010, the Company allotted and issued a total of 316,607,798 ordinary shares of HK\$0.10 each for cash at a price of HK\$0.102 per share. Further details of the placing are set out in the Company's announcement dated 5 October 2010.
- (e) During the year ended 31 March 2011, the following share options were granted by the Company and were exercised:
 - (i) On 27 April 2010, subscription rights attaching to 82,730,000 share options were granted and exercised at the subscription price of HK\$0.2990 per share (note 26), resulting in the issuance of 82,730,000 shares of HK\$0.10 each for a total cash consideration, before expenses, of approximately HK\$24,736,000.
 - (ii) On 9 August 2010, subscription rights attaching to 91,000,000 share options were granted and exercised at the subscription price of HK\$0.1172 per share (note 26), resulting in the issuance of 91,000,000 shares of HK\$0.10 each for a total cash consideration, before expenses, of approximately HK\$10,665,000.

31 March 2011

25. SHARE CAPITAL (continued)

Notes: (continued)

- (f) The Company effected a capital reorganisation on 17 February 2011 which involved: (i) a share consolidation of every 10 shares in the issued ordinary share capital of the Company of HK\$0.10 each into one consolidated share of HK\$1.00 each; (ii) a reduction in the nominal value of each consolidated share of the Company from HK\$1.00 to HK\$0.01 by the cancellation of HK\$0.99 of the paidup capital for each consolidated share; (iii) a transfer of the credit arising from the capital reduction of approximately HK\$188,065,000 to the Company's contributed surplus account; and (iv) a sub-division of every authorised but unissued ordinary share of the Company of HK\$0.10 into 10 shares of HK\$0.01 each. Further details of the capital reorganisation are also set out in the Company's circular dated 24 January 2011.
- (g) A rights issue of one rights share for every two existing shares held by members on the register of members on 2 March 2011 was made, at an issue price of HK\$0.50 per rights share, resulting in the issuance of 94,982,339 shares of HK\$0.01 each for a total cash consideration, before expenses, of approximately HK\$47,491,000.

26. SHARE OPTION SCHEMES

The Company adopted a share option scheme on 10 October 1996, which was subsequently amended on 30 September 1997, for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations (the "Old Share Option Scheme"). The provisions of the Old Share Option Scheme did not comply with the current requirements of Chapter 17 of the Listing Rules. Accordingly, pursuant to an ordinary resolution passed at a special general meeting of the Company held on 28 September 2004, a new share option scheme (the "New Share Option Scheme") which complies with Chapter 17 of the Listing Rules was adopted to replace the Old Share Option Scheme and the Old Share Option Scheme was terminated with immediate effect.

Eligible participants of the New Share Option Scheme include the Company's directors, including the independent non-executive directors, and other employees of the Group and of the investee entities and any consultant, advisor or agent engaged by any member of the Group or any investee entity. The New Share Option Scheme became effective on 28 September 2004 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

31 March 2011

26. SHARE OPTION SCHEMES (continued)

The maximum number of unexercised share options currently permitted to be granted under the New Share Option Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the New Share Option Scheme within any 12-month period, is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of the grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

Under the New Share Option Scheme, the offer of a grant of share options may be accepted within 15 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. There is no provision as to the minimum period for which the share options must be held or the performance targets which must be achieved before the share options can be exercised. The exercise period of the share options granted is determinable by the directors and commences on the date of grant and ends on a date which is not later than 10 years from the date of offer of the share options or the expiry date of the New Share Option Scheme, if earlier.

The exercise price of share options is determinable by the directors, but may not be less than the highest of (i) The Stock Exchange of Hong Kong Limited (the "Stock Exchange") closing price of the Company's shares on the date of offer of the share options; (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of offer; and (iii) the nominal value of the Company's shares. Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

- * The vesting period of the share options is from the date of grant until the commencement of the exercise period.
- ** The exercise price and the number of share options are subject to adjustment in the case of rights or bonus issues, or other similar changes in the Company's share capital.
- The price of the Company's shares disclosed as at the date of grant of the share options is the Stock Exchange closing price on the trading day immediately prior to the date of grant of the options. The price of the Company's shares disclosed immediately before the exercise date of the share options is the weighted average of the Stock Exchange closing prices immediately before the dates on which the options were exercised over all of the exercises of options within the disclosure line.

The fair value of the share options granted during the year was HK\$5,696,000 (2010: HK\$1,502,000), of which the Group recognised equity-settled share option expenses of HK\$5,696,000 (2010: HK\$1,502,000) during the year ended 31 March 2011.

31 March 2011

26. SHARE OPTION SCHEMES (continued)

The fair value of equity-settled share option granted during the year was estimated as at the date of grant, using the binomial option pricing model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used for the years ended 31 March 2011 and 2010:

	2011	2010
Expected volatility (%)	95.56	114.91
Historical volatility (%)	95.56	114.91
Risk-free interest rate (%)	2.54	2.76
Option life (year)	10	10
Weighted average share price (HK\$)	0.20	0.21
Exercise multiple	1.2	1.5

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may not necessarily be the actual outcome.

No other feature of the options granted was incorporated into the measurement of fair value.

At the date of approval of these financial statements, the Company had no share option outstanding under the New Share Option Scheme.

28. NOTES TO THE CONSOLIDATED STATEMENT OF CASH FLOWS (continued)

(a) Disposal of subsidiaries (continued)

* On 8 June 2009, the Group entered into a conditional sale and purchase agreement with Welltodo Investments Limited, a wholly-owned subsidiary of Willie International Holdings Limited ("Willie"), a company incorporated and listed in Hong Kong, to dispose of a 50% of the issued share capital of Best Purpose Limited ("Best Purpose"), an indirect wholly-owned subsidiary of the Company incorporated in the British Virgin Islands on 12 May 2009, resulting in a loss of HK\$26,408,000. The consideration was satisfied by a 2% convertible note issued by Willie. The convertible note was valued on the completion date of the disposal by Asset Appraisal Limited, independent professionally qualified valuers, at HK\$161,339,000. Best Purpose is primarily involved in investment holding. Double Smart Finance Limited, a wholly-owned subsidiary of Best Purpose, is primarily involved in the money lending business. Further details of the above transactions are contained in the Company's circular dated 17 July 2009. The disposal was completed on 7 August 2009 and Best Purpose became an associate of the Group thereafter.

An analysis of the net cash flows of cash and cash equivalents from the disposal of subsidiaries is as follows:

	2011	2010
	HK\$'000	HK\$'000
Cash consideration	1,500	2,000
Cash and bank balances disposed of	_	(15,384)
Net inflow/(outflow) of cash and cash equivalents in respect of the		
disposal of subsidiaries	1,500	(13,384)

The subsidiary disposed of during the year ended 31 March 2011 contributed none of the Group's consolidated revenue and contributed a loss for the year of HK\$124,000 to the Group's consolidated loss for the year.

The subsidiaries disposed of during the year ended 31 March 2010 contributed HK\$2,559,000 to the Group's consolidated revenue and contributed a profit for the year of HK\$2,552,000 to the Group's consolidated loss for that year.

28. NOTES TO THE CONSOLIDATED STATEMENT OF CASH FLOWS (continued)

(b) Major non-cash transactions

- (i) During the year, the Group entered into a sale and purchase agreement with Hennabun to dispose of its 19.75% equity interest in Best Purpose for a consideration of HK\$69,000,000. The consideration was satisfied by the issue of 11,500,000 new ordinary shares at the issue price of HK\$6 per share by Hennabun. Further details are set out in note 17 to the financial statements.
- (ii) As detailed in note 19 to the financial statements, the Convertible Bond in the principal amount of HK\$2,550,000 was redeemed by way of loan advance by the Group in the same amount.

29. CONTINGENT LIABILITIES

At the end of the reporting period, contingent liabilities not provided for in the financial statements were as follows:

	Co	Company		
	2011	2010		
	HK\$'000	HK\$'000		
Guarantees given to banks in connection				
with facilities granted to subsidiaries	61,500	65,500		

As at 31 March 2011, the banking facilities granted to subsidiaries subject to guarantees given to banks by the Company were utilised to the extent of approximately HK\$57,717,000 (2010: HK\$62,405,000).

30. PLEDGE OF ASSETS

The Group's investments in listed equity securities with an aggregate carrying amount at the end of the reporting period of approximately HK\$636,488,000 (2010: HK\$669,012,000) were pledged to certain financial institutions to secure certain margin financing facilities granted to the Group which were not utilised as at 31 March 2011 and 2010 (note 20).

Details of the Group's interest-bearing bank borrowings, which are secured by the assets of the Group (note 14), are included in note 22 to the financial statements.

31 March 2011

31. COMMITMENTS

Operating lease arrangements

(a) As lessor

The Group leases certain of its investment properties (note 14) under operating lease arrangements, with leases negotiated for terms ranging from one to two years.

At the end of the reporting period, the Group had total future minimum lease receivables under non-cancellable operating leases with its tenants falling due as follows:

	G	Group

34. FAIR VALUE AND FAIR VALUE HIERARCHY

At the end of the reporting period, the carrying amounts of the Group's and the Company's financial assets and financial liabilities approximated to their fair values.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

Loans receivable, financial assets included in prepayments, deposits and other receivables, an amount due from/to an associate, cash and bank balances, other payables and accruals and interest-bearing bank borrowings approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair value of the convertible note is estimated using an equivalent market interest rate for a similar convertible note.

The fair values of listed equity investments are based on quoted market prices. The fair value of investment in equity instruments that do not have a quoted market price in an active market that are linked to and must be settled by delivery of such an unquoted equity instrument is reliably measurable if (a) the variability in the range of reasonable fair value estimates is not significant for that instrument or (b) the probabilities of the various estimates within the range can be reasonably assessed and used in estimating fair value.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: fair values measured based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: fair values measured based on valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly
- Level 3: fair values measured based on valuation techniques for which any inputs which have a significant effect on the recorded fair value are not based on observable market data (unobservable inputs)

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise bank borrowings and cash and bank balances. The main purpose of these financial instruments is to finance the Group's operations. The Group has various other financial assets and liabilities such as loans receivable, deposits and other receivables, other payables and accruals, a convertible bond and investments at fair value through profit or loss, which mainly arise directly from its operations or for investment purposes.

The main risks arising from the Group's financial instruments are interest rate risk, credit risk, liquidity risk and equity price risk as further detailed below. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's interest-bearing financial assets and liabilities. Interest-bearing financial assets are mainly loans receivable primarily at floating interest rates which are mostly short term in nature whereas financial liabilities are mainly bank borrowings at floating interest rates. The Group's policy is to obtain the most favourable interest rate available.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's loss before tax (through the impact on floating rate loans receivable and borrowings).

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Credit risk

The credit risk of the Group's financial assets, which comprise loans receivable, a convertible bond, financial assets at fair value through profit or loss, deposits and other receivables, and bank balances, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments. The Group's loans receivable arise from the ordinary course of business of the Group and are closely monitored by the executive directors in charge of the Group's money lending operations on an ongoing basis. The Company is also exposed to credit risk through the granting of financial guarantee, further details of which are disclosed in note 29 to the financial statements.

Further quantitative data in respect of the Group's exposure to credit risk arising from loans receivable is disclosed in note 18 to the financial statements.

Liquidity risk

The Group's liquidity risk is managed by senior management on an ongoing basis by the raising of loans and/or equity fundings to meet expected cash demands. The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants to ensure that it maintains sufficient reserves of cash and bank balances to meet its liquidity requirements in the short and long term.

Liquidity risk (continued)

Note:

Included in the above interest-bearing bank borrowings are term loans with an aggregate carrying amount of HK\$66,244,000 (2010: HK\$71,987,000). The loan agreements contain a repayment on demand clause giving the bank the unconditional right to call in the loans at any time and therefore, for the purpose of the above maturity profile, the total amount is classified as "repayable on demand".

Notwithstanding the above clause, the directors do not believe that the loans will be called in their entirety within 12 months, and they consider that the loans will be repaid in accordance with the maturity dates as set out in the loan agreements. This evaluation was made considering: the financial position of the Group at the date of approval of these financial statements; the Group's compliance with the loan covenants; the lack of events of default; and the fact that the Group has made all previously scheduled repayment on time.

In accordance with the terms of the loans which contain a repayment on demand clause, the maturity profile of those loans as at the end of the reporting period, based on the contractual undiscounted payment and ignoring the effect of any repayment on demand clause, is as follows:

		3 to	Group

Equity price risk

Equity price risk is the risk that the fair values of equity securities decrease as a result of changes in the levels of equity indices and the value of individual securities. The Group is exposed to equity price risk arising from individual equity investments classified as trading equity investments (note 20) as at 31 March 2011. The Group's listed investments are listed on the Hong Kong and Singapore stock exchanges and are valued at quoted market prices at the end of the reporting period.

The market equity indices for the following stock exchanges, at the close of business of the nearest trading day in the year to the end of the reporting period, and their respective highest and lowest points during the year were as follows:

		Highest/lowest		Highest/lowest
		point during		point during
	31 March	the year ended	31 March	the year ended

Singapore – Straits Times Index	3,106	3,314/2,648	2,887	2,947/1,689

The following table demonstrates the sensitivity to every 10% change in the fair values of the equity investments, with all other variables held constant and before any impact on tax, based on their carrying amounts at the end of the reporting period.

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business operations and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2011 and 2010.

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Capital management (continued)

The Group monitors capital using a gearing ratio, which is total borrowings divided by total assets. Total borrowings include interest-bearing bank borrowings and the convertible note classified as a financial liability at fair value through profit or loss. The Group's policy is to maintain the gearing ratio at a reasonable level. The gearing ratios at the end of the reporting periods were as follows:

	Group		
	2011 2010		
	HK\$'000	HK\$'000	
Total borrowings	66,244	152,699	
Total assets	1,049,257	1,288,577	
Gearing ratio	6%	12%	

36. COMPARATIVE AMOUNTS

As further explained in note 2.2 to the financial statements, due to the adoption of new and revised HKFRSs during the current year, the accounting treatment and presentation of certain items and balances in the financial statements have been revised to comply with the new requirements. Accordingly, certain comparative amounts have been reclassified and restated to conform with the current year's presentation and accounting treatment, and a third statement of financial position as at I April 2009 has been presented.

31 March 2011

37. EVENTS AFTER THE REPORTING PERIOD

On 4 May 2011, the Group entered into a conditional sale and purchase agreement (the "S&P Agreement") with Dragonite International Limited ("Dragonite"), a company incorporated in Hong Kong to dispose of the entire issued capital of a wholly-owned subsidiary, Central Town Limited, together with the assignment of the benefit of a shareholder loan to Dragonite, for an aggregate cash consideration of HK\$117,000,000, resulting in a loss on disposal, after transaction cost, of approximately HK\$5,900,000. Central Town Limited and its subsidiaries are primarily involved in the holding of a property. This transaction is subject to approval by shareholders at the forth coming special general meeting on 28 June 2011.

According to the terms of the S&P Agreement, upon the completion of the S&P Agreement, the Group and Dragonite shall also enter into an option agreement (the "Option Agreement") whereby (i) the Group shall grant to Dragonite an option to purchase and; (ii) Dragonite shall grant to the Group an option to sell, for a period of five years, the entire issued capital of the Company's wholly-owned subsidiary, Apex Corporate Investments Limited, together with the assignment of a shareholder loan (if any) in accordance with the terms of the Option Agreement. Further details are set out in the Company's circular dated 10 June 2011.

38. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the board of directors on 22 June 2011.
