# NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT <br> (Expressed in Renminbi unless otherwise indicated) 

## 1. BASIS OF PREPARATION

This unaudited interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), including compliance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting" issued by the International Accounting Standards Board ("IASB"). It was authorised for issue on 27 August 2013.

The unaudited interim financial report has been prepared in accordance with the same accounting policies adopted in the 2012 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2013 annual financial statements. Details of these changes in accounting policies are set out in note 2 .

The preparation of an unaudited interim financial report in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This unaudited interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2012 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs").

The financial information relating to the financial year ended 31 December 2012 that is included in this unaudited interim financial report as being previously reported information does not constitute the Company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2012 are available from the Company's principal place of business in Hong Kong. The auditors have expressed an unqualified opinion on those financial statements in their report dated 25 March 2013.

The IASB has issued a number of new IFRSs and amendments to IFRSs that are first effective for the current accounting period of the Group and the Company. Of these, the following developments are relevant to the Group's financial statements:

- Amendments to IAS 1, Presentation of financial statements - Presentation of items of other comprehensive income
- IFRS 10, Consolidated financial statements
- IFRS 11, Joint arrangements
- IFRS 12, Disclosure of interests in other entities
- IFRS 13, Fair value measurement
- IAS 19 (Revised 2011), Employee benefits
- Annual Improvements to IFRSs 2009-2011 Cycle
- Amendments to IFRS 7 - Disclosures - Offsetting financial assets and financial liabilities

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

## Amendments to IAS 1, Presentation of financial statements - Presentation of items of other comprehensive income

The amendments to IAS 1 require entities to present the items of other comprehensive income that would be reclassified to profit or loss in the future if certain conditions are met separately from those that would never be reclassified to profit or loss. The Group's presentation of other comprehensive income in these financial statements has been modified accordingly.

## IFRS 13, Fair value measurement

IFRS 13 replaces existing guidance in individual IFRSs with a single source of fair value measurement guidance. IFRS 13 also contains extensive disclosure requirements about fair value measurements for both financial instruments and non-financial instruments. The adoption of IFRS 13 does not have any material impact on the fair value measurements of the Group's assets and liabilities.

## Annual Improvements to IFRSs 2009-2011 Cycle

This cycle of annual improvements contains amendments to five standards with consequential amendments to other standards and interpretations. Among them, IAS 34 has been amended to clarify that total assets for a particular reportable segment are required to be disclosed only if the amounts are regularly provided to the chief operating decision maker ("CODM") and only if there has been a material change in the total assets for that segment from the amount disclosed in the last annual financial statements. The amendment also requires the disclosure of segment liabilities if the amounts are regularly provided to the CODM and there has been a material change in the amounts compared with the last annual financial statements. In respect of this amendment, the Group has continued to disclose segment assets and liabilities in note 3 .

## 3. SEGMENT REPORTING

The Group manages its businesses by divisions, which are mainly organised by business lines and geography. In a manner consistent with the way in which information is reported internally to the Board for the purposes of resource allocation and performance assessment, the Group has identified two reportable segments. No operating segments have been aggregated to form the following reportable segments.

- Software business: Provision of integrated business software solutions in the People's Republic of China (the "PRC") and Hong Kong.
- Trading and investment business: Trading of securities listed on the Stock Exchange.

## (a) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Board monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Segment assets include all tangible, intangible assets and current assets with the exception of deferred tax assets and other corporate assets. Segment liabilities include trade creditors and accruals attributable to the sales activities of the individual segments and borrowings managed directly by the segments.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments, or which otherwise arise from the depreciation or amortisation of assets attributable to those segments.

The measure used for reporting segment profit/(loss) is "adjusted profit/(loss) before taxation". To arrive at adjusted profit/(loss) before taxation, the Group's (loss)/earnings are adjusted for items not specifically attributed to individual segments, such as directors' and auditors' remuneration and other head office or corporate administration costs.

Information regarding the Group's reportable segments as provided to the Board for the purpose of resources allocation and assessment of segment performance for the period is set out below.
