The principal business activities of the Group include magazine publishing, distribution of magazines, digital business, and provision of magazine content and “Internet+” community health management, international hospitals, elderly care, medical cosmetology and anti-aging business.

As mentioned in the annual report 2015 of the Company for the 18 months ended 31 December 2015, the media segment has been pressured with uncertain economic conditions and competitive digital markets.

With the rapid growth in digital media and social networking sites, local print media has become sunset industry. Alerted by the market challenges and trim down arrangements by the peers, the Directors have been constantly reviewing the media segment and market demand aiming to strive for the best interests for the Company and its shareholders. In view of the challenging business environment, the Directors consider that there is an imminent need to make further streamlining and restructuring arrangements to

its media asset segment. Due to market model transformation, further deploying resources for the print media has become unappealing and the Company has considered different options, including introducing new partners to the media segment companies and introducing new shareholder(s) to the Disposal Company. The Directors considered that the Disposal reduces the loss-making assets of its media segment and is in the interests of the Company and its shareholders as a whole and the terms of the Sale and Purchase Agreement are fair and reasonable.
