

[For Immediate Release]

China Everbright Greentech Makes Trading Debut on Main Board of HKEX

Hong Kong, 8 May 2017 - **China Everbright Greentech Limited** (“China Everbright Greentech” or the “Company”, together with its subsidiaries, collectively the “Group”), one of the leading specialty environmental protection service providers in the PRC, commenced trading of its shares on the Main Board of the Stock Exchange of Hong Kong Limited (“HKEX”) today.

A number of distinguished guests attended the listing ceremony of China Everbright Greentech, including Mr. Tang Shuangning, Chairman of China Everbright Group Ltd., Mr. Charles Li, Chief Executive of Hong Kong Exchanges and Clearing, management of China Everbright Group, Everbright International and other major companies under China Everbright Group, representatives of the Asian Development Bank, CIC Capital Corporation and other cornerstone investors, as well as representatives of the intermediaries, etc., together with the Company's management to witness the historic moment of China Everbright Greentech. Mr. Tang Shuangning hit the gong at the listing ceremony to celebrate the Company's official listing.

Mr. Cai Yunge, Deputy General Manager of China Everbright Group Ltd., Vice-chairman and General Manager of China Everbright Holdings Company Limited, and Chairman of China Everbright International Limited, stated during the ceremony, “The successful spin-off of China Everbright Greentech from China Everbright International Limited (“Everbright International”) turns a new chapter for the Group. It is the second enterprise spun off from Everbright International and entering the global capital market, with the first being the Singapore mainboard-listed China Everbright Water Limited. As a flagship company in the industrial investment sector of China Everbright Group, Everbright International has committed to the green environmental protection market for over a decade, to support China’s efforts of creating a sound ecological environment. We remain true to our initial conviction, dare to explore, integrate our vision with the Beautiful China Initiative, and have successfully developed Everbright International into a leading player in the environmental protection sector with revenue having surpassed RMB10 billion and six major business segments, namely envirotech, environmental energy, environmental water, greentech, equipment manufacturing and international business. Now, China Everbright Greentech will have a clean slate and a fresh start. It will proactively follow the latest trends of the world’s ecological and environmental protection industries, seize the historic opportunities brought by China’s accelerated ecological conservation progress and the Belt and Road Initiative, further enhance its technology capabilities, and boost market shares, in order to leverage green technologies to benefit the society and achieve steady development to reward our shareholders.”

Mr. Chen Xiaoping, CEO of China Everbright International Limited and Chairman of China

Everbright Greentech Limited said, “China Everbright Greentech went to public as widely anticipated. We would wish to express our sincere gratitude towards our investors for their trust and support. The spin-off listing will solidify our stance in the environmental protection service industry in China. With more abundant funds to help unleash our unique competences and development potentials, we will push forward rapid development for the next cycle, as well as building full complementarities and sharing resources with Everbright International’s existing businesses. This is a thrilling moment, and we are poised for the future development growth. “

Mr. Qian Xiaodong, Executive Director and Chief Executive Officer of China Everbright Greentech Limited added, “China Everbright Greentech's official debut at Hong Kong's capital market relies on the recognitions and support from investors, China Everbright Group, Everbright International, all staff of the Company as well as people from all circles of life. Going forward, we will capture favorable policies to elevate operating efficiency, enhance technology R&D capabilities. As such, we can realise the synergies among different business segments to further expand our market share and achieve a more diversified business portfolio to enhance profitability. We will continue to be devoted to green technologies to reward the society and long-term, stable returns to our investors.

During the listing ceremony, Mr. Qian, on behalf of the Company, donated HK\$1,000,000 to the Hong Kong Community Chest, as a token of the Company’s commitment in fulfilling corporate social responsibility.

###

About China Everbright Greentech Limited

China Everbright Greentech Limited (the "Company", together with its subsidiaries, collectively the "Group") is a specialty environmental protection service provider in the People's Republic of China ("China") with three business segments, namely biomass, hazardous waste treatment, and solar energy and wind power. As of December 31, 2016, the Group's aggregate biomass power generation designed capacity ranked the fourth in China, and aggregate hazardous waste disposal designed capacity ranked the third in China and the first in Eastern China. As of December 31, 2016, the Group is the only company to employ an integrated business model of biomass and waste-to-energy in China. The Group's businesses span across 9 provinces in China as well as the German market.

The Group's controlling shareholder, China Everbright International Limited ("CEIL", a listed company on the main board of the Hong Kong Stock Exchange, Stock Code: 0257.HK) is a leader in China's environmental protection industry, whereas China Everbright Group, the parent company of CEIL, is a conglomerate among the Fortune Global 500.

Leveraging its unique biomass business model, strategic layout and robust supply networks, strong pipeline of projects, and high level of technologies and management capabilities, China Everbright Greentech is well positioned in China's environmental protection service industry. Riding on the favorable industry trend, the Group will embrace the tremendous growth opportunity in the environmental protection and new energy industry to enhance business development and achieve sustainable development.
