Chairman's Statement & Management Discussion and Analysis

Business Review

Overall Performance

For the year ended 31st December 2023, the revenue of the Group decreased by approximately 0.4% to approximately HK\$142.3 million (2022: approximately HK\$142.8 million). The decrease in revenue of approximately HK\$0.5 million in year 2023 was all contributed by the decrease in revenue from the sugar business segment.

The gross profit for the year ended 31st December 2023 increased by approximately HK\$0.8 million to approximately HK\$21.6 million (2022: approximately HK\$20.8 million). The gross profit percentage increased by approximately 0.6% to approximately 15.2% (2022: approximately 14.6%). As further elaborated below, the slight increase in gross profit and gross profit percentage was being that the magnitude of the increase in average selling prices just barely covered the increase in production costs.

The loss before taxation increased by approximately HK\$12.8 million to approximately HK\$58.3 million (2022: approximately HK\$45.5 million).

As further elaborated below, the approximately HK\$12.8 million increase in loss before taxation was mainly due to (i) the approximately HK\$4.6 million increase in loss of change in fair value of biological assets mainly due to the decrease in area under sugarcane of approximately 600 hectares during the year as those low yielding sugarcane area needed to be ploughed to rejuvenate the soil with nutrients; (ii) the approximately HK\$24.6 million increase in finance costs as a result of approximately HK\$24.6 million increase in foreign exchange loss arising on translating the results and financial position of the subsidiaries when their functional currencies depreciated during the year; but this negative impacts was partially offset by, (iii) the increase in gross profit of approximately HK\$0.8 million by reason of increase in gross profit margin through the increase in average selling prices of raw sugar and molasses; (iv) the increase in other net income of approximately HK\$0.3 million mainly by cause of the increase in sales of scrap metal and interest income; (v) a decrease in administrative expenses of approximately HK\$5.6 million mainly by virtue of the decrease in packaging costs involving local sales and decrease in export-related expenses when export sales declined during the year; and (vi) a decrease in other operating expenses of approximately HK\$9.7 million owing to the decrease of approximately HK\$10.0 million in write-down on inventory of spare parts for property, plant and equipment during the year.

Basic loss per share for the year was approximately HK1.88 cents (2022: approximately HK1.51 cents).

The directors do not recommend the payment of a dividend for the year ended 31st December 2023 (2022: nil).

Sugar Cane Growing and Sugar Manufacturing Business in Jamaica

Business review

The Joyful Right Limited is the holding company of Pan-Caribbean Sugar Company Limited (“**PCSC**”) which has operated the three sugar estates, namely Bernard Lodge Sugar Estate, Monymusk Sugar Estate and Frome Sugar Estate and two sugar factories, namely Monymusk Sugar Factory and Frome Sugar Factory in Jamaica since 15th August 2011, a 70% indirectly owned subsidiary of the Company, together called “Joyful Right Group”. Due to the severe business environment for the sugar cane growing and sugar manufacturing business in Jamaica, the Group has suspended certain agricultural and factory operations that are under serious loss since June 2016, which include two sugar estates of Bernard Lodge Sugar Estate and Monymusk Sugar Estate as well as one sugar factory of Monymusk Sugar Factory. Joyful Right Group resumed the operation of Monymusk Sugar Factory in year 2018 and suspended again the operation in year 2019 and continues to operate the Frome Sugar Estate and Frome Sugar Factory. The following analysis of sugar cane growing and sugar manufacturing business in Jamaica is based on Joyful Right Group.

Chairman's Statement & Management Discussion and Analysis

Overall Performance *(Continued)*

Sugar Cane Growing and Sugar Manufacturing Business in Jamaica *(Continued)*

Business review (Continued)

For the revenue, Joyful Right Group has recorded a very slight increase of approximately J\$0.5 million increase in revenue in Jamaican dollar but the revenue translated into HK dollars shown a decrease of approximately HK\$0.5 million owing to the depreciation of Jamaican dollar during the year. The revenue in year 2023 of approximately J\$2.8 billion (approximately HK\$142.3 million) compared with the revenue in year 2022 of approximately J\$2.8 billion (approximately HK\$142.8 million).

The slight increase revenue of approximately J\$0.5 million in Jamaican dollar was the combined result of (i) the approximately 27.7% and approximately 20.0% increase in average selling price of raw sugar and molasses respectively as well as (ii) the approximately 21.2% and approximately 20.1% decrease in sales volume of raw sugar and molasses respectively. Below is the separate analysis of each of the sales price and volume aspect.

In sales price aspect, the respective average selling price per tonne of raw sugar and molasses in year 2023 were approximately J\$214,900 (approximately HK\$10,900) and J\$28,200 (approximately HK\$1,400) as compared to year 2022 of approximately J\$168,300 (approximately HK\$8,600) and approximately J\$23,500 (approximately HK\$1,200). The approximately 27.7% and approximately 20.0% increase in average selling price of raw sugar and molasses respectively was due to the fall in world sugar output for the fourth consecutive year after unfavourable weather conditions negatively affected the sugar production in some of the key sugar producing countries and the world production still fall below global consumption and resulting in a tight global sugar balance and an upward pressure on prices and furthermore the increase of sales mix percentage of higher price 20kg small-pack sugar from approximately 32.5% of total sales for year 2022 to approximately 53.1% for year 2023.

In sales volume aspect, the approximately 21.2% and approximately 20.1% decrease in sales volume of raw sugar and molasses respectively was by virtue of the decrease in production volume. Joyful Right Group produced approximately 11,300 tonnes of raw sugar and approximately 11,000 tonnes of molasses for year 2023 by crushing input of sugar cane of approximately 189,000 tonnes compared with approximately 12,300 tonnes of raw sugar and approximately 13,900 tonnes of molasses for year 2022 by crushing input of sugar cane of approximately 240,700 tonnes. The approximately 1,000 tonnes (approximately 8.5%) and 2,900 tonnes (approximately 20.9%) respectively decrease in production volume of raw sugar and molasses respectively were caused by the decrease in sugar cane input of approximately 51,700 tonnes (approximately 21.5%). Such decrease in sugar cane input was because (i) the rising in input cost of labour cost, fertilizers and pesticides made the sugar cane farmers to shrank such farm inputs and consequently resulted in lower output quantity of sugar cane; (ii) the impact by the Covid-19 reduced the new cane planting activities on farmland in previous two years which have reduced the sugar cane output yield per hectare in current year; and (iii) the recovery of local economy post Covid-19 sucked out sugar cane cutting worker as a result of which the daily supply of sugar cane cutting workers in harvesting season reduced from 350 workers to 210 workers that significantly reduced the quantity of harvested sugar cane. This drop in sugar cane input had led to the sales volume of raw sugar and molasses to be decreased by approximately 21.2% and approximately 20.1% respectively but the approximately 27.7% and approximately 20.0% increase in the average price of raw sugar and molasses respectively had wholly neutralized the negative effect of the drop in sales volume and thus the overall total revenue could still slightly be increased by approximately J\$0.5 million during the year under review.

The table below shows geographical analysis of revenue of sugar and molasses.

	2023			2022		
	J\$'million	HK\$ 'million	% of Revenue	J\$' million	HK\$ 'million	% of Revenue
By region						
Jamaica	2,801.1	142.3	100.0	2,605.1	132.8	93.0
US	-	-	-	195.6	10.0	7.0
	2,801.1	142.3	100.0	2,800.7	142.8	100.00

Jamaica remains the principal market for Joyful Right Group. The domestic sales in Jamaica accounted for 100.0% (2022: approximately 93%) of total sales and the export to United States accounted for approximately 0.0% (2022: approximately 7.0%). The change in sales mix was mainly due to the effect of reduction in competition from the closure of more sugar mills in Jamaica (like Golden Grove Factory in 2019 and Appleton Estate Sugar Factory in 2020). This reduction in competition resulted in the decrease in supply that contributed to the rise in sales volume of the domestic sales in Jamaica. Furthermore, the average selling price of raw sugar in Jamaica for this year was still higher than that in international markets. As production output fell by, the raw sugar produced during the year was only sufficient to fulfill the demand of local market in Jamaica and there was no excess surplus for export to United States during the year under review.

In terms of gross trading results, the Joyful Right Group recorded a gross profit of approximately J\$425.1 million (approximately HK\$21.6 million) for year 2023 (2022: approximately J\$408.7 million (approximately HK\$20.8 million)). The increase in amount of gross profit of approximately J\$16.4 million (approximately HK\$0.8 million). The gross profit ratio is increased by approximately 0.6% to approximately 15.2% for year 2023 as compared with approximately 14.6% in year 2022. As average selling prices of raw sugar and molasses increased by approximately 27.7% and approximately 20.0% respectively were just barely sufficient to cover the increase in production costs of raw sugar and molasses by approximately 26.2% and by approximately 20.0% respectively, the gross profit percentage during the year as such result could only increase by 0.6% during the year 2023.

The average production cost per tonne of raw sugar and molasses in year 2023 were approximately J\$179,000 (approximately HK\$9,100) and J\$26,900 (approximately HK\$1,400) as compared to year 2022 of approximately J\$142,000 (approximately HK\$7,200) and approximately J\$22,400 (approximately HK\$1,100) respectively. This translated into an increase of approximately 26.2% and approximately 20.0% of average production cost per tonne of raw sugar and for molasses respectively. The production costs were mainly driven up (i) by approximately 26.1% increase in average cost per tonne of sugar cane from year 2022 of approximately J\$5,900 (approximately HK\$300) to year 2023 of approximately J\$7,500 (approximately HK\$380); and (ii) by the approximately 76.3% increase in maintenance costs from year 2022 of approximately J\$5,000 (approximately HK\$260) on per output tonne basis to year 2023 of approximately J\$16,000 (approximately HK\$810). The maintenance cost increased as the age of farming and factory machine increased. The farming machine like combine harvester, tractors, loaders and excavators and the factory machine like boilers and squeezers required extensive repairs in year 2023.

Business review (Continued)

In terms of net operation results, this segment recorded net loss of approximately HK\$57.9 million (2022: approximately HK\$40.7 million). The increase in net loss of approximately HK\$17.2 million was attributable to the (i) the approximately HK\$4.6 million increase in loss of change in fair value of biological assets mainly due to the decrease in area under sugarcane of approximately 600 hectares during the year as those low yielding sugarcane area needed to be ploughed to rejuvenate the soil with nutrients; (ii) the approximately HK\$29.2 million increase in foreign exchange loss arising on translating the results and financial position of the subsidiaries when the Jamaican dollar depreciated against Hong Kong Dollar during the year; but this negative impacts was partially offset by, (iii) the increase in gross profit of approximately HK\$0.8 million by reason of increase in gross profit margin through the increase in average selling prices of raw sugar and molasses; (iv) the increase in other net income of approximately HK\$0.3 million mainly by the increase in sale of scape metals of approximately HK\$0.3 million; (v) a decrease in administrative expenses of approximately HK\$5.8 million mainly by virtue of the decrease in packaging costs involving local sales and decrease in export-related expenses when export sales declined during the year; and (iv) a decrease in other operating expenses of approximately HK\$9.7 million owing to the decrease of approximately HK\$10.0 million in write-down on inventory of spare parts for property, plant and equipment during the year.

Ethanol Biofuel Business in Benin

Business review

Reference is made to the announcement of the Company dated 3rd March 2014 in relation to the impairment losses on ethanol biofuel business in Benin. Terms used in this announcement shall have the same meanings as those defined in the announcement dated 3rd March 2014 unless otherwise defined herein.

The ethanol operation in Benin is operated by Compagnie Beninoise De Bioenergie SA ("**CBB**"), a company incorporated under the Republic of Benin with limited liability and is a 90% indirectly owned subsidiary of the Company. The construction of ethanol plant of CBB continues to suspend during the year because Benin Government is still unable to execute the Leased Land provision in the Cooperation Agreement and Leased Land is still unavailable for CBB for cultivation of cassava and/or sugar cane to supply raw materials of its production of bioethanol. Construction works were still under suspension pending for appropriate alternate business plan. In current year, the Board considered that the likelihood to resume the construction in near future is still extremely remote as the Group still cannot figure out how to obtain sufficient raw materials under the situation Leased Land is not made available by the Benin Government. In light of the expected prolonged suspension of the construction of ethanol biofuel plant in the Republic of Benin, there is no sight of increase in the recoverable amount, which is the higher of value in use and fair value less costs of disposal during the year. As full provision of impairment loss has been made for the construction in progress, inventories and value-added tax recoverable, there is no additional impairment loss in year 2023.

In terms of net operation results, this segment recorded net operating profit of approximately HK\$1.0 million (2022: net operating loss of approximately HK1.2 million). The increase in operating profit of approximately HK\$2.2 million was mainly due the increase in foreign exchange translation gains of approximately HK\$2.2 million.

Overall Performance *(Continued)*

Supporting services to sweetener and ethanol business

Business review

The supporting service business segment remain inactive and did not record revenue in year 2023 and 2022. The business of the supporting service business segment was seriously hindered by proposed resolution in respect of the renewal of the continuing connected transactions in relation to the 2019-2021 supply agreements with customers and supplier was voted down by the independent shareholders at the extraordinary general meeting held on 31st May 2019. Therefore, the supporting service business segment cannot carry out any continuing connected transaction with its customers with connected parties. A subsidiary under the supporting service business segment, Zheng Cheng International Trade (Guangzhou) Limited (“**Zheng Cheng**”), which is a limited liability company (有限責任公司) incorporated under PRC law, had been wound up on 5th December 2022 because of its diminishing business prospects and to avoid the maintenance cost of retenting staff and an office in the PRC.

The operating profit of this segment (that after elimination of inter-segment profit, if any,) was approximately HK\$0.8 million (2022: the operating loss of approximately HK\$0.3 million). The increase in operating profit of approximately HK\$1.1 million was mainly due the increase in foreign exchange translation gains of approximately HK\$1.1 million.

Dividend

The Board does not recommend the payment of a dividend for the years ended 31st December 2023 and 2022.

Prospects

Sugar business segment

The global sugar supply for year 2024 is expected to remain steady even the forecasted production drops in Thailand and India in first quarter of year 2024 and the sugar deficit is expected to be covered by the possible increase in output from Brazil in second quarter of year 2024. The global sugar consumption is forecasted to ascend in year 2024. On that basis, the overall global supply of raw sugar and global sugar consumption remains stable in year 2024, accordingly, the raw sugar and molasse price will remain at a high level in year 2024. Locally, the overall quantity of demand of raw sugar in Jamaica is expected to be stable in year 2024 as the local economy continues to recover. The raw sugar price is expected only slightly increase by single digit since the raw sugar price had hiked twice in 2023 and so further increase will be restrained to reduce the risk of reduction in demand and the risk of increase in sugar smuggling those two risks are non-conducive to our sugar factory operations. The sugar cane price is expected to be relatively stable as that follow the trend of the raw sugar price. However, the labour cost, that accounts for about 10% of production cost, is expected to further increase as wage adjustment is demanding from local trade unions that may push up the production cost in year 2024.

The Jamaican government will continue to provide support local sugar industry. The main aspects are as follows: (i) providing fund for the road maintenance in sugarcane fields in accordance to the road conditions yearly; (ii) strictly restricting the raw sugar import to Jamaica to protect the local sugar industry; (iii) providing sugar cane haulage subsidies to some specified sugar cane farmers to support their delivery of their sugarcane to sugar mills for processing ; and (iv) maintaining the Caribbean Sugar Alliance, countries in the Caribbean should be given priority to importing sugar from other sugar-producing countries in the region which is maintaining a protected market places among member countries.

Chairman's Statement & Management Discussion and Analysis

Prospects *(Continued)*

Sugar business segment *(Continued)*

On aspect of factory operation, the maintenance work of factories and agricultural machinery and equipment will enhance to reduce equipment failures in the crushing season, and ensure the continuous operation of the factory to improve raw sugar and molasses output. While, on aspect of agricultural operation, the field management of the farm will enhance to improve the quality and quantity of sugar cane. It includes the grass control, formulating a sugarcane cutting plan and recruiting suitable sugar cane cutting workers in advance to ensure that sugar cane can be harvested timely and provide a constant and steady supply to the factory for processing in the cropping season.

Supporting service segment

The Group expects that Sino-Africa Technology & Trading Limited will continue to suspend those continuing connected transactions with connected parties in year 2023.

The supporting service segment will continue to control the cash outflows through maintaining key employee in concurrent post and keeping a small office.

Ethanol business segment

For the Group's ethanol biofuel business, the construction of ethanol plant will continue to suspend in year 2023, pending for appropriate alternate business plan for this operation.

FINANCIAL REVIEW

Liquidity and Financial Resources Review

Equity

As at 31st December 2023, the Company had 2,191,180,000 outstanding ordinary shares of HK\$0.1 each (2022: 2,191,180,000 shares).

Capital deficiency attributable to owners of the Company as at 31st December 2023 amounts to approximately HK\$890.3 million (2022: approximately HK\$854.7million).

Borrowings

As at 31st December 2023, the Group's Hong Kong total borrowing (that consisted of amount payable on demand to Complant Sugar, amount due to non-controlling interests and lease liabilities) of approximately HK\$1,148.4 million (2022: approximately HK\$1,134.2 million), of which approximately HK\$518.1 million (2022: approximately HK\$525.9 million) was the amount payable on demand to Complant Sugar, approximately HK\$604.6 million (2022: approximately HK\$582.6 million) was the amount due to non-controlling interests, and approximately HK\$25.7 million (2022: approximately HK\$25.7million) was the lease liabilities.

FINANCIAL REVIEW *(Continued)*

Liquidity and Financial Resources Review *(Continued)*

Gearing

As the shareholder's equity attributable to owners of the Company was a deficiency of approximately HK\$890.3 million (2022: approximately HK\$854.7 million), the calculation of gearing ratio as at 31st December 2023 and 2022 were inappropriate.

Financial Resources

Bank deposits and cash balances as at 31st December 2023 amounted to approximately HK\$37.5 million (2022: approximately HK\$44.7 million), mainly denominated in Hong Kong Dollars, US Dollars and Jamaican dollars. The bank balances were placed in short term deposits with major banks in Hong Kong and Jamaica. The bank balance and cash decreased by approximately HK\$7.2 million. The approximately HK\$7.2 million decrease cash and cash equivalents was brought by the net cash inflow from operating activities of approximately HK\$5.9 million, the net cash outflow from investing activities of approximately HK\$2.0 million, the net cash outflow from finance activities of approximately HK\$9.9 million and the negative effect of exchange rate changes on cash and cash equivalents of approximately HK\$1.2 million.

In view of net loss and capital deficiency positions of the Group, the management had implemented the measures, among others, to secure a letter of support from Complant Sugar not to recall any of the amount due to it until the Group is able to pay its other creditors in the normal course of business as well as to carry out various cost control measures and budgetary controls in order to mitigate the Group's liquidity pressure and to improve the conditions of cash flow. In light of such implemented measures and the Group's cash flow projections which covered a period up to 31st December 2024, the management and also the Board were satisfied that the Group's ability to continue to finance its business operations with the internally generated finance resources.

Capital Structure

There is no change in capital structure during the year under review.

Treasury Policies

The Group continues to adhere to prudent treasury policies. The Group's overall financial and funding policies were aimed to control credit risk to lower the risk of credit sales, the liquidity risk to ensure that funds would be recovered on a timely basis to fulfill the requirement of debt repayment and to closely monitor the overall currency and interest rate exposures to minimize risks in their fluctuation. The Group did not use any derivative financial instruments to hedge for its risk exposure during the year ended 31st December 2023.

Chairman's Statement & Management Discussion and Analysis

FINANCIAL REVIEW *(Continued)*

Liquidity and Financial Resources Review *(Continued)*

Foreign Exchange Exposure

The Group operates in Jamaica and African countries, China and Hong Kong. During the year ended 31st December 2023, revenue was denominated mainly in US dollars and Jamaican dollars while its costs and expenses were primarily in Jamaican Dollars and US dollars where the Group's continuing operations are based. The Group is exposed to potential foreign exchange risk as a result of fluctuations between those currencies that are not pegged. In addition, the main operational assets of the Group are located and denominated in local currencies in Jamaica and African countries while the Group's reporting currency is in Hong Kong dollars. This also exposes the Group to potential foreign exchange risk upon translation of those assets on each reporting date.

The Group did not enter into any arrangements or financial instruments for the purpose of hedging against the potential foreign exchange risks during the year under review. In the event that Jamaican dollars were to depreciate substantially against US dollars, the risk can be mitigated by increasing the sales denominated in US dollars. As for the operational assets of the Group, any foreign exchange losses due to translation of the carrying value of the assets to the Group's reporting currency on reporting dates are unrealised and non-cash in nature. As such, active hedging activities are not considered warranted. Nonetheless, management will monitor closely its foreign currency exposure to ensure appropriate measures are taken promptly against any significant potential adverse impact.

Pledge of Assets

As at 31st December 2023 and 2022, the Group did not have any pledge of assets.

Capital Commitment

As at 31st December 2023, the Group did not have any significant capital commitments.

Significant Investments Held

The Group had not made any significant investment during the year ended 2023 and 2022.

Material Acquisitions and Disposals of Subsidiaries and Affiliated Companies

The Group had no material acquisition or disposal of subsidiaries, associates or jointly controlled entities during the year under review.

FINANCIAL REVIEW *(Continued)*

Liquidity and Financial Resources Review *(Continued)*

Future plans for material investments and capital assets

Reference is made to the announcement made by the Company dated 1st February 2010 and definitions of this announcement are adopted herein, there is no new progress for the MOU signed by the Company and CADFund on 31st January 2010 in respect of the Possible Transactions during year 2023.

Except that, the Group had no other future plans for material investment material investments and capital assets during the year under review.

Employees and Remuneration Policy

Staff remuneration packages of the Group are comprised of salary and discretionary bonuses and are determined with reference to the market conditions and the performance of the Group and the individuals concerned. The Group also provided other staff benefits including medical insurance, provident funds and share options to eligible staff of the Group. The total staff costs (including the directors' remuneration and employees' remuneration, contribution to retirement benefits scheme) of the Group in the year under review was approximately HK\$47.6 million (2022: approximately HK\$42.2 million), of which, approximately J\$0.9 billion (approximately HK\$46.4 million) (2022: approximately J\$0.8 billion (approximately HK\$41.0 million)) was the total staff cost in sugar cane growing and sugar manufacturing business in Jamaica. The approximately HK\$5.4 million increased in staff cost was mainly due to the increase in staff cost of approximately HK\$5.4 million of the sugar business segment owing to the 25.3% increase weekly wage to align the minimum wage increase by the Jamaican government in year 2023 and increase in workload for farm and factory maintenance. The workload increased as the age of farming and factory machine increased. The farming machine like combine harvester, tractors, loaders and excavators and the factory machine like boilers and squeezers required extensive repairs in year 2023.

As at 31st December 2023, the Group had 142 full time employees (2022: 137) and 522 temporary employees (2022: 525).

On behalf of the Board

Zhang Zhaogang

Chairman

Hong Kong, 28th March 2024

Corporate Governance Report

The Board is pleased to present this Corporate Governance Report of the Group for the year ended 31st December 2023.

Corporate Governance Practices

The Board acknowledges the importance of the highest standards of corporate governance as the Board believes that effective corporate governance practices are fundamental to enhancing the Shareholders' value and safeguarding interest of the Shareholders. Accordingly, the Company has adopted sound corporate governance principles that emphasis an effective internal control and accountability to all Shareholders.

The Company has complied with the code provisions of the Corporate Governance Code and Corporate Governance Report as set out in Appendix 14 to the Listing Rules (the "**CG Code**") during the year under review, save for the deviation from code provisions C.1.8, C.2.1, C.2.4, C.1.6, and F.2.2 which are explained below.

Code On Corporate Governance Practices

During the year ended 31st December 2023, the Company has complied with the code provisions of the Corporate Governance Code as set out in the Appendix 14 to the Listing Rules (the "**Code**"), except for the following deviation: –

Code Provision C.1.8

Under the code provision C.1.8, the Company should arrange appropriate insurance cover in respect of legal action against its Directors. As the Company was unable to secure any offer from insurance company to offer coverage for the directors and officers' liabilities in year 2023, the insurance cover in respect of legal actions against the Directors was not in place during the year ended 31st December 2023. The Company will resume the process of obtaining, reviewing and comparing the quotation and insurance proposal with the insurers after the release of 2023 annual report with intent to purchase the relevant liability insurance for Directors within year 2024.

Code Provision C.2.1 and C.2.4

Under the code provision C.2.1, the roles of chairman and chief executive officer (the "**CEO**") should be separate people and should not be performed by the same individual. The divisions of responsibilities between the chairman and CEO should be clearly established and set out in writing. Under the new code provision C.2.4, the chairman should provide leadership for the board. The chairman should ensure that the board works effectively and performs its responsibilities, and that all key and appropriate issues are discussed by it in a timely manner.

The Company segregates the role of Chairman from the Managing Director who also assumes the responsibilities of chief executive officer. Mr. Liaw Yuan Chian was the Managing Director till his resignation on 16th December 2010. The Company has not refilled this position yet that calls for an exhaustive scrutiny in the selection. The Board considered the balance of power between the Board members and the balance of authority between the Board and the management have not been impaired after the resignation of the Managing Director, given that about half of the Board members are independent non-executive and a clear division of responsibilities are in place for the running of the business of the Group. The Company remains structured to ensure appropriate segregation of duties so that power is not concentrated in any one individual.

Having made specific enquiry of all Directors, all Directors declared that they have complied with the Model Code for the year ended 31st December 2023.

The Board Of Directors

(a) Responsibilities

The Board is responsible for determining the overall strategy and corporate development and ensuring the business operations are properly monitored. The Board reserves the right to decide all policy matters of the Group and material transactions. The Board delegates the day-to-day operations to general managers and department heads who are responsible for different aspects of the operations of the Group. The Directors are continually updated with the regulatory requirements, business activities and development of the Group to facilitate the discharge of their responsibilities. The management has the obligation to supply the Board and the various Committees with adequate information in a timely manner to enable the members to make informed decisions. Each Director has separate and independent access to the Group’s management to acquire more information than is volunteered by management and to make further enquiries if necessary. There are established procedures for Directors to seek independent professional advices for them to discharge their duties and responsibilities, where appropriate at the Company’s expenses.

Corporate Governance Report

The Board Of Directors *(Continued)*

(b) Composition

The Board currently comprises three executive Directors, two non-executive directors and three independent non-executive Directors from different business and professional fields. Corporate Governance Report

Independence of Non-Executive Directors

The Company has received from each of the independent non-executive Directors an annual confirmation of independence pursuant to Rule 3.13 of the Listing Rules and considers all the independent non-executive Directors to be independent parties. Each independent non-executive Director is required to inform the Company as soon as practicable if there is any change in his or her own personal particulars that may affect his or her independence.

Independence and Gender Diversity

The independent non-executive Directors bring independent judgement, knowledge and experience to the Board.

As a move to maintain the independence and gender diversity of the Board, Ms. Chen Si was appointed as a non-executive Director of the Company on 18th May, 2022, details of which was set out in the announcement of the Company dated 18th May, 2022.

The Company has established the following mechanisms to ensure independent views and input are available to the Board:

1. Three out of the eight directors are independent non-executive Directors which represents more than one-third of the Board. Chairmen of all Board committees are independent non-executive Directors or non-executive Director.
2. All independent non-executive Directors continue to devote adequate time contribution to the Company.
3. All independent non-executive Directors share their views and opinions through regular Board/Committee meetings.
4. External independent professional advice would be provided to independent non-executive Directors upon reasonable request to assist them to perform their duties to the Company.
5. The Nomination Committee will assess the independence of a candidate for a new independent non-executive Director appointment and also the continued independence of existing independent non-executive Directors on an annual basis. All independent non-executive Directors are required to confirm in writing annually their compliance of independence requirements pursuant to Rule 3.13 of the Listing Rules.
6. No equity-based remuneration with performance-related elements will be granted to the independent non-executive Directors.

During the financial year ended 31st December, 2023, the Board reviewed the implementation and effectiveness of the abovementioned mechanisms and considered that such mechanisms remain effective.

Board Committees

The Company has established the Nomination Committee in February 2012 and maintained the Audit Committee and Remuneration Committee throughout the year to oversee particular aspects of the Group's affairs. Each of these committees has specific written terms of reference, which deal clearly with their authorities and duties. The chairmen of the committees will report the findings and recommendations of the committees to the Board after each meeting. The minutes of all meetings of the committees are circulated to the Board for information.

(a) Nomination Committee

The Nomination Committee was established by the Company in February 2012. As at the date of this report, the Nomination Committee comprises two non-executive Directors of the Company, namely Mr. Zhang Zhaogang and Ms. Chen Si and three independent non-executive Directors of the Company, namely Mr. Cheng Tai Kwan Sunny, Mr. Shi Zhu and Dr. Lu Heng Henry. Review of this Policy

9. The Nomination Committee will review this Policy, as appropriate, to ensure the effectiveness of this Policy. The Nomination Committee will discuss any revisions that may be required and recommend any such revisions to the Board for consideration and approval.

Below is the summary of the Board Diversity Policy and the achievement on the measurable objectives during the year under review:

The Board has adopted a board diversity policy on 27th March 2014 which was subsequently modified. The revised board diversity policy, among others, has set measurable objectives (in terms of gender, age, skills and experience) to implement the Board Diversity Policy with effective from 1st January 2019.

All board appointments will be based on meritocracy, and candidates will be considered based on objective criteria, having due regard for the benefits of diversity on the Board. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, professional experience, skills, knowledge, and experience. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board. The Nomination Committee will report annually on the Board's composition under diversified perspectives, and monitor the implementation of this policy. The minutes of all meetings of Nomination Committee are circulated to the Board for information. The Nomination Committee will discuss any policy's revisions that may be required, and recommend any such revisions to the Board for consideration and approval.

During the financial year ended 31st December 2023, the Nomination Committee reviewed the Board's composition in accordance with the Listing Rules, the Board Diversity Policy and the Nomination Policy and considered that the Board consists of a diverse mix of members and has provided a good balance of skills and experience appropriate to the business needs of the Group.

Board Committees *(Continued)*

Review of this Policy (Continued)

The Nomination Committee also reviewed the Nomination Policy and the Board Diversity Policy and considered such policies remain effective and appropriate for the Company. The Nomination Committee will discuss any revisions to the aforesaid policies that may be required, and recommend any such revisions to the Board for consideration and approval.

The Nomination Committee continues to monitor the implementation of the Board Diversity Policy by conducting review of the Board's composition at least annually.

During the financial year ended 31st December 2023, one female director currently on the Board, bringing the female representation to 12.5% of the Board and 37.5% of the total number is of independent non-executive Directors. The Board targets to maintain at least the current level of female representation. The Board will take opportunities to increase the proportion of female members over time when selecting and making recommendation on suitably qualified candidates for Board appointments.

The Company has taken measures to promote diversity at all levels of its workforce. Training and career development are equally opened to all eligible employees without discrimination. As at 31st December, 2023, the workforce of the Group's comprised 85.4% male and 14.6% female. For further information about the gender ratio in the workforce, please refers to the 2023 Environment, Social and Governance Report. As the members of the Board coincide with majority of the members of the senior management of the Group and the gender ratio of the Board has been disclosed, no disclosure about the gender ratio of the senior management could be made.

During the year under review, the Board has achieved the following measurable objectives:

1. at least one-third of the Board is composed of independent non-executive Directors;
2. at least one Director is a qualified accountant;

Corporate Governance Report

Directors' Responsibility for the Consolidated Financial Statements

The management provides such explanation and information to the Board so as to enable the Board to make an informed assessment of the financial and other information put before the Board for approval.

The Directors acknowledge their responsibility to prepare the consolidated financial statements that give a true and fair view of the state of affairs of the Group. The Board was not aware of any material uncertainties relating to events or conditions that might cast significant doubt upon the Group's ability to continue as a going concern, the Board has prepared the consolidated financial statements on a going concern basis.

The responsibility of the external auditor, BDO Limited, is to form an independent opinion, based on their audit, on those consolidated financial statements prepared by the Board and to report their opinion solely to the shareholders of Company, as a body, and for no other purpose.

The Company has announced its annual and interim results in a timely manner within approximately three months and two months, respectively, after the end of the relevant period in order to enhance high level of corporate transparency.

Risk Management and Internal Controls

The Board acknowledges its responsibility for overseeing the Group's risk management and internal control systems and reviewing their effectiveness at least annually with the assistance from the Audit Committee. The Audit Committee assists the Board in fulfilling its oversight and corporate governance roles in the Group's financial, operational, compliance, risk management and internal controls, and the resourcing of the finance and internal audit functions. To assist the Audit Committee to fulfill its responsibilities, the senior management has to identify, update and report the key risk areas which covered all aspects of corporate strategies, operation and finance to the Board.

Appropriate policies and controls have been designed and established to ensure that assets are safeguarded against improper use or disposal, relevant rules and regulations are adhered to and complied with, reliable financial and accounting records are maintained in accordance with relevant accounting standards and regulatory reporting requirements, and key risks that may impact on the Group's performance are appropriately identified and managed. However, the systems and internal controls can only provide reasonable and not absolute assurance against material misstatement or loss, as they are designed to manage, rather than eliminate the risk of failure to achieve business objectives.

The various departments of the Group, as risk owners, identify, evaluate, mitigate and monitor their own risks, and report such risk management activities to the directors of the Group at each regularly scheduled meeting throughout the year. The internal audit department of the Controlling Shareholders which controlled several listed companies in Hong Kong and the People's Republic of China is sharing this group resource to carry the internal audit function (the "**Group Internal Audit Department**"). The Group Internal Audit Department reviews significant aspects of risk management and internal control for the Group, reports to the Board and the Audit Committee at least annually, including amongst other things, significant risks of the Group and the appropriate mitigation of identified risks and the results of their activities during the preceding period pertaining to the adequacy and effectiveness of internal controls, including but not limited to, any indications of failings or material weaknesses in those controls. The annual work plan of Group Internal Audit Department covers major activities and processes of the Group's operations and businesses units. Special reviews are also performed at the Board' request. The results of these audit activities are communicated to the Board and the Audit Committee at least annually. Audit issues are tracked, followed up for proper implementation, and their progress are reported to the Board and the Audit Committee at least annually.

Risk Management and Internal Controls *(Continued)*

The Group Internal Audit Department provides independent advices to the Board, the Audit Committee and the executive management of the Group on the adequacy and effectiveness of internal controls for the Group. The Group Head of Internal Audit Department reports directly to the Chairman of the Audit Committee and the respective directors (as the case may be).

The senior management of the Group, supported by the Board, is responsible for the design, implementation and monitoring of the risk management and internal control systems, and for reporting to the Board and/or the Audit Committee on the effectiveness of these systems.

The following key processes are used to identify, evaluate and manage the Group's significant risks:

1. the Board establishes the scope and establishes the risk assessment criteria.
2. various departments identify the risks, which may potentially impact the achievement of their business objectives, analyze and evaluate the significance of such risks.
3. various departments assess the adequacy of existing controls, determine and implement plans where risks are mitigated.
4. various departments monitor those activities to mitigate the risks.
5. the Group Internal Audit Department tracks the progress of those activities to mitigate the risks and reports regularly to the Board and the Audit Committee.

The Company has adopted policies and procedures for assessing and improving the effectiveness of its risk management and internal control systems, including requiring the executive management of the Group to provide confirmation to the Board on the effectiveness of these systems annually.

The Group maintains a whistleblowing policy and the Board oversees a set of comprehensive procedures whereby employees, customers, suppliers and other concerned parties can report any actual or suspected occurrence of improper conduct involving the Company, and for such matters to be investigated and dealt with efficiently in an appropriate and transparent manner. The Board has designated the Audit Committee to receive on its behalf any such reports, to oversee the conduct of subsequent investigations, and to provide information, including recommendations arising from any investigations for consideration by the Board. All reported cases would be investigated in a fair and proper manner by the Audit Committee. The Audit Committee will classify the reported cases according to their natures and reports the cases directly to the Board. The investigation reports of the reported cases are sent to the Audit Committee on a regular basis for review.

The whistleblowing policy would be reviewed and updated periodically to align with industry best practice.

The Group's corporate culture is the key components of the Group's corporate governance framework. It provides the guiding principles for the employees to perform justifiably and behave with integrity, uprightness and honesty. It also puts all employees under stringent obligations as to the manner to which they should deal with the issues of bribery, conflicts of interest and compliance with the Group's policies and practices etc.

Corporate Governance Report

Risk Management and Internal Controls *(Continued)*

The Group has zero tolerance for corruption and related malpractice. The anti-corruption policy forms an integral part of the Group's corporate governance framework. Other relevant policies of the framework, including the whistleblowing policy and the code of conduct, outline the Group's aims and requirements of business ethics, as well as the investigation and reporting mechanism of suspected corruption practices.

The Group does not only require all its employees to behave with integrity but also requests its suppliers and business partners to observe the same ethical standards. The Group also prohibits all its employees from taking advantages of their powers and authorities for personal interests. The Group treats the issues on bribery, extortion, fraud and money laundering very seriously and complies with the laws of the place where the business of the Group carries on, to report the issues to the relevant Government authorities. These demonstrate the Group's commitment to the practice of ethical business conduct and the compliance of the anti-corruption laws and regulations of the place where the business of the Group carries on.

The anti-corruption policy would be reviewed and updated periodically to align with the applicable laws and regulations as well as the industry best practice.

The Company strictly regulates the handling and dissemination of inside information to ensure inside information remains confidential until the disclosure of such information is appropriately approved, and the dissemination of such information is efficiently and consistently made.

During the financial year ended 31st December 2023, the Audit Committee assessed broadly any special risks faced by the Group and conducted a review on the effectiveness of the risk management and internal control systems of the Group. The heads of major departments were required to undertake self-assessments of their key controls. Internal Audit Department of Head Office will review their finding. The internal audit reporting and findings were assessed by the Audit Committee. The Audit Committee then reviewed these findings and reported the same to the Board. The Audit Committee and the Board were not aware of any areas of concern that would have a material impact on the Group's financial position or results of operations and considered the risk management and internal control systems to be generally effective and adequate including the adequacy of resources, staff qualifications and experience, training programs and budget of the accounting, internal audit and financial reporting functions.

During year 2023, the Group Internal Audit Department conducted selective reviews on the effectiveness of the risk management and internal control systems over operational, financial and compliance controls of principal subsidiaries of the Group.

In addition to the review of risk management and internal controls undertaken within the Group, the external Auditor also assessed the adequacy and effectiveness of certain key risk management and internal controls as part of their statutory audits. Where appropriate, the external Auditor's recommendations are adopted and enhancements to the risk management and internal controls will be made.

Auditor's Remuneration

For the financial year ended 31st December 2023, the fee paid/payable to the Group's auditor, BDO Limited, is set out as follows:

Services rendered	Fee paid/payable HK\$'000

Non-audit services	–
– Review of result announcement	10
Total	650

Company Secretary

All Directors have access to the advice and services of the company secretary, Mr. Wan Hok Shing. The company secretary reports to the Chairman on Board governance matters, and is responsible for ensuring that Board procedures are followed, and for facilitating communications among Directors as well as with shareholders and management.

The company secretary's biography is set out in the section "Profile of Directors and Senior Management" of this Annual Report. In compliance with Rule 3.29 of the Listing Rules, Mr. Wan Hok Shing has undertaken no less than 15 hours of relevant professional training during the year ended 31st December 2023.

Dividend Policy

The Board has adopted a dividend policy effective since 1st January 2019. This policy aims to set out guidelines for the Board to determine whether dividends are to be declared and paid, and the level of dividend to be paid to the shareholders of the Company.

The Company intends to retain all available funds and earnings, if any, to finance the development and expansion of its business.

Any future determination for the declaration or recommendation of dividends will be made at the absolute discretion of the Board. In proposing any dividend payout, the Board should also take into account, inter alia, the following factors:–

1. the strategies, business cycle, operations, earnings, financial condition, cash requirements and availability as well as capital expenditure and future development requirements of the Company and its subsidiaries (the "**Group**");
2. the possible effects of the Group's credit-worthiness, the financial covenants to which the Group is subject and any restrictions on the payment of dividends that may be imposed by the Group's lenders;
3. the interests of the Shareholders, the dividend receivable/received by the Company from its subsidiaries and the taxation consideration;
4. any restrictions under all applicable laws (including the Companies Law of the Cayman Islands), rules, codes and regulations, the accounting policies and financial reporting standards that the Group has adopted as well as the articles of association of the Company (the "**Articles of Association**"); and
5. Any other factors that the Board deems appropriate.

Pursuant to article 72 of Articles of Association of the Company, any one or more Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times has the right, by written requisition specifying the objects of the meeting and signed by the requisitionists to the Company's principal place of business in Hong Kong at 18/F, Yue Thai Commercial Building, 128 Connaught Road Central, Sheung Wan, Hong Kong to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition.

(b) Putting Forward Proposals at General Meeting

There are no provisions under the Company's articles of association regarding procedures for shareholders to put forward proposals at general meetings other than a proposal of a person for election as Director. Shareholders may follow the procedures set out above to convene an extraordinary general meeting for any business specified in such written requisition.

(c) Procedures for Directing Shareholders' Enquiries to the Board

Shareholders may at any time send their enquiries and concerns to the Board in writing through the Company Secretary at the Company's principal place of business in Hong Kong at 18/F, Yue Thai Commercial Building, 128 Connaught Road Central, Sheung Wan, Hong Kong.

Shareholders may also make enquiries with the Board at the general meetings of the Company.

Communication with Shareholders

The aim of the Shareholders Communication Policy of the Company (the "**Shareholders Communication Policy**") is to provide the shareholders of the Company and, in appropriate circumstances, the investment community at large with ready, equal and timely access to balanced and understandable information about the Company, in order to enable them to make informed assessments of the Company, and to allow shareholders of the Company and the investment community to engage actively with the Company.

The Shareholders Communication Policy sets out various communication channels for the shareholders of the Company to communicate their views on various matters affecting the Company, as well as steps taken to solicit and understand the views of the shareholders of the Company and the stakeholders.

Communication with Shareholders *(Continued)*

Information shall be communicated to the shareholders of the Company and the investment community mainly through the Company's announcements, results announcements, annual and interim reports, annual general meetings and other general meetings that may be convened as well as all the disclosures submitted to the Stock Exchange to be made available on the website of the Stock Exchange and the Company's website which provides an effective communication platform to the public and the shareholders of the Company.

The annual general meeting enables the shareholders of the Company to exchange views with the Board. A notice of annual general meeting is sent to the shareholders of the Company at least 20 clear business days before the meeting. The chairman of the Audit Committee have attended at the annual general meeting to be available to answer the questions of the shareholders of the Company.

Separate resolutions are proposed at the annual general meeting on each substantially separate issue, including the election of individual director.

The chairman of the Board invites the company secretary of the Company to give an explanation of the detailed procedures for conducting a poll at the commencement of the annual general meeting. The company secretary of the Company answers any questions from the shareholders of the Company regarding voting by way of a poll.

During the financial year ended 31st December 2023, having reviewed the implementation and effectiveness of the Shareholders Communication Policy, the Company considered that the Shareholders Communication Policy continues to contribute an effective communication between the Company and the shareholders of the Company.

TO THE SHAREHOLDERS OF HUA LIEN INTERNATIONAL (HOLDING) COMPANY LIMITED

(incorporated in Cayman Islands with limited liability)

Opinion

We have audited the consolidated financial statements of Hua Lien International (Holding) Company Limited (the “**Company**”) and its subsidiaries (hereafter referred to as the “**Group**”) set out on pages 50 to 97, which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSA**s”) issued by the HKICPA. Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements” section of our report. We are independent of the Group in accordance with the HKICPA’s “Code of Ethics for Professional Accountants” (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to note 3(b) in the consolidated financial statements, which indicates that the Group incurred a net loss of HK\$58,267,000 for the year ended 31 December 2023 and, as of that date, the Group had net current liabilities and net liabilities of HK\$1,083,590,000 and HK\$1,102,061,000 respectively. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the “Material Uncertainty Related to Going Concern” section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Valuation of biological assets

Refer to note 20 to the consolidated financial statements and the material accounting policy on note 4(f).

As at 31 December 2023, biological assets, which represented by growing cane, of the Group amounted to HK\$17,606,000. Change in fair value of biological assets of HK\$21,129,000 was recognised in the consolidated statement of profit or loss and other comprehensive income for the year.

The determination of valuation of biological assets is identified as key audit matter due to key source of estimation uncertainty and the significant assumptions and judgements involved in the valuation. The valuation technique used is the income approach which require the use of assumptions and estimates on market prices of sugar cane, cane yield, harvesting costs, percentage of maturity of crop from planting to the valuation date, etc. Such judgement and estimates will impact the valuation of biological assets.

Our procedures in relation to the valuation of biological assets included:

- obtained an understanding of management’s assessment process of the valuation of biological assets and assessed the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as complexity, subjectivity, changes and susceptibility to management bias or fraud;
- assessed and challenged the reasonableness of underlying assumptions and estimates such as market prices of sugar cane, cane yield, harvesting costs, percentage of maturity of crop from planting to the valuation date adopted by management and independent professional valuer engaged by management;
- involved auditor’s expert, an independent professional valuer, to assess the appropriateness of the valuation basis, methodology used and underlying assumptions and estimates adopted by management;
- checked the mathematical accuracy of the calculation of the valuation of biological assets; and
- evaluated the competence, capabilities and objectivity of the independent professional valuer engaged by management and the auditor’s expert.

Other Information in the Annual Report

The directors are responsible for the other information. The other information comprises the information included in the Company’s annual report, but does not include the consolidated financial statements and our auditor’s report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report

Directors' Responsibilities for the Consolidated Financial Statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements *(Continued)*

- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats and safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

1. Corporate Information

Hua Lien International (Holding) Company Limited (the “**Company**”) was incorporated in the Cayman Islands as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited. The address of the registered office and principal place of business of the Company are disclosed in the “Corporate information” section to the Annual Report. The directors consider its immediate holding company is China National Complete Plant Import & Export Group Corporation Limited (“**China Complant**”) and its ultimate parent Company is State Development & Investment Corp., Ltd.. Both are incorporated in the People’s Republic of China (the “**PRC**”).

The Company and its subsidiaries (collectively referred to as the “**Group**”) are principally engaged in provision of supporting services and sweetener business, cultivation of sugar cane and manufacturing of sugar and ethanol biofuel business.

2. Adoption of Hong Kong Financial Reporting Standards (“HKFRSs”)

(a) Adoption of new or amended HKFRSs – effective on 1 January 2023

The following new or amended HKFRSs are mandatory for the first time for the financial year beginning 1 January 2023 and the impacts of the adoption are disclosed below.

HKFRS 17	Insurance Contracts
Amendments to HKAS 1	Disclosure of Accounting Policies
Amendments to HKAS 8	Definition of Accounting Estimations
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction
Amendments to HKAS 12	International Tax Reform – Pillar Two Model Rules

None of these amended HKFRSs effective on 1 January 2023 has a material impact on the Group’s results and financial position for the current or prior period. The Group has not early applied any new or amended HKFRSs that are not yet effective for the current accounting period. Impact on the applications of these new or amended HKFRSs are summarised below.

Disclosure of Accounting Policies – Amendments to HKAS 1 Presentation of Financial Statements and HKFRS Practice Statement 2

The amendments to HKAS 1 and HKFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their ‘significant’ accounting policies with a requirement to disclose their ‘material’ accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

2. Adoption of Hong Kong Financial Reporting Standards (“HKFRSs”)

(Continued)

(a) Adoption of new or amended HKFRSs – effective on 1 January 2023 (Continued)

The amendments have had an impact on the Group’s disclosures of accounting policies and resulted in the disclosure of material accounting policy information and removal of some immaterial accounting policy information, but not on the measurement, recognition or presentation of any items in the Group’s financial statements.

(b) New or revised HKFRSs that have been issued but are not yet effective

The following new or revised HKFRSs, potentially relevant to the Group’s financial statements, have been issued, but are not yet effective and have not been early adopted by the Group. The Group’s current intention is to apply these changes on the date they become effective.

Amendments to HKFRS 16	Lease liability in a Sale and Leaseback ¹
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current ¹
Amendments to HKAS 1	Non-current Liabilities with Covenants ¹
Amendments to HKAS 7	Supplier Finance Arrangements ¹
Amendments to HKAS 21	Lack of Exchangeability ²
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³

¹ Effective for annual periods beginning on or after 1 January 2024

² Effective for annual periods beginning on or after 1 January 2025

³ Effective for annual periods beginning on or after a date to be determined.

The directors of the Company do not anticipate that the applications of the amendments and revision in the future will have significant impacts on the financial statements.

3. Basis Of Preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with all applicable HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations (hereinafter collectively referred to as the “HKFRS”) and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

3. Basis Of Preparation *(Continued)*

(b) Basis of measurement and going concern assumption

The consolidated financial statements have been prepared on a going concern basis even though the Group incurred a net loss of HK\$58,267,000 for the year ended 31 December 2023, and as of that date, the Group had net current liabilities and net liabilities of HK\$1,083,590,000 and HK\$1,102,061,000 respectively. These conditions may cast significant doubt about the Group's ability to continue as a going concern.

In view of these circumstances and for the purpose of assessing the appropriateness of the use of the going concern basis in the preparation of the consolidated financial statements, the directors have prepared a cash flow forecast ("**Forecast**") covering a period of 12-month from the date of approval of these consolidated financial statements for issue. In preparing the Forecast, careful considerations are given to the future liquidity and performance of the Group and its available sources of finance and also the following measures:

- The substantial shareholder of the Company, COMPLANT International Sugar Industry Co., Ltd. ("**Complant Sugar**"), had granted an irrevocable supplemental undertaking (the "**Supplemental Undertaking**") on 22 December 2023 in favour of the Company. Pursuant to the Supplemental Undertaking, conditional upon the entering into an agreement for a formal repayment plan, Complant Sugar will not demand repayment of or performance of obligations under the amount payable on demand of HK\$518,099,000 (note 24) until 31 December 2025 (the "**Extended Period**");
- Complant Sugar has undertaken at least for the period of the Forecast to provide continuing financial support and will not recall any of the amounts due to it, until the Group is able to pay its other creditors in the normal course of business, in order to maintain the Group as a going concern; and
- The Company will take the Extended Period to improve the financial performance of the Group to enable the Company to bargain for a more favourable terms when restructuring the liabilities.

Assuming the achieving of the Forecast (which had contemplated the continuing financial support from Complant Sugar remaining intact and its capability of doing so) and the successful implementation of the above measures, the directors were of the opinion that the Group would have sufficient financial resources to finance the operations and meet its financial obligations as and when they fall due. Accordingly, it is appropriate to prepare the consolidated financial statements on a going concern basis notwithstanding that a material uncertainty exists related to the above conditions that may cast significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

Should the going concern assumption be inappropriate, adjustments may have to be made to write down the values of assets to their net realisable amounts, to provide for any further liabilities that might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in the consolidated financial statements.

3. Basis Of Preparation *(Continued)*

(c) Functional and presentation currency

The financial statements are presented in Hong Kong dollars (“HK\$”), which is the same as the functional currency of the Company and all amounts are rounded to the nearest thousand (“HK\$’000”) except otherwise indicated.

4. Material Accounting Policies Information

(a) Business combinations and basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries (“the Group”). Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

(b) Subsidiaries

In the Company’s statement of financial position, investments in subsidiaries are stated at cost less impairment loss, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

(c) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

Property, plant and equipment are depreciated so as to write off their cost or valuation net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives, residual value and depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period. Freehold land is not depreciated. The useful lives are as follows:

Buildings	20 years
Furniture and equipment	4 to 10 years
Computers	4 years
Plant and machinery	10 years
Motor vehicles	4 years
Bearer plants	3 to 7 years

4. Material Accounting Policies Information *(Continued)*

(c) Property, plant and equipment *(Continued)*

Construction in progress is stated at cost less impairment losses. Cost comprises direct costs of construction as well as borrowing costs capitalized during the periods of construction and installation. Capitalization of these costs ceases and the construction in progress is transferred to the appropriate class of property, plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided for in respect of construction in progress until it is completed and ready for its intended use.

An asset is written down immediately to its recoverable amount if its carrying amount is higher than the asset's estimated recoverable amount.

(d) Leasing

All leases (irrespective of they are operating leases or finance leases) are required to be capitalised in the statement of financial position as right-of-use assets and lease liabilities, but accounting policy choices exist for an entity to choose not to capitalise (i) leases which are short-term leases and/or (ii) leases for which the underlying asset is of low-value. The Group has elected not to recognise right-of-use assets and lease liabilities for low-value assets and leases for which at the commencement date have a lease term less than 12 months. The lease payments associated with those leases have been expensed on straight-line basis over the lease term.

(i) *Right-of-use asset*

The right-of-use asset should be recognised at cost and would comprise: (i) the amount of the initial measurement of the lease liability (see below for the accounting policy to account for lease liability); (ii) any lease payments made at or before the commencement date, less any lease incentives received; (iii) any initial direct costs incurred by the lessee and (iv) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The Group measures the right-of-use assets applying cost model. Under the cost model, the Group measures the right-to-use at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liability.

The Group accounts for leasehold land that are held for own use under HKAS 16 are carried at cost less accumulated depreciation and impairment losses.

4. Material Accounting Policies Information *(Continued)*

(d) Leasing *(Continued)*

(ii) Lease liability

The lease liability is recognised at the present value of the lease payments that are not paid at the date of commencement of the lease. The lease payments are discounted using incremental borrowing rate.

The following payments for the right-to-use the underlying asset during the lease term that are not paid at the commencement date of the lease are considered to be lease payments: (i) fixed payments less any lease incentives receivable; (ii) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at commencement date; (iii) amounts expected to be payable by the lessee under residual value guarantees; (iv) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option and (v) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

Subsequent to the commencement date, the Group measures the lease liability by: (i) increasing the carrying amount to reflect interest on the lease liability; (ii) reducing the carrying amount to reflect the lease payments made; and (iii) remeasuring the carrying amount to reflect any reassessment or lease modifications, e.g., a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the in substance fixed lease payments or a change in assessment to purchase the underlying asset.

(e) Financial instruments

(i) Financial assets

A financial asset (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus, for an item not at fair value through profit or loss (“**FVTPL**”), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset.

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets at amortised cost are subsequently measured using the effective interest rate method. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain on derecognition is recognised in profit or loss.

(e) Financial instruments *(Continued)*

(ii) *Impairment loss on financial assets*

The Group recognises loss allowances for expected credit losses (“ECLs”) on trade receivables of lifetime ECLs, that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets’ original effective interest rate.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group considers a financial asset to be credit-impaired when: (1) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (2) the financial asset is more than 90 days past due, unless the Group has reasonable and supportable information to demonstrate that a more lagging default criteria is more appropriate.

Interest income on credit-impaired financial assets is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset. For non-credit impaired financial assets, interest income is calculated based on the gross carrying amount.

(iii) *Financial liabilities*

The Group classifies its financial liabilities, depending on the purpose for which the liabilities were incurred. Financial liabilities at amortised costs are initially measured at fair value, net of directly attributable costs incurred.

Liabilities at amortised cost

Financial liabilities at amortised cost including trade and other payables, amount due to non-controlling interests, and lease liabilities are subsequently measured at amortised cost, using the effective interest method. The related interest expense is recognised in profit or loss.

Gains or losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

4. Material Accounting Policies Information *(Continued)*

(e) Financial instruments *(Continued)*

(iv) *Effective interest rate method*

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

(v) *Derecognition*

The Group derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKFRS 9.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

(f) Biological assets

Biological assets are the growing canes owned by the Group, living plants involved in the agricultural activities of the transformation of biological assets into agricultural produce for sale or into additional biological assets. Biological assets are measured at fair value less costs to sell at initial recognition and at the end of each reporting period while agricultural produce are measured at fair value less costs to sell at the point of harvest, which is deemed as the cost at that date when the agricultural produce becomes inventory or additional biological assets.

Growing cane, which are valued at fair value based on estimated sucrose content, age and market price, less estimated harvesting costs.

If an active market exists for a biological asset or agricultural produce with reference to comparable species, growing condition and expected yield of the crops, the quoted price in that market is adopted for determining the fair value of that asset. If an active market does not exist, the Group uses the most recent market transaction price, provided that there has not been a significant change in economic circumstances between the transaction date and the end of reporting period, or the market prices for similar assets adjusted to reflect differences to determine fair values or as determined by independent professional valuers. The gain or loss arising on initial recognition and subsequent changes in fair values less costs to sell of biological assets is recognised in profit or loss in the period in which it arises.

Growing cane is accounted for as biological assets. Biological assets are stated at fair value with any resultant gain or loss recognised in the consolidated statement of profit or loss and other comprehensive income.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

4. Material Accounting Policies Information *(Continued)*

(g) Inventories

Inventories are initially recognised at cost, and subsequently at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated using the first-in first out method. Net realisable value represents the estimated selling price in the ordinary course of business. The Group performs impairment assessment on consumables and components included in inventories in accordance with note 4(j).

(h) Revenue recognition

Revenue from contracts with customers is recognised when control of goods is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Depending on the terms of the contract and the laws that apply to the contract, control of the goods may be transferred over time or at a point in time. Control of the goods is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates or enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

For contracts where the period between the payment and the transfer of the promised goods is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

Sales of goods, including sugar, molasses, consumable chemicals and fertiliser

Customers obtain control of the goods when the goods are delivered to and have been accepted. Revenue is thus recognised upon when the customers accepted the goods. There is generally only one performance obligation.

Contract liabilities

A contract liability represents the Group's obligation to transfer goods to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

4. Material Accounting Policies Information *(Continued)*

(i) Employee benefits

(i) *Short term employee benefits*

Short term employee benefits are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service. Short term employee benefits are recognised in the year when the employees render the related service.

(ii) *Defined contribution retirement plan*

Contributions to defined contribution retirement plans are recognised as an expense in profit or loss when the services are rendered by the employees.

(j) Impairment of assets (other than financial assets)

At the end of each reporting period, the Group reviews the carrying amounts of the following assets, or the respective relevant cash-generating unit to determine whether there is any indication that those assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment under cost model;
- intangible assets;
- interests in leasehold land held for own use under operating leases;
- investments in subsidiaries; and
- Consumables and components included in inventories

If the recoverable amount (i.e. the greater of the fair value less costs of disposal and value in use) of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Value in use is based on the estimated future cash flows expected to be derived from the asset or cash generating unit (see note 4(c)), discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating unit.

Notes to the Consolidated Financial Statements

5. Critical Accounting Judgments and Key Sources of Estimation Uncertainty

In the application of the Group's accounting policies, which are described in note 4, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) *Fair values of biological assets*

The biological asset included in the Group's consolidated financial statements require measurement at, and/or disclosure of, fair value.

The fair value measurement of the Group's financial and non-financial assets and liabilities utilises market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorised into different levels based on how observable the inputs used in the valuation technique utilised are (the "fair value hierarchy"):

Level 1: Quoted prices in active markets for identical items (unadjusted);

Level 2: Observable direct or indirect inputs other than Level 1 inputs;

Level 3: Unobservable inputs (i.e. not derived from market data).

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognised in the period they occur.

The Group measures the biological assets at fair value. The directors of the Company use their judgements and estimates in determining the fair value of biological assets, growing cane. The fair values are determined using income approach based on assumptions including the estimated market prices of sugar cane and estimated cane yields, etc. At 31 December 2023, the fair value of the biological assets has been determined by independent valuation firm. The carrying amount of biological assets as at 31 December 2023 is HK\$17,606,000 (2022: HK\$17,975,000). Details of the assumptions used are disclosed in note 20.

5. Critical Accounting Judgments and Key Sources of Estimation Uncertainty *(Continued)*

Key sources of estimation uncertainty *(Continued)*

(b) Estimated impairment losses on trade receivables

As disclosed in notes 7(b) and 22, the measurement of impairment losses under HKFRS 9 across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment if a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

(c) Impairment loss on property, plant and equipment

At the end of the reporting period, the directors of the Company review the carrying amounts of its property, plant and equipment with finite useful lives and identified if there is indication that those assets may suffer an impairment loss. If impairment indicators are identified, the recoverable amounts of the assets are estimated in order to determine the extent of the impairment loss. The estimates of the recoverable amounts of the assets of the respective relevant cash generating unit require the use of assumptions such as cash flow projections and discount rates to calculate the discounted present value of the future cash flows expected to arise from the continuing use of the property, plant and equipment and intangible assets and from its disposal at the end of its useful life.

As at 31 December 2023, the carrying amount of property, plant and equipment was HK\$5,771,000 (2022: HK\$6,368,000).

(d) Going concern assumption

As explained in note 3(b), information about the consolidated financial statements have been prepared on a going concern basis even though the Group incurred a net loss of HK\$58,267,000 for the year ended 31 December 2023 and as of 31 December 2023, the Group had net current liabilities and net liabilities of HK\$1,083,590,000 and HK\$1,102,061,000 respectively. In view of these circumstances, the directors have given consideration to the future liquidity and performance of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern. Certain measures as stated in note 3(b) have been and are being taken to manage the Group's liquidity and to improve its financial position.

Should the Group be unable to continue as a going concern, adjustment would have to be made to restate the value of assets to their realisable amounts, to provide for further liabilities that might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities. The effect of those potential adjustments has not been reflected in the consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

6. Capital Risk Management

The Group's objectives of managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for owners of the Company and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may issue new shares or sell assets to reduce debt.

During the year, the Group's strategy remained unchanged. The Group monitors capital risk on the basis of the gearing ratio. This ratio is calculated as total borrowings divided by total equity.

The management considers the gearing ratio at the end of each reporting period was as follows:

	2023 HK\$'000	2022 HK\$'000
Total borrowings	1,148,357	1,134,204
Total capital deficiency	(890,259)	(854,708)
Total borrowings to total equity ratio	N/A	N/A

Total borrowings include other payable (note 24), amount due to non-controlling interests (note 27) and lease liabilities (note 29).

There was capital deficiency of HK\$890,259,000 as at 31 December 2023, calculation of gearing ratio as at 31 December 2023 was inappropriate.

7. Financial Risk Management

(a) Categories of financial instruments

The carrying amounts of the Group's financial assets and financial liabilities as recognised at 31 December 2023 and 2022 were categorised as follows:

	2023 HK\$'000	2022 HK\$'000
Financial assets		
At amortised cost (including bank balances, deposits and cash)	39,629	47,781
Financial liabilities		
At amortised cost	1,151,904	1,134,06
Lease liabilities	25,699	25,734

(b) Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, bank balances, deposits and cash, trade and other payables, lease liabilities and amount due to non-controlling interests. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

7. Financial Risk Management *(Continued)*

(b) Financial risk management objectives and policies

Market risk

Foreign currency risk

The transactions of the Group's principal subsidiaries are denominated and settled in its respective functional currency. However, there are certain monetary assets and monetary liabilities denominated in foreign currencies in respect of the relevant group entities. The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities, which are considered as significant by the management, at the end of the reporting period are as follows:

	2023 HK\$'000	2022 HK\$'000
Monetary assets		
United States Dollar ("USD")	5,414	7,688
Monetary liabilities		
USD	630,258	608,315

Sensitivity analysis

The following table details the Group's sensitivity to a 10% (2022: 10%) increase and decrease in the functional currency of the relevant group entity (Jamaica Dollar ("J\$")) against the relevant foreign currency monetary assets and liabilities. 10% (2022: 10%) is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 10% (2022: 10%) change in foreign currency rates. A negative number below indicates an increase in post-tax loss for the year where the functional currency of the relevant group entity strengthens 10% (2022: 10%) against the relevant foreign currency. For a 10% (2022: 10%) weakening of the functional currency of the relevant group entity against the relevant foreign currency, there would be an equal and opposite impact on pre-tax loss for the year.

	Impact on profit or loss	
	2023 HK\$'000	2022 HK\$'000
USD	(62,484)	(60,063)

The above impacts are mainly attributable to the exposure outstanding on receivables, payables, amount due to non-controlling interest and bank balances in the respective foreign currency at year end.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

7. Financial Risk Management *(Continued)*

(b) Financial risk management objectives and policies *(Continued)*

Market risk (Continued)

Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate bank balances and amount due to non-controlling interest. Details of the bank balances and amount due to non-controlling interests are disclosed in notes 23 and 27, respectively.

The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate exposure and will consider other necessary actions when significant interest rate exposure is anticipated.

Sensitivity analysis

It is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would increase/decrease (2022: increase/decrease) the Group's loss after tax and accumulated losses by approximately HK\$3,139,000 (2022: HK\$3,127,000) for the year. This is mainly attributable to the Group's exposure to interest rates on bank balances and amount due to non-controlling interests.

The sensitivity analysis above has been determined based on the exposure to interest rates for non-derivative instruments. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. The 100 basis points (2022: 100 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of a reasonably possible change in interest rates. The analysis is performed on the same basis for the year ended 31 December 2023.

Credit risk

The Group's credit risk is primarily attributable to its trade and other receivables. Management has a credit policy in place and the exposures to this credit risk is monitored on an ongoing basis.

In respect of trade and other receivables, individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customers as well as pertaining to the economic environment in which the customers operate. Ongoing credit evaluation is performed on the financial condition of trade customers. Trade receivables are due within, 30 days and 60 days from the date of billing for customers of raw sugar trading and molasses trading respectively. Debtors with balances that are more than 12 months past due are requested to settle all outstanding balances before any further credit is granted. Normally, the Group does not obtain collateral from customers.

7. Financial Risk Management *(Continued)*

(b) Financial risk management objectives and policies *(Continued)*

Credit risk (Continued)

The Group has concentration of credit risk on trade receivables as 95% (2022: 79%) of the total receivable was due from the Group's five largest customers. As at 31 December 2023, there was HK\$921,000 (2022: HK\$447,000) due from the Group's largest customer. The Group's concentration of credit risk by geographical locations is mainly in Jamaica (2022: Jamaica), which accounted for 100% (2022: 100%) of the total trade receivables as at 31 December 2023.

In respect of deposits with banks, the Group mitigates its exposure to credit risk by placing deposits with financial institutions with high credit rating.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The following table provides information about the Group's exposure to credit risk and ECLs for trade receivables at the end of the reporting period:

At 31 December 2023	Weighted average lifetime ECLs rate %	Gross carrying amounts HK\$'000	Lifetime ECLs HK\$'000	Net carrying amounts HK\$'000
Current (not past due)	0%*	752	–	752
1 – 90 days past due	0%*	230	–	230
91 – 180 days past due	0%*	22	–	22
181 – 365 days past due	0%*	34	–	34
Over 1 year past due	0%*	346	–	346
		1,384	–	1,384
Individual assessment	100.0%	46,051	(46,051)	–
		47,435	(46,051)	1,384

* The ECLs rate for trade receivables that are categorised as not past due, 1 – 90 days past due, 91 – 180 days past due, 181 – 365 days past due and 1 – 2 years past due are assessed to be 0.7%, 1.1%, 14.6%, 33.3% and 60.6% respectively. The ECLs rate is reviewed, and adjusted if appropriate, at the end of each reporting period. Based on evaluation on ECLs rate and the carrying amount of trade receivables, the directors of the Company are of the opinion that the ECLs in respect of trade receivables are considered as immaterial.

The ECLs rate for trade receivables that are categorised as not past due, 1 – 90 days past due, 91 – 180 days past due and 181 – 365 days past due are assessed to be 0.1%, 2.1%, 19.1% and 36.0% respectively. The ECLs rate is reviewed, and adjusted if appropriate, at the end of each reporting period. Based on evaluation on ECLs rate and the carrying amount of trade receivables, the directors of the Company are of the opinion that the ECLs in respect of trade receivables are considered as immaterial.

ECLs rates are based on actual loss experience over the past 3 years. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the group's view of economic conditions over the expected lives of the receivables.

Movement in the loss allowances in respect of trade receivables during the year was as follows:

	2023 HK\$'000	2022 HK\$'000
At 1 January	45,637	57,157

Liquidity risk

In the management of the liquidity risk, the Group regularly monitors its liquidity requirements and its compliance with lending covenants and ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the normal course of business, as well as maintain the Group as a going concern.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities and based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest rates are floating, the undiscounted amount is derived from interest rate curves at the end of the reporting period.

7. Financial Risk Management *(Continued)*

(b) Financial risk management objectives and policies *(Continued)*

Environmental and climate change risk

The Group's sugar business depends significantly on the ability to harvest sugar canes in the concession. The ability to harvest sugar canes and the growth of the sugar canes in the plantations may be affected by unfavourable local weather conditions and natural disasters. Weather conditions such as drought, flooding, disease outbreaks, cyclones and windstorms are examples of such events. The occurrence of severe weather conditions or natural disasters may diminish the supply of sugar canes available for harvesting in the concessions, or otherwise impede the Group's harvesting operations or the growth of the sugar canes in the plantations, which in turn may have a material adverse effect on the Group's ability to produce the products in sufficient quantities and in a timely manner.

The Group's geographic spread of farms allows a high degree of mitigation against adverse climate conditions such as drought, flooding and disease outbreaks. The Group has strong environmental policies and procedures in place to comply with environmental laws.

The seasonal nature of the cane farming business requires a high level of cash flows at different times of the year. The Group actively manages its working capital requirements and has secured credit facilities sufficient to meet its cash flow requirements.

(c) Fair values

(i) *Fair values of financial instruments carried at other than fair value*

In respect of bank balances, deposits and cash, trade and other receivables, and trade and other payables, the carrying amounts approximate their fair value due to the relatively short-term nature of these financial instruments.

The aggregate carrying amounts of other financial liabilities carried on the consolidated statement of financial position are not materially different from their fair values as at 31 December 2023.

(ii) *Determination of the fair values of financial assets and financial liabilities*

The fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices or rates from observable current market transactions as input.

8. Turnover and Segment Information

Turnover represents revenue arising from sale of goods, which is recognised at a point in time.

The Group's reportable and operating segments, based on information reported to the chief executive officer, being the chief operating decision maker, for the purpose of resource allocation and assessment of segment performance focuses on types of goods. No operating segments identified by the chief operating decision maker have been aggregated in arriving at the reportable segments of the Group.

Specifically, the Group's reportable and operating segments under HKFRS 8 are as follows:

- Supporting services to external customers in the sweetener and ethanol business (the “**Supporting services**”);
- Sugar cane growing and sugar manufacturing business (the “**Sugar business**”); and
- Ethanol biofuel business (the “**Ethanol business**”).

The following is an analysis of the Group's revenue, results, assets and liabilities by reportable segments.

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 4. Segment results represents the result of each segment without allocation of central administration expenses, directors' remuneration, interest income and finance costs. This is the measure reported to the chief executive officer with respect to the resource allocation and performance assessment.

For the purposes of monitoring segment performance and allocating resources between segments:

- All assets are allocated to operating segment, other than certain bank balances and cash of head office.
- All liabilities are allocated to operating segments, other than other payables and accrued liabilities of head office.

15. Income Tax Expense

No provision for income tax expense had been made as the Company and subsidiaries have no assessable profits in their jurisdictions for the years ended 31 December 2023 and 2022.

The Hong Kong profits tax charge is calculated at 8.25% (2022: 8.25%) on the first HK\$2 million of estimated assessable profit and at 16.5% (2022: 16.5%) on the estimated assessable profits above HK\$2 million.

Jamaica Corporate Income tax is 30% (2022: 30%) on assessable profits arising in Jamaica. The Government of Jamaica, through the Ministry of Finance and Public Services, granted Pan-Caribbean Sugar Company Limited (“**PCSC**”) 20 year period of relief from corporate income tax effective on the commencement of operations since 2012, with the option to apply for a renewal.

Benin Standard Corporate Income Tax rate is 30% (2022: 30%). Compagnie Beninoise De Bioenergie (“**CBB**”) is eligible for certain tax holiday and concessions and were exempted from Benin income tax for both 2023 and 2022.

The tax rate of the PRC subsidiary is 25% (2022: 25%) under Enterprises Income Tax Law of the PRC (the “**EIT Law**”) and Implementation Regulation of the EIT Law.

No provision for deferred taxation had been made in view of immaterial effect.

Impairment Tests and Impairment Loss on Intangible Asset

i. Details and movement of the value on the intangible assets

Initially, the intangible asset represented customer relationship purchased as part of a business combination of Sino-Africa Technology & Trading Limited (“**SATT**”) in February 2009. As detailed in the valuation report at the time of acquisition in February 2009, the customer relationship of the SATT at date of acquisition was only consisted of four customers, namely, the La Sucrierie de COMPLANT de Madagascar (“**African Company 1**”), COMPLANT Magbass Sugar Complex Company Limited (“**African Company 2**”), La Sucrierie de COMPLANT du Benin (“**African Company 3**”), Sucrierie Cote Ouest de COMPLANT de Madagascar (Ouest Sucre) (“**African Company 4**”). African Company 1, 2, 3 and 4 are all indirect subsidiaries of Complant Sugar which is a substantial shareholder holding 13.69% shares of the Company. Due to subsequent business development of SATT, two fellow subsidiaries of SATT, namely CBB and PCSC were added as new customers in 2012 and 2013 respectively after the independent shareholders approved their annual caps for the continuing connected transactions. The addition of these two customers was considered as part of customer relationship even though no restatement of cost of the intangible assets for these internally generated intangible assets.

The customer relationship represents the present value of the future cash flow attributed to established customer base and other business relationships built up by SATT in African and other nations and has a definite useful life and is amortised on straight-line basis over the estimated useful life of 20 years. The movement of value of the intangible assets for 2023 was set out above.

19. Intangible Asset *(Continued)*

Impairment Tests and Impairment Loss on Intangible Asset *(Continued)*

ii. *Reasons and details of events and circumstances that led to impairment loss of intangible asset in 2017*

The impairment loss of intangible asset in 2017 was mainly for reason that the operating results of two of its customers, namely PCSC and CBB, who owe a total of approximately HK\$129.1 million to SATT did not show much improvement even PCSC suspended two of its sugar estates and one of its sugar factory in 2016. The length of time it will take by these two customers to repay its debts to SATT has reassessed in 2017. The projected working capital requirement was higher than that expected in 2016 for the next five years resulting from the expected lengthening of the repayment time by PCSC and CBB. The increase in net working capital requirement will reduce the free cash flow and this has the effect of lowering the value-in-use (“VIU”) valuation of SATT in 2017.

Save as disclosed above, the Company is not aware of any other significant reason or change in circumstances since the year ended 31 December 2017 leading to impairment loss of the intangible asset.

iii. *Factors, events and circumstances of the impairment of intangible assets cannot be anticipated at the time of acquisition of the intangible assets in February 2009*

The impairment loss was due to the subsequent abrupt market and operation changes in 2017 and the new changes in customer relationship of SATT after the acquisition in 2012 and 2013. Those changes happened years after the acquisition and were therefore impossible to forecast at time of acquisition in February 2009.

20. Biological Assets – Growing Cane

Movement in biological assets, representing growing cane before harvest, are summarised as follows:

	2023 HK\$'000	2022 HK\$'000
Opening balance (level 3 recurring fair value)	17,975	18,719
Cane cultivation cost capitalised	57,929	56,045
Decrease in cane harvested	(36,855)	(40,622)
Changes in fair value	(21,129)	(16,487)
Exchange realignment	(314)	320
Closing balance (level 3 recurring fair value)	17,606	17,975

The fair value of biological assets is a level 3 recurring fair value measurement. The decrease in fair value of biological assets for the year ended of approximately HK\$21,129,000 (2022: decrease in fair value of approximately HK\$16,487,000) was recognised in the consolidated statement of profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

20. Biological Assets – Growing Cane (Continued)

Valuation Methodology of Biological Assets

The Group has engaged BMIA, an independent valuation firm, to determine the fair value of the biological assets as at 31 December 2023 (the “Valuation Date”).

i. Valuation techniques and assumptions

The valuation technique used is the income approach it requires to assess a series of variables, which include market prices of sugar cane, cane yield, planting costs, etc. The values of such variables are determined by the independent valuers using information supplied by the Group, proprietary and third-party data as well as under some assumptions. There were no changes to the valuation techniques during the period. Major assumptions adopted for valuation are listed below:

- a. The sugar cane crop is a perennial crop with a one year crop cycle and the crop is reaped exactly one year after planting; and
- b. The sugar cane crop experiences linear growth.

ii. Unobservable inputs

The major inputs for the above valuation models are cane yield per hectare, market prices of sugar canes and estimated maturity of cane. The values of such inputs are as follows:

- a. The estimated cane yield per hectare represents the harvest level of the sugar canes. The yield of sugar canes is affected by the age, species and health of the cane roots, the climate, location, soil conditions, topography and agricultural infrastructure.

	2023	2022
Estimated yield (tonnes cane/hectare)	48.4	49.5

The estimated cane yield per hectare represents the harvest level of the sugar cane in the Frome estate, which is the only one (2022: one) of the three (2022: three) estates in operation during the year.

- b. The market prices variables represent the estimated market price in Jamaica Dollar (“J\$”) for the sugar canes produced by the Group.

	2023	2022
Estimated market price per tonne (approximately)	J\$6,641 (HK\$343)	J\$5,971 (HK\$308)

20. Biological Assets – Growing Cane (Continued)

Valuation Methodology of Biological Assets (Continued)

ii. Unobservable inputs (Continued)

- c. The average maturity of cane as calculated by plant date and Valuation Date.

	2023	2022
Weighted average maturity of cane per hectare (approximately)	81.1%	64.5%

The higher the estimated cane yield per hectare, market prices variables and average maturity of cane, the higher the fair value.

The fair value measurement is based on the above biological assets' highest and best use, which does not differ from their actual use.

21. Inventories

	2023 HK\$'000	2022 HK\$'000
Consumables and components	46,064	54,707
Good in transit	463	15
Sugar and molasses	3,592	6,794
Write-down	50,119 (27,725)	61,516 (28,217)
Net realisable value	22,394	33,299

At 31 December 2023, the sugar and molasses consisted of 278 tonnes (2022: 625 tonnes) of raw sugar and 1,446 tonnes (2022: 1,350 tonnes) of molasses with carrying amounts of HK\$2,163,000 (2022: HK\$5,305,000) and HK\$1,429,000 (2022: HK\$1,489,000) respectively.

During the year ended 31 December 2023, there was no write-down of inventories (2022: HK\$10,011,000) for consumables and components related to property, plant and equipment. Movement in write-down of consumables and components during the year was as follows:

	2023 HK\$'000	2022 HK\$'000
At the beginning of the year	28,217	17,889
Write-down on inventory of spare parts for property, plant and equipment	–	10,011

30. Retirement Benefits Schemes

The Group operates the Mandatory Provident Fund (“**MPF**”) Scheme established under the Mandatory Provident Fund Ordinance for its qualifying employees in Hong Kong. The assets of the MPF Scheme are held separately from those of the Group, in funds under the control of trustees.

The Group contributes 5% of relevant payroll costs, capped at HK\$1,500 per month, to the MPF Scheme, in which the contribution is matched by employees.

The employees of the Group’s subsidiary in PRC and Jamaica are members of a state-managed retirement benefit scheme operated by the government of the PRC and Jamaica respectively. The subsidiaries are required to contribute 20% and 2.5% respectively of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit scheme is to make the specified contributions.

At the end of reporting period, there were no significant forfeited contributions available to reduce the contribution payable in the future years.

The total cost charged to the consolidated statement of profit or loss of approximately HK\$18,000 (2022: approximately HK\$18,000) represents contributions payable to these schemes by the Group in respect of the current accounting period.
