The Directors, including the independent non-executive Directors, consider that the Supplemental JV Contract, the Terminal Site and Coastline Use Right Transfer Contract, the Supplemental Management Agreement, the Rock Materials Supply Contract and the Dredging Management Contract (which are all incidental to and necessary for the execution of such expansion plan) to be on normal commercial terms (including the amount of consideration for each such contract being set at a price which is no higher than the prevailing market price for similar assets, services or products sold) and which are arrived at after arm's length negotiations between the parties and are fair and reasonable insofar as the shareholders of the Company are concerned.

The financial assistance to be provided by Hutchison Ports Yantian to JV Co by way of shareholder's loans on an unsecured basis and on normal commercial terms in proportion to its 65%-held equity interest in JV Co constitutes a connected transaction for the Company under Listing Rule 14A.13(2). As the relevant percentage ratios represented by the aggregate amount of contribution by Hutchison Ports Yantian to increase the registered capital of, and any shareholders' loans to, JV Co under the Supplemental JV Contract are more than 0.1% but less than 2.5%, such transaction is exempt from the independent shareholders' approval requirements and is subject to the reporting and announcement requirements set out in Listing Rules 14A.45 to 14A.47.
