ON-MARKET PURCHASES

Dates

Consideration

The total cash consideration for the On-market Purchases is HK\$124,067,300 satisfied or to be satisfied on the respective settlement dates.

REASONS FOR, BENEFITS OF, THE ON-MARKET PURCHASES

Prior to effecting the On-market Purchases, the Company and its wholly owned subsidiaries were beneficial owners, directly and indirectly, of approximately 49.75% of HTIL Shares in issue. The Directors consider it an opportune time to further increase the Company's investment in HTIL, which is one of the best capitalised telecom companies in the region and is strategically and financially well positioned to take up new opportunities and to capture growth opportunity in certain of their existing markets. The Directors consider the terms of the On-market Purchases, which were all conducted in the open market through the Stock Exchange, to be on normal commercial terms, fair and reasonable and in the interests of the Company and its shareholders as a whole.

DISCLOSEABLE TRANSACTION

Since the On-market Purchases result in HTIL becoming a subsidiary of the Company, applying the relevant percentage ratios resulting from the calculations set out in Listing Rule 14.07, they constitute a discloseable transaction for the Company under the Listing Rules. A circular providing further details on the On-market Purchases will be despatched to the shareholders of the Company as soon as reasonably practicable.
