CHARACTERISTICS OF GEM

GEM has been positioned as a market designed to accommodate companies to which a high investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The new English name of the Company will take effect from the date of entry of the same on the register maintained by the Registrar of Companies in Bermuda in place of the existing English name. The existing certificates in issue bearing the present name of the Company shall, after the Change of Company Name becoming effective, continue to be evidence of title to such securities and will continue to be valid for trading, settlement, and registration purposes. There will not be any arrangement for exchange of the existing share certificates. Once the Change of Company Name has become effective, new share certificates will be issued under the new name of the Company.
