The Directors have considered various ways of raising funds in the capital market and consider that the issue of the Convertible Bonds is an appropriate means of raising additional capital for the Company since (i) they will not have an immediate dilution effect on the shareholding of the existing Shareholders; and (ii) if the conversion rights attaching to the Convertible Bonds are exercised, the shareholder base of the Company will be enlarged and the financial position of the Group will be improved for establishing and strengthening the existing and future business of the Group.
