CHAIRMAN'S STATEMENT AND MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

To conclude, the Group recorded a growth in operation performances for the first half-year of 2015 as compared to the corresponding period in 2014.

The Group's rental income in Hong Kong remain relatively stable, while the Group's investments in securities also provide profits to the Group. The Group's unaudited consolidated profit after tax for the six months ended 30 June 2015 is higher (approximately 342%) than that of the corresponding period in 2014.

During the period under reporting, the Group recorded a net profit of approximately HK\$64 million (2014: HK\$15 million).

PROPERTY INVESTMENT

The Group's investment properties in Hong Kong mainly comprise of office, industrial and residential units. The Group's investment property portfolio contributed stable rental revenue of approximately HK\$2 million for the six months ended 30 June 2015 (2014: HK\$2 million).

FINANCIAL INVESTMENTS

The stock market improved in the first half of 2015 due to improvements of the US economy and stimulative economic policies from the Chinese government also influence the Chinese and Hong Kong stocks market, particular in April 2015. These lead to equity investments (stocks) held by the Group to record fair value gains for the six months ended 30 June 2015.

As of 30 June 2015, the Group holds around HK\$376 million of equity investments and around HK\$63 million of available-for-sale investments. The Group's equity investments recorded a net fair value gain of approximately HK\$60 million when marking the investment portfolios to market valuation as of 30 June 2015, along with dividend income of approximately HK\$3 million. The available-for-sale listed debt investments recorded a net fair value loss of approximately HK\$3 million when marking to market valuation as of 30 June 2015, while contribute interest income of approximately HK\$4 million.

FOREIGN CURRENCY EXPOSURE

The Group's monetary assets, liabilities and transactions are mainly denominated in Renminbi, Hong Kong dollar and United States dollar. Since Hong Kong dollar is pegged to United Sates dollar and the exchange rate of Renminbi to Hong Kong dollar was relatively stable during the period, the Group's exposure to the potential foreign currency risk is relatively limited. However, any permanent or significant changes in Renminbi against Hong Kong dollar may have possible impact on the Group's results and financial positions.

As of 30 June 2015, the Group has not entered into any financial instrument for hedging purpose. The Group will continue to monitor foreign exchange exposure and will consider hedging such exposure to minimize exchange risk should the need arise.

LIQUIDITY AND FINANCIAL RESOURCES

The Group generally finances its operations with internally generated cash flows and banking facilities provided by principal bankers in Hong Kong. In order to preserve liquidity and enhance interest yields, liquid assets were maintained in the form of highly liquid equity investments and debt investments of approximately HK\$439 million (as of 31 December 2014: HK\$370 million) as of 30 June 2015. The Group's cash and cash equivalents as of 30 June 2015 amounted to approximately HK\$88 million (as of 31 December 2014: HK\$88 million (as of 31 December 2014: HK\$88 million).

As of 30 June 2015, the Group had total bank and other borrowings amounting to approximately HK\$10 million (as of 31 December 2014: HK\$13 million) which were secured by legal charges on certain investment properties in Hong Kong and certain equity investments and available-for-sale investments. Taking into account the total liquid assets of approximately HK\$537 million and total interest-bearing bank and other borrowings of approximately HK\$10 million, the Group was debt-free as at 30 June 2015.

EMPLOYEES AND REMUNERATION POLICY

As of 30 June 2015, the Group had approximately 10 employees in Hong Kong.

The remuneration packages of the Group's employees are mainly based on their performance, experience and market conditions. In addition to the basic salaries, the Group also provides staff benefits including discretionary bonus, provident fund and tuition/training subsidies.

PROSPECT

It is likely that the US Federal Reserve will start increasing the interest rate in year 2015. As Hong Kong dollar is pegged to the US dollar, the increase in interest rate may exert pressure on price on equity investments and available-for-sale investments held by the Group, particular in high-yield equity investments and long-term debt instruments. Besides, the potential fluctuations in Chinese economy may have a significant impact on Hong Kong's rental market.

Despite of Hong Kong government's strengthening of the control of properties market, property price records increases. On 27 February 2015, the Hong Kong Monetary Authority introduced new measures in relation to property mortgage loans for residential properties as a response to the renewed signs of overheating in the property market, particularly the small-sized residential units. It is likely that these control measures will not be withdrawn in the near term. Along with the conditions for potential interest rate increase in 2015, investment properties in Hong Kong held by the Group might not be able to record rapid increase in market value as compared to previous years.

The worldwide economy (especially Chinese and Hong Kong's economy) is performing more volatile, with regard to uncertainties brought by policy-driven markets. The Group will adopt its usual prudent capital and funding management to meet the challenges ahead, while strengthening the rental and property development business, and seizing further investment opportunities.
