Phoenix New Media Reports First Quarter 2020 Unaudited Financial Results

Live Conference Call to be Held at 9:00 PM U.S. Eastern Time on May 11, 2020

BEIJING, China, May 12, 2020 — Phoenix New Media Limited (NYSE: FENG) ("Phoenix New Media", "ifeng" or the "Company"), a leading new media company in China, today announced its unaudited financial results in the first quarter ended March 31, 2020.

Mr. Shuang Liu, CEO of Phoenix New Media, commented, "As the COVID-19 pandemic swept the globe, we continued to leverage our superior content capabilities and further streamline our operating efficiency. For our news app, we introduced and optimized several innovative features in the first quarter, resulting in a 38% year-over-year boost in user retention rates. On the news front, our team of leading media professionals continued delivering a wealth of highly-differentiated and premium COVID-19 outbreak coverage. Moreover, our vertical content teams also created an abundance of in-depth reports, highlighting such topical areas as the struggles of healthcare workers on the frontlines as well as the tenacity of Chinese entrepreneurs facing the crisis. In recognition of our role as a trusted source of information, we were ranked among the top 10 online media outlets providing the most social value by the State Information Center."

"Notably, as many businesses have opted to adjust their marketing strategies and reduce their advertising budgets amid COVID-19, we have taken active measures to refine our cost structures, further enhance our operating efficiency and decisively reduce spending on user acquisition channels with low returns, successfully reducing traffic acquisition costs in the quarter by close to 50% on a year-over-year basis. Despite the near-term headwinds in online advertising, we believe that our pervasive brand influence, distinguished reputation, and loyal user base will remain appealing to those advertisers seeking productive sales leads and attractive ROIs going forward. As the world gradually reopens for business, we expect that our content leadership, strong advertising value proposition, new business initiatives, and prudent financial management will drive our return to profitability and help to generate sustainable growth over the long term."

Mr. Edward Lu, CFO of Phoenix New Media, further stated, "Despite facing industry-wide challenges, our first quarter performance was better than our previous expectations. We continued to implement initiatives to refine our cost and expense structures, which enabled us to increase our margins. During the quarter, we delivered a 38.3% year-over-year increase in gross profit. In light of the COVID-19 outbreak, we plan to remain prudent in our resource allocation methodologies. We will also continue to focus on streamlining our operations, bolstering our cash reserves, and prioritizing investments that can both achieve high returns and enhance our growth quality. Importantly, these measures should enable us to weather the current headwinds while further improving our ability to capitalize on those opportunities which will emerge in the post-pandemic period."

First Quarter 2020 Financial Results

REVENUES

Total revenues in the first quarter of 2020 decreased by 3.5% to RMB274.8 million (US\$38.8 million) from RMB284.9 million in the same period of 2019. The Company had consolidated the revenues of RMB59.5 million (US\$8.4 million) in the first quarter of 2020 from Beijing Fenghuang Tianbo Network Technology Co., Ltd. ("Tianbo"), which has been consolidated starting from April 1, 2019. The Company's total revenues excluding those from Tianbo in the first quarter of 2020 decreased by 24.4% due to the negative impact of COVID-19 outbreak and intensified industry competitions.

Net advertising revenues in the first quarter of 2020 increased by 5.5% to RMB227.9 million (US\$32.2 million) from RMB216.0 million in the same period of 2019. The increase was primarily attributable to the consolidation of advertising revenues from Tianbo. The Company's net advertising revenues excluding those from Tianbo in the first quarter of 2020 decreased by 20.9% due to the negative impact of COVID-19 outbreak and intensified industry competitions.

Paid services revenues¹ in the first quarter of 2020 decreased by 31.9% to RMB46.9 million (US\$6.6 million) from RMB68.9 million in the same period of 2019. Revenues from paid contents in the first quarter of 2020 decreased by 32.0% to RMB36.0 million (US\$5.1 million) from RMB52.9 million in the same period of 2019, mainly due to the market condition and the tightening of rules and regulations on digital reading. Revenues from games in the first quarter of 2020 decreased by 95.6% to RMB02 million (US\$0.03 million) from RMB3.1 million in the same period of 2019 as the Company closed some game related business in December 2019. Revenues from MVAS in the first quarter of 2020 decreased by 56.6% to RMB3.4 million (US\$0.5 million) from RMB7.9 million in the same period of 2019 mainly resulting from the decline in users' demand for services provided through telecom operators in China. Revenues from others in the first quarter of 2020 increased by 49.3% to RMB7.3 million (US\$1.0 million) from RMB5.0 million in the same period of 2019, which was mainly caused by the increase in revenues from E-commerce and online real estate related services.

COST OF REVENUES

Paid services revenues comprise of (i) revenues from paid contents, which includes digital reading, audio books, paid videos, and other content-related sales activities, (ii) revenues from games, which includes web-based games and mobile games, (iii) revenues from MVAS, and (iv) revenues from others.

Cost of revenues in the first quarter of 2020 decreased by 28.6% to RMB127.1 million (US\$17.9 million) from RMB178.2 million in the same period of 2019. The decrease in cost of revenues was mainly due to the following:

- Content and operational costs in the first quarter of 2020 decreased by 33.8% to RMB97.3 million (US\$13.7 million) from RMB147.0 million in the same period of 2019, mainly due to the decrease in IP production costs as the Company had fewer IP projects in the first quarter of 2020 and has taken strict cost control measures to enhance its operating efficiency in 2020.
- Revenue sharing fees to telecom operators and channel partners in the first quarter of 2020 decreased by 17.2% to RMB14.3 million (US\$2.0 million) from RMB17.3 million in the same period of 2019, primarily attributable to the decrease in the MVAS revenues.

The decrease was partially offset by the following:

Bandwidth costs in the first quarter of 2020 increased slightly to RMB15.5 million (US\$2.2 million) from RMB13.9 million in the same period of 2019.

Share-based compensation included in the content and operational costs in the first quarter of 2020 increased slightly to RMB1.6 million (US\$0.2 million) from RMB1.4 million in the same period of 2019.

GROSS PROFIT

Gross profit in the first quarter of 2020 increased by 38.3% to RMB147.7 million (US\$20.9 million) from RMB106.7 million in the same period of 2019. Gross margin in the first quarter of 2020 increased to 53.7% from 37.5% in the same period of 2019, primarily attributable to the decrease in IP production costs as well as the Company's strict cost control measures taken to enhance its operating efficiency in 2020, as explained above.

To supplement the financial measures presented in accordance with the United States Generally Accepted Accounting Principles ("GAAP"), the Company has presented certain non-GAAP financial measures in this press release, which excluded the impact of certain reconciling items as stated in the "Use of Non-GAAP Financial Measures" section below. The related reconciliations to GAAP financial measures are presented in the accompanying "Reconciliations of Non-GAAP Results of Operation Measures to the Nearest Comparable GAAP Measures."

Non-GAAP gross margin in the first quarter of 2020, which excluded share-based compensation, increased to 54.3% from 38.0% in the same period of 2019.

OPERATING EXPENSES AND LOSS FROM OPERATIONS

Total operating expenses in the first quarter of 2020 increased by 15.2% to RMB263.7 million (US\$37.2 million) from RMB228.9 million in the same period of 2019, primarily attributable to the consolidation of operating expenses from Tianbo of RMB42.3 million (US\$6.0 million) in the first quarter of 2020, impairment of goodwill for the reporting unit of Beijing Yitian Xindong Network Technology Co., Ltd. ("Yitian Xindong" or "Tadu") recognized in the first quarter of 2020 and the increase in bad debt expenses caused by consolidation of Tianbo and the slower collection of receivables as a result of the COVID-19 outbreak, which was partially offset by the Company's effective cost control efforts as mentioned above. The Company recognized an impairment of goodwill of RMB39.4 million (US\$5.6 million) for the Tadu reporting unit in the first quarter of 2020, mainly caused by the negative impact on Tadu from both the COVID-19 outbreak in 2020 and the ongoing disagreements between the other shareholder of Tadu and the Company. The goodwill impairment loss was determined by quantitatively comparing the fair value of the Tadu reporting unit to its carrying amounts, with the fair value of the Tadu reporting unit determined based on the discounted cash flows of Tadu by applying multiple probability weighted approach for the impact of the COVID-19 outbreak. Share assect compensation included in operating expenses in the first quarter of 2020 was RMB3.3 million (US\$0.5 million), compared to RMB2.5 million in the same period of 2019, which was mainly caused by those options granted by the Company in July 2019.

Loss from operations in the first quarter of 2020 was RMB116.0 million (US\$16.4 million), compared to RMB122.1 million in the same period of 2019. Operating margin in the first quarter of 2020 was negative 42.2%, compared to negative 42.9% in the same period of 2019.

Non-GAAP loss from operations in the first quarter of 2020, which excluded share-based compensation and impairment of goodwill, was RMB71.7 million (US\$10.1 million), compared to RMB118.1 million in the same period of 2019.
