### **BUSINESS REVIEW**

Total turnover for the Group (including share of associates) for the year ended 31 March 2007 was HK\$132.3 million, compared to HK\$142.1 million in 2006. The 6.9% decrease was due mainly to the disposal of the Group's interest in Siam Food Products Company Limited ("Siam Food") at the end of the previous fiscal year and as a result we will no longer include turnover from Siam Food as an associated company. But the loss of turnover from Siam Food is partially made up by the HK\$51.4 million special dividend contribution from the Group's interest in Asia Financial Holdings Ltd. ("AFH").

For the 12 months period ended 31 March 2007, net profit for the Group was HK\$190.2 million, a 46.4% gain from the same period in 2006. The large increase in profit was due mainly to the above mentioned special dividend contribution from AFH, continued increase in fair value of investment properties, as well as strong performance of the Group's businesses such as the Aisawan Resort & Spa.

# **Property Investments**

The Pioneer Building at Kwun Tong, Kowloon contributed rental revenues of HK\$18.6 million (2006: HK\$19.3 million) while continuing to enjoy a high occupancy rate of 94% as at the end of the period. In addition, the property contributed HK\$26.0 million in fair value increase from revaluation (2006: HK\$54.0 million).

In May 2006, the Group purchased a company which owns strata units of total GFA 29,540 sq.ft. in Morrison Plaza in Wanchai, Hong Kong. Subsequently, the Group disposed of 2 vacant units of GFA 8,560 sq.ft. and 2 carparks for HK\$33.8 million. The acquisition together with the disposal recorded a gain of HK\$10.6 million (including negative goodwill). Since the Group took over the property, the average rental rate of the units has increased by 79% to HK\$14.3 per sq.ft.

The Group owns a total of 63,840 sq.ft. in Maximall, City Garden, North Point. Revenues from this asset were HK\$5.8 million for the period.

The Group has a joint venture with Morgan Stanley Real Estate Funds and PamFleet Investments Limited which owns the 217,625 sq.ft. 68 Yee Woo Street in Causeway Bay and the 640,000 sq.ft. KCP in Kowloon City. The renovation of KCP was completed in November 2006 and both properties are being leased satisfactorily.

As reported previously, the Group entered into a joint venture with Morgan Stanley Real Estate Funds and Wachovia Development Corporation to acquire a 22-storey, 437,000 sq.ft. commercial building in Macau. The renovation program for the building was completed as planned in the second quarter of 2006 and the building has been renamed AIA Tower Macau, with U.S. insurance company AIA as the anchor tenant. For the period, this project contributed HK\$16.6 million to the Group as an associated company mainly due to increase in property valuation to HK\$956 million, about 59% increase compared to its acquisition cost.

As an associated company, the Shanghai K. Wah Centre contributed HK\$60.9 million in profits to the Group, out of which HK\$72.0 million was from fair value increase in property value. The property has also performed well by achieving full occupancy.

The Group is a strategic partner in Gateway China Fund I (the "Fund"), a US\$198.9 million real estate fund focused on China, Hong Kong and Macau. Separately through a 50% owned associated company, the Group has also committed US\$5.0 million of capital to the Fund, which represents approximately 2.5% of the Fund's capital. As at the reporting period, the Fund has committed approximately 84% of its capital.

During the reporting period, the Group has acquired 8.8% of Japan Opportunities Fund Limited ("JOF") for US\$2.6 million. JOF was established in 2002 to invest in a portfolio of residential buildings in regional cities in Japan. On 31 December 2006, the portfolio consisted of 23 rental properties in Sapporo and Fukuoka with a total valuation of Japanese Yen 7.6 billion conducted by independent appraisers.

# **Investments in Hotel Industry**

For the year ended 31 December 2006, the Aisawan Resort & Spa in Pattaya, Thailand had revenues of Baht 300.9 million, compared to Baht 251.8 million in 2005. Gross operating profits for the same period was Baht 164.9 million (2005: Baht 128.6 million). The strong growth was achieved despite the closure of the entire garden villa wing (consisting of about 25% of total rooms) to major refurbishment and construction of three new swimming pools during the months of May to September in 2006. The renovated garden villa wing was reopened under the name "Pool Lanai" by the end of October 2006. During the strong high season, January to March 2007, when the resort was in full operation, the revenue grew by 26% and the gross operating profits showed an increase of 36% year on year to Baht 94.2 million. Through an associated company, Aisawan Resort & Spa contributed HK\$13.9 million to the Group during the period (2006: HK\$10.9 million).

The Group's associated company Pioneer iNetwork Limited owns 10.3% of Dusit Thani Public Company Limited ("Dusit Thani"), the leading owner and operator of hotels in Thailand. During the 12 months ended 31 December 2006, Dusit Thani had revenues of Baht 3.22 billion (2005: Baht 2.83 billion) and net income of Baht 221.2 million (2005: Baht 245.1 million). The increase in revenues was due mainly to positive business growth and the completion of renovation programs at most of the company's hotels (with the exception of the Manila property) while the decrease in net income was attributed to higher loan interest and income tax for the year 2006.

### **Other Investments**

In October 2006, the Group received from AFH a special dividend of HK\$51.4 million through its 4.1% shareholding in the company. The special dividend was a result of the sale by AFH of its wholly owned subsidiary Asia Commercial Bank in May 2006.

# PROSPECTS

The performance of the Aisawan Resort & Spa in the first quarter of 2007 has been strong, with revenue rising 26% year on year and gross operating profits rising 36%. However, the development of the Northpoint condominium project immediately adjacent to the resort commenced in April 2007, which unfortunately will result in significant disturbance to resort guests. In addition, the strength of the Thai Baht (16.7% gain against US dollar during the period) and the instability of Thailand's political situation following the military led coup in September 2006 have led to a slow down in resorts business in Thailand since the end of the tourism high season in March. As such, we believe that the pace of growth for the resort will be slower for the remainder of the year. On the other hand, we continue to be optimistic about the hospitality business in Thailand and believe that these negative macro factors may provide good investment opportunities in the sector.

In the coming year, the Group continues to pursue attractive investment opportunities in the property and hotel sectors in the region.
