## **SUMMARY OF POWER GENERATION FOR MAY 2021**

This voluntary announcement is made by Beijing Enterprises Clean Energy Group Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) to keep the shareholders and potential investors of the Company informed of the latest business development of the Group.

The board (the “**Board**”) of directors (the “**Directors**”) of the Company announces that, according to the Company’s preliminary statistics currently available, the power generation of the Group on a consolidated basis amounted to approximately 504,650 megawatt-hour (“**MWh**”) for May 2021, representing an increase of approximately 27.3% compared with the corresponding period of 2020. For the five months ended 31 May 2021 (the “**Period**”), the aggregate power generation of the Group amounted to approximately 2,033,267 MWh, representing an increase of approximately 26% compared with the corresponding period of 2020.

The operating power generation\* of the projects held and/or managed by the Group, the associates and the joint ventures of the Group for May 2021 was approximately 627,603 MWh, representing an increase of approximately 22.5% compared with the corresponding period of 2020. For the Period, the aggregate operating power generation of the projects held and/or managed by the Group, the associates and the joint ventures of the Group amounted to approximately 2,556,863 MWh, representing an increase of approximately 23% compared with the corresponding period of 2020.

\* *The operating power generation included (i) the power generation of the projects held by the Group, the associates and the joint ventures of the Group; and (ii) the power generation of the projects managed by the Group through the provision of entrusted management services.*

Among them, details of the power generation of the Group's centralised photovoltaic power plants (including those held by the joint ventures of the Group) and wind power plants are set out as follows:

Location	Approximate power generation for May 2021 (MWh)	Approximate power generation for May 2020 (MWh)	Year-on-year percentage change (%)	Approximate aggregate power generation for the Period (MWh)	Approximate aggregate power generation for the corresponding period of 2020 (MWh)	Year-on-year percentage change (%)
<b>Centralised photovoltaic power plants</b>
