SUMMARY OF POWER GENERATION FOR DECEMBER 2021

This voluntary announcement is made by Beijing Enterprises Clean Energy Group Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) to keep the shareholders and potential investors of the Company informed of the latest business development of the Group.

The board (the “**Board**”) of directors (the “**Directors**”) of the Company announces that, according to the Company’s preliminary statistics currently available, the power generation of the Group on a consolidated basis amounted to approximately 374,685 megawatt-hour (“**MWh**”) for December 2021, representing an increase of approximately 30.3% compared with the corresponding period of 2020. For the year ended 31 December 2021 (the “**Year**”), the aggregate power generation of the Group amounted to approximately 4,774,654 MWh, representing an increase of approximately 26% compared with the corresponding period of 2020.

The operating power generation* of the projects held and/or managed by the Group, the associates and the joint ventures of the Group for December 2021 was approximately 461,967 MWh, representing an increase of approximately 32.4% compared with the corresponding period of 2020. For the Year, the aggregate operating power generation of the projects held and/or managed by the Group, the associates and the joint ventures of the Group amounted to approximately 5,788,226 MWh, representing an increase of approximately 19.5% compared with the corresponding period of 2020.

* *The operating power generation included (i) the power generation of the projects held by the Group, the associates and the joint ventures of the Group; and (ii) the power generation of the projects managed by the Group through the provision of entrusted management services.*

Among them, details of the power generation of the Group's centralised photovoltaic power plants (including those held by the joint ventures of the Group) and wind power plants are set out as follows:

Location	Approximate power generation for December 2021 (MWh)	Approximate power generation for December 2020 (MWh)	Year-on-year percentage change (%)	Approximate aggregate power generation for the Year (MWh)	Approximate aggregate power generation for the corresponding period of 2020 (MWh)	Year-on-year percentage change (%)
Centralised photovoltaic power plants
