### NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL INFORMATION

#### 1. BASIS OF PREPARATION AND CHANGE IN ACCOUNTING POLICIES

These unaudited condensed interim consolidated financial information have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the applicable requirements of Appendix 16 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The unaudited condensed interim consolidated financial information should be read in conjunction with the 2021 annual financial statements, which have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS").

The accounting policies and methods of computation used in the preparation of these condensed interim consolidated financial information are consistent with those used in the annual financial statements for the year ended 31 March 2021.

In the period, the Group has adopted all the new and amended Hong Kong Financial Reporting Standards ("HKFRSs") issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 April 2021. HKFRSs comprise Hong Kong Financial Reporting Standards ("HKFRS"); Hong Kong Accounting Standards ("HKAS"); and Interpretations. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

A number of new or amended standards are effective from 1 April 2021 but they do not have a material effect on the Group's unaudited condensed consolidated financial statements.

#### 2. REVENUE AND SEGMENT INFORMATION

The chief operating decision-makers have been identified as the executive directors of the Company. The executive directors review the Group's financial information mainly from business nature and geographical perspectives. From a perspective on business nature, the Group has two reportable segments, namely watch retail and watch wholesale trading segments. From a geographical perspective, management mainly assesses the performance of watch retail operations in (i) Hong Kong, Macau and Mainland China and (ii) the rest of Asia.

Revenue represents sales of goods from watch retail segment and watch wholesale trading segment. Sales between operating segments are carried out on terms equivalent to those prevailing in arm's length transactions. The executive directors assess the performance of the operating segments based on a measure of adjusted earnings before interest and tax ("EBIT"). This measurement basis excludes net corporate expenses. Net corporate expenses mainly represent corporate staff costs and provision for senior management bonus.

## MANAGEMENT DISCUSSION AND ANALYSIS

- Group Turnover slightly fell by 2.8% to HK\$306.2 million
- Loss Attributable to Equity Holders of the Company of HK\$49.3 million

During six months ended 30 September 2021 ("1H 2021" or "Period"), Group turnover decreased by 2.8% to HK\$306.2 million (six months ended 30 September 2020 ("1H 2020"): HK\$315.1 million), representing the cumulative outcome of improved sales in Hong Kong and Macau, while the sales in Southeast Asia regions and mainland China decreased. Such decreases were mainly due to social distancing measures, travel restrictions and nationwide lockdowns. The Group have seen moderate recovery in sales in Southeast Asia regions since September 2021, and the retail sales in Hong Kong have recorded a growth of around 21% y-o-y in October 2021.

The Group reported a loss attributable to equity holders of HK\$49.3 million in 1H 2021(1H 2020: HK\$50.5 million). Various government subsidies of approximately HK\$4.6 million (1H 2020: HK\$22.9 million) were received in our operating regions during the Period.

The Group has maintained strict discipline in containing operating costs with selling expenses fell by 12% y-o-y.

CAPEX has been well contained at HK\$5.1 million during the Period. Shop rationalisation strategy had been in place with the closing down of underperforming shops making the numbers fell by 10% y-o-y optimizing existing shops productivity and cost structure.

Group Inventory stood at HK\$281.1 million as at 30 September 2021, increased by 5.2% comparing to that at 31 March 2021 of HK\$267.3 million. During 1H 2021, national travel restrictions and mandatory quarantines have been implemented by the governments of some of our operating regions, thus impacting our inventory turnover in certain regions. Group inventory would have declined by 13.2% comparing to that as at September 2020 of HK\$346.2 million if excluding the impact of stock provision expense recorded in the year ended 31 March 2021 of HK\$19.3 million for slow-moving watch movements. Continual inventory control and discipline in stock procurement measures are in place and proper product-mix of inventory are closely monitored.

### **INTERIM DIVIDEND**

The Board does not recommend the payment of an interim dividend for the six months ended 30 September 2021 (2020: Nil per ordinary share).

## **CITY CHAIN GROUP**

- City Chain Group turnover down by 8.2%
- City Chain Group loss before interest and tax (LBIT) of HK\$39.3 million

The City Chain Group operates around 147 stores in Hong Kong, Macau, Mainland China (the "Greater China"), Singapore, Thailand and Malaysia together with online stores for "City Chain" and "Solvil et Titus".

### **Greater China**

Turnover for CITY CHAIN operations in Greater China in 1H 2021 was HK\$122.2 million (1H 2020: HK\$120.9 million), and a loss before interest and tax (LBIT) of HK\$28.0 million was recorded (1H 2020: HK\$24.2 million), which have taken into account of the following factors:

- As the right-of-use assets under HKFRS 16 Leases related certain retail stores were fully impaired in previous financial years, no depreciation expense of these right-of-use assets was recorded in 1H 2021. The depreciation expense in 1H 2021 would be HK\$19.7 million (1H 2020: HK\$45.3 million) if these right-of-use assets were not impaired previously;
- An impairment loss of HK\$10.2 million being the right-of-use assets of the retail stores recorded (1H 2020: HK\$20.1 million);
- No government subsidy income was received in Greater China during the Period (1H 2020: HK\$11.5 million income).

If the above factors are not taken into account, LBIT would narrow to HK\$37.5 million (1H 2020: HK\$60.9 million).

During 1H 2021, retail sales in Hong Kong recorded a double-digit growth driven by the momentum brought by the Hong Kong Government's consumption voucher scheme with same store sales growth of about 30% during the Period. Our retail operation in Macau also recorded a profit in 1H 2021 despite there were travel restrictions in August 2021 which halting tourist arrivals. However, retail sales performance in mainland China has been affected by travel restrictions in certain months during the Period.

On a positive note, our e-commerce business in Hong Kong has delivered satisfactory results with strong turnover growth of 35% y-o-y and achieved profitable results in 1H 2021. The Group have also continued to invest and expand our mainland China e-commerce business to enhance our market threshold.

# Southeast Asia

Our operations in Southeast Asia were substantially impacted by COVID-19 during the Period. Various extents of travel restrictions were implemented within the regions since May 2021 which dented traffic in shopping malls. As a result, sales declined by 20.7% y-o-y to HK\$71.2 million (1H 2020: HK\$89.8 million) and LBIT of HK\$11.3 million (1H 2020: LBIT HK\$3.5 million) was reported.

Amid the intermittent lockdowns and travel restrictions situation, our teams have devoted committed efforts in our e-commerce platforms to deploy attractive products for local consumers. E-commerce business in Southeast Asia regions developed satisfactorily during 1H 2021 with sales growth by approximately 180% y-o-y. Moreover, consumers are set to unleash their purchasing power after prolonged period of lockdowns. Sales have gradually recovered after relaxation of government restrictions in early September. The sales of October 2021 reported a mild y-o-y growth, especially strong recovery in Malaysia. Our teams shall continue to negotiate for rental concessions and carry out other cost containment measures in order to mitigate the operating loss.

# SUPPLY CHAIN MANAGEMENT AND WHOLESALE TRADING

Turnover of the Group's watch supply chain and wholesale trading units have increased by 8.0% to HK\$112.8 million (1H 2020: HK\$104.4 million) and continued to improve operational efficiencies, a profit on an exchange neutral basis of HK\$19.2 million (1H 2020: HK\$16.4 million) was reported.

As the sole distributor for the brands "GRAND SEIKO" and "SEIKO" watches in Hong Kong, Macau, Singapore, Brunei and Malaysia, the Group's wholesale unit has launched various marketing campaigns, which were well received, together with prompt service support that has promoted good sell-through rate to retailers.

# **GROUP OUTLOOK**

Despite there is a sign of gradual recovery of retail performance in Hong Kong and Southeast Asia in recent months, the Group maintain the prudent view on the short run outlook given the uncertainties in post-pandemic development and magnitude of economic recovery in our operating regions, and remain judicious in taking various measures in containing operating costs and capital expenditures, while endeavouring to achieve sustainable business development. Given the satisfactory performance in our e-commerce development in various regions, the Group will continue to invest in this growing segment to fully realize the sharing of resources to integrate online and offline transaction channels.
