## **PROSPECTS**

Stepping into 2021, COVID-19 has been relatively under control in various parts of the world, through still with some challenges. The economy has been improving on a global basis as well as the gaining pace on its way to gradual resumption in international trade, investment and manufacturing activities. Under such optimistic business environment, the Group has achieved a promising performance under the period of review by strengthening production and operation management, optimizing production capacity and efficiency and conducting continuous inspection.

Economies of scale have been achieved since the commencement of new processing plant last year. Following the modernization and automation of operation, the production has reached its remarkable record in 2021. The Group is confident that the production volume can be constantly increased in the foreseeable future.

Having said that, the profitability of the Group is highly dependent on the gold price in domestic and international markets. The market prices of gold (and other precious metals) are correlated to the global economic environment and stability. During the period under review, although the global economic is recovering which lowers risk aversion sentiment, the heated inflation and constant challenges posed by the COVID-19 viruses offsets such effect. Therefore, gold will continue to serve as a popular reserve asset among the public. The management of the Group will also closely follow the market trends in commodity prices and take necessary actions to mitigate any potential risks.

Further, the Group believes that corporate social responsibility is highly correlated to its business performance. In line with such belief, the Group will increase safety and environmental investment as well as promoting the concept of sustainable development. “Green mine” will be promoted so as to create an environment-friendly workplace and to reduce pollutants and wastes. Workshops and trainings have also been provided during the period under review.

Looking forward, the Group would proactively seize the opportunities in expanding the gold mining portfolio and accelerate the pace of modern mining and processing.

The Board believes that good corporate governance is crucial to enhance the performance of the Group and to safeguard the interests of the shareholders of the Company.

## **COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE OF THE LISTING RULES**

The Company has complied with the code provisions (“Code Provision(s)”) of the Corporate Governance Code (the “CG Code”) as set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing Rules”) during the six months ended 30 June 2021, except for certain deviations as specified and explained below with considered reasons for such deviations.

1. Under Code Provision A.2.1 of the CG Code, the roles of chairman and chief executive officer should be separated and should not be performed by the same individual.

Since the resignation of Dr. You Xian Sheng as the chairman and the executive director of the Company (“Director”) on 31 January 2014, the Company has not appointed a new chairman of the Board (the “Chairman”). Until the appointment of the new Chairman, the Board collectively focuses on the overall strategic planning and development of the Group and effective functioning of the Board.

Since the resignation of Mr. Wang Hui as the chief executive officer of the Company (the “CEO”) on 1 June 2016, the Company has not appointed a new CEO. Until the appointment of the new CEO, the executive Directors, possessing extensive relevant industry knowledge, collectively oversee the day-to-day management of the business and operations of the Group.

The Board believes that this arrangement still enables the Company to make and implement decisions promptly, and thus achieve the Company’s objectives efficiently and effectively in response to the changing environment.

The Board will review the current situation from time to time and shall make necessary arrangements when the Board considers appropriate.
