

Chairman's Statement

With “Love China and For China” firmly in our mind, The United Laboratories has developed with a strong sense of gratefulness and aspires to make contribution to the country by developing the industry. With great social attention and support, we achieved remarkable success and received widespread trust and acclaim. In future, we will continue to seek development, value, wealth and benefits to share with our customers, shareholders, staff and society. In the presence of the deepened medical and health system reform and continued integrated optimization in medicine circulation, we realize that we are shouldering heavy responsibilities. Together with our friends from various sectors, The United Laboratories is looking forward to composing a new chapter for the development of pharmaceutical industry.

Tsoi Hoi Shan
Chairman of the Board

About Us

The United Laboratories was established in Hong Kong in 1990, after over two decades of development, it has evolved into a comprehensive pharmaceutical enterprise integrating R&D, production and sale of medical intermediates, APIs and pharmaceutical preparations. With currently 5 production bases in China, over 10,000 staff and a marketing network that spread throughout both nationally and globally, it has a business network coverage that positions in Hong Kong, serves China and embraces the world. The Group adheres to its corporate culture of “Love China and For China” and is dedicated to integrate environment, society and governance into its daily operations and management. It proactively fulfills its social responsibilities and is committed to the interests of the staff, customers and shareholders in order to achieve optimum benefit and an enduring and sustaining development for the Group.
