BUSINESS AND FINANCIAL HIGHLIGHTS FOR THE THREE-MONTH PERIOD

- Despite traditional slower months for the beginning of the year, in the presence of a major surveillance project at the Galaxy Resort, revenue for the Three-Month Period stood at HK\$58,310,000
- Due to higher salary costs in Macao and the engagement of workforce on short-term engagements to support the major surveillance project at the Galaxy Resort, coupled with the absence of dividends from TTSA, the Group reported net loss of HK\$7,701,000 for the Three-Month Period
- New contracts of over HK\$50,000,000 added to the order book of the Group
- Due to competition. TTSA incurred net loss of HK\$4,124,000 for the Three-Month Period
- Cash and cash equivalents (including pledged bank deposits) and yield-enhanced financial instruments as at 31st March 2014 stood at over HK\$150,000,000
- The Directors do not recommend payment of an interim dividend for the Three-Month Period

Diluted loss per Share	2(b)	Not applicable	(1.06)
Dividends (HK\$)	3	—	—

Notes to the condensed consolidated income statement

1 Income tax expense

Hong Kong profits tax was provided at the rate of 16.5% (three months ended 31st March 2013: 16.5%) on the estimated assessable profit for the Three-Month Period. Taxation on overseas profits was calculated on the estimated assessable profit for the Three-Month Period at the rates of taxation prevailing in the regions in which the Group operated.

2 Loss per Share

(a) Basic

Basic loss per Share was calculated by dividing the loss attributable to owners of the Company by the weighted average number of Shares in issue during the Three-Month Period.

	Three-Month Period HK\$'000	Three months ended 31st March 2013 HK\$'000
Loss attributable to owners of the Company	<u>(6,172)</u>	<u>(6,486)</u>
Weighted average number of Shares in issue (thousands)	<u>613,819</u>	<u>613,819</u>

(b) Diluted

Diluted loss per Share was calculated by adjusting the weighted average number of Shares outstanding to assume conversion of all dilutive potential Shares. No diluted loss per Share for the Three-Month Period was presented as all the Options expired during the year ended 31st December 2013 and there were no outstanding options as at 31st March 2014. As at 31st March 2013, the Company had Options as dilutive potential Shares. A calculation was done to determine the number of Shares that could have been acquired at fair value (determined as the average market Share price of the Shares) based on the monetary value of the subscription rights attached to the outstanding Options. The number of Shares calculated as above was compared with the number of Shares that would have been issued assuming the exercise of the Options. The conversion of all potential Shares arising from the Options would have an anti-dilutive effect on the loss per Share for the three months ended 31st March 2013. Accordingly, diluted loss per Share was identical to basic loss per Share for the three months ended 31st March 2013.

3 Dividends

The Directors do not recommend payment of an interim dividend for the Three-Month Period (three months ended 31st March 2013: nil).

BUSINESS REVIEW

Business in Macao and Hong Kong

The Three-Month Period is a mixed quarter for the Group. Similar to previous years, the initial months of the year continued to be traditional slow for the Group in generating business, especially from the Government of Macao, yet Vodatel Holdings Limited, incorporated in BVI with limited liability and a direct wholly-owned subsidiary of the Company, has been fully engaged in the delivering of the project to design, supply, installation, testing, commissioning and maintenance of the surveillance system at the Galaxy Resort. During the Three-Month Period, in addition to renewing the annual maintenance support services of various projects for the Government of Macao, approaching the latter part of the Three-Month Period, the Group began to witness increasing orders from the Government of Macao and different gaming operators in the areas of surveillance, trunking radio, server and storage systems, data and office networks, firewall and storage, backup, blade server systems and networking infrastructure, adding in over HK\$30,000,000 of contracts to the order book of the Group. Among the orders secured included an order of approximately HK\$3,000,000 from a gaming operator to upgrade its PABX system at their existing hotels and to install new PABX systems at their new hotels that are currently under construction.

TSTSH

TSTSH began the year on a positive footing with approximately HK\$20,000,000 worth of contracts added to its order book. Among the contracts secured included wins from telecommunications service providers in the provinces of Guangdong, Jiangxi, Jiangsu, Shanxi, Shandong and Hubei, municipalities of Shanghai and Chongqing and autonomous region of Inner Mongolia to install various modules of its CNMS and to integrate existing module of CNMS with new customised software applications. Also among the new contracts won is a project from an armed police force in PRC, other than the regions of Hong Kong, Macao and Taiwan, to install the operational control and duty carrying information system of TSTSH, this contract of which worth over HK\$8,000,000.

During 2013, to further expand its market reach, TSTSH entered into a profit-sharing arrangement with a telecommunications service provider in the province of Guangdong. Revenue generated from the deployment of its CNMS at the telecommunications service provider will be based on a profit-sharing model over the total data traffic running over the networks. During the Three-Month Period, approximately HK\$500,000 of income has been generated.

TTSA

During the Three-Month Period, affected by competition, TTSA generated revenue of HK\$91,424,000, with earnings before interest, tax, depreciation and amortisation dropped of HK\$35,044,000 and a net loss of HK\$4,124,000. During the Three-Month Period, TTSA passed the resolution not to pay out any dividends to its shareholders during 2014 against its operating results of 2013. Such decision is made as a means to ensure that TTSA maintains adequate financial and operational flexibility to defend its competitive market positioning against the competition from the two new operators.

Financial Review

In view of the traditional slower months witnessed during the beginning of the year yet attributable to the booking of partial revenue in relation to the major surveillance project at the Galaxy Resort, the Group generated revenue of HK\$58,310,000 for the Three-Month Period, or approximately 40.80% increase over the three months of the preceding period. With gross profit margin improving slightly from 23.20% of the preceding period to 24.69% for the Three-Month Period, the Group registered a hike of approximately 49.83% with gross profit reaching HK\$14,397,000. Faced with high salary costs in order to retain talents in Macao and the need to add in workforce on short-term engagements to cope with the works to complete the major surveillance project at the Galaxy Resort, total selling, marketing and administrative expenses were pushed by almost HK\$4,000,000, or over 20%, to HK\$22,651,000. Coupled with continued suspension of dividends from TTSA, the Group reported net loss of HK\$7,701,000 for the Three-Month Period.

The Group continued to enjoy a strong and healthy capital structure. Due to strong recoverability of its trade receivables, despite the need of working capital to support the major surveillance project at the Galaxy Resort, as at 31st March 2014, the Group has cash balances (including pledged bank deposits) and yield-enhanced financial instruments of over HK\$150,000,000, or approximately HK\$0.24 per Share.
