4 Information concerning the classification of Options

Options granted to Directors, employees and a consultant under the Scheme were considered to be potential Shares. They would have been included in the determination of diluted loss per Share to the extent to which they were dilutive. Options were not included in the determination of basic loss per Share.

The 51,376,000 Options granted on 26th September 2016 were not included in the calculation of diluted loss per Share because they were antidilutive for the Six-Month Period. These Options could potentially dilute basic loss per Share in the future.
