

CHARACTERISTICS OF GEM

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Exchange. Listed companies are not generally required to issue paid announcements in Gazetted Newspapers. Accordingly, prospective investors should note that they need to have access to the GEM Website in order to obtain up-to-date information on GEM-listed issuers.

The Exchange takes no responsibility for the contents of this document, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

This document, for which the Directors collectively and individually accept full responsibility, includes particulars given in compliance with the GEM Listing Rules for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: 1. the information contained in this document is accurate and complete in all material respects and not misleading; 2. there are no other matters the omission of which would make any statement in the document misleading; and 3. all opinions expressed in this document have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

NOTES:

1. Principal accounting policies

The accounting policies adopted are consistent with those followed in the preparation of the accounts of the Group for the year ended 30th June, 2003.

2. Deemed disposal gain

On 19th January, 2004, the shares of MIHL, previously a wholly-owned subsidiary of the Company, were listed on GEM. As a result, the shareholding of the Company in MIHL has been diluted to 61.05%, which resulted in a gain of HK\$10,769,000 arising from the deemed disposal.

3. Taxation

No provision for the profits tax of Hong Kong has been made in the accounts, as the Group does not have any estimated assessable Hong Kong profits for the periods under review.

The complimentary profits tax of Macao has been calculated at 15.75% on the estimated assessable profits of Subsidiaries operating in Macao for the periods under review.

The profits tax in Mainland China has been calculated at 33% on the estimated assessable profits of Subsidiaries operating in Mainland China.

Taxation on overseas profits has been calculated on the estimated assessable profit for the period at the rates of taxation prevailing in the countries in which the Subsidiaries of the Company operate.

The amount of taxation charged to the consolidated profit and loss account represents:

	Three-Month Period HK\$'000	Three months ended 30th September, 2003 HK\$'000	Fifteen-Month Period HK\$'000	Twelve months ended 30th June, 2003 HK\$'000

	<u>(829)</u>	<u>209</u>	<u>(41)</u>	<u>2,658</u>

There was no material unprovided deferred taxation for the Three-Month Period and Fifteen-Month Period (three months ended 30th September, 2003 and twelve months ended 30th June, 2003: Nil).

4. Dividend

The Board does not recommend dividend payment for the Three-Month Period (three months ended 30th September, 2003: Nil).

5. Earnings/(loss) per Share

The calculation of the basic and diluted earnings/(loss) per Share is based on the following data:

	Three-Month Period HK\$'000	Three months ended 30th September, 2003 HK\$'000	Fifteen- Month Period HK\$'000	Twelve months ended 30th June, 2003 HK\$'000

REVIEW OF BUSINESS ACTIVITIES

Networks Infrastructure

Sluggish capital spending by telecommunications service providers on data networking infrastructure and increasing competition from local equipment manufacturers in Mainland China continued to put pressure on the networks infrastructure business of the Group in Mainland China during the Three-Month Period. Nevertheless, as the Group moved into the end of 2004, it witnessed a slight comeback of capital spending by telecommunications service providers. As at 30th September, 2004, the Group has secured over HK\$60 million from various telecommunications service providers and enterprises, including Heilongjiang Cable TV operator, Zhejiang China Telecom and Guangdong China Telecom.

The strong business momentum of Macao continued to provide numerous business opportunities for the Group. During the Three-Month Period, the Group concluded a contract to provide the networking infrastructure at the core dome that will host major events during the 2005 East Asian Games and the project, which the Group partnered with Motorola Asia Pacific Limited, for the supply of a digital TETRA radio system for the police department of the Government of Macao.

Aggregate value of total contracts awarded as at 30th September, 2004, including Mainland China and Macao, amounted to over HK\$130 million.

During the Three-Month Period, TideStone in Shanghai continued to successfully capitalize on the customer base of the Group by cross selling its Operation Support System to Chongqing China Telecom and being awarded a contract.

MIHL

During the Three-Month Period, in addition to the continued development and enhancement of existing applications of MIHL, including MegalImage (document imaging application), MegaMax (surveillance solution), MegaERP (enterprise resources planning application) and MegaECM (effective communications management solution), to capitalize on the business opportunities brought from the introduction and promotion of e-government by the Government of Macao and the upcoming 2005 East Asian Games, MIHL has completed development of two new applications, namely an automatic traffic clearance system, which deploys the image counting application, to accommodate patrol of traffic, and a hospitality and logistics management system, which is a database and management system that handles mass volume of registrations, identification confirmations, accommodation, transportation, etc. With the vision of the Government of Macao to position Macao as an entertainment, gaming and tourism city, as well as an international city for hosting MICE, the 2 newly developed applications best-fit organizers of MICE to handle logistics arrangements and the security/police force to manage flow of traffic.

TCM

Our 60%-owned Subsidiary, TCM, continued to focus on media, enterprise communications, entertainment for consumers and direct marketing markets and is engaged in the provision of multi-media value-added services via IVR, interactive internet solutions and premium SMS. Supported by the IVR and SMS platforms of the Group, the rollout of interactive television and radio programs continued to be very successful. During the Three-Month Period, TCM supported a television operator in the Kingdom of Spain, to roll out various new television shows and supported radio stations to roll out a Call&Win radio program. The radio program is sponsored by a Spanish leading travel agent, that offers callers the chance to win different worldwide trips by calling in. In respect to SMS business, TCM introduced the “family names coat of arms” and has received positive responses with over hundreds of SMS per day during trail launching.

CAOCL

During the Three-Month Period, the Group acquired one of the leading distributors of mobile handsets in Macao. With an established distribution network of over 100 local mobile handsets retailers, CAOCL is the authorized distributor of mobile handsets of Siemens Mobile from the Federal Republic of Germany, Alcatel from the French Republic and LG, Pantech, Innostream and GEO from the Republic of Korea. CAOCL is also one of the largest mobile handsets repair and service centres in Macao, serving both retailers and telecommunications service providers.

The acquisition of CAOCL is another transformation move of the Group to broaden the business scope of the Group and a means to secure a more stable and recurring revenue base. The acquisition of CAOCL has also provided a solid foundation for the Group when tendering for the CDMA2000 1X services licence in Macao.

With rapid development in industries of gaming, tourism, conventions and exhibitions, and the hosting of large-scale sports and cultural activities, the Government of Macao is expecting that Macao will attract a large number of tourists and visitors for business or pleasure from all over the world. In anticipation that tourists and visitors may not necessarily adopt the GSM standard, therefore, the Government of Macao has introduced a CDMA2000 1X services licence so that tourists and visitors adopting the CDMA standard can still stay connected during their visits in Macao. As a means to further diversify our portfolio and strengthen the revenue base of the Group, it has submitted a bid to tender for the CDMA2000 1X services licence. It is expected that the result of the tender will be announced before end of March 2005.

REVIEW OF OPERATING RESULTS

Change of Financial Year End

To realign the financial and taxation year-end of the Subsidiaries of the Company, the financial year-end of the Company has been changed from 30th June to 31st December. Therefore, this report contained the fifth quarterly results of the Group for the Three-Month Period. Financial statements for 18 months ended 31st December, 2004 will be published and sent to Members on or before 31st March, 2005.

Turnover and Profitability

During the Three-Month Period, despite lowered turnover from our networks infrastructure business, revenue contribution from TCM and CAOCL effectuated turnover for the Three-Month Period to reach HK\$89.7 million and turnover for the Fifteen-Month Period to reach HK\$465.3 million. Nevertheless, attributable to weak operating results from networks infrastructure business of the Group, coupled with the share of loss of TCM due to poor responses to some advertising campaigns launched in the market during the Three-Month Period, amortization of the goodwill arose from the acquisition of TCM and the share of the loss of MIHL, total loss for the Three-Month Period amounted to HK\$10.9 million. Overall, attributable to the gains on disposal from spinning off of MIHL, we continued to registered net profit for the Fifteen-Month Period of HK\$10.0 million.

Capital Structure, Liquidity and Financial Resources

Despite weakened operating results for the Three-Month Period, the Group continued to maintain a healthy capital structure with cash on hand as at 30th September, 2004 of HK\$236.5 million. Total borrowings amounted to HK\$145.4 million, translating to a gearing ratio (total borrowings/shareholders' funds) of 40.6%.
