#### CHARACTERISTICS OF GEM

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Exchange. Listed companies are not generally required to issue paid announcements in Gazetted Newspapers. Accordingly, prospective investors should note that they need to have access to the GEM Website in order to obtain up-to-date information on GEM-listed issuers.

#### Notes:

#### 1. Basis of preparation and accounting policies

These unaudited condensed consolidated accounts were prepared in accordance with HKAS 34 "Interim Financial Reporting" issued by the HKICPA.

These unaudited condensed consolidated accounts should be read in conjunction with the accounts for the eighteen months ended 31st December, 2004.

The HKICPA undertook to converge by 1st January, 2005 all HKFRS with IFRS issued by the IASB. As a result, the HKICPA aligned HKFRS with the requirements of IFRS in all material respects as at 31st December, 2004.

In 2005, the Group adopted all HKFRS pertinent to its operations. The applicable HKFRS are set out below:

HKAS 1	Presentation of Financial Statements
HKAS 2	Inventories
HKAS 7	Cash Flow Statements
HKAS 8	Accounting Policies, Changes in Accounting Estimates and Errors

HKAS 10	Events after Balance Sheet Date
HKAS 12	Income Taxes
HKAS 14	Segment Reporting
HKAS 16	Property, Plant and Equipment
HKAS 17	Leases
HKAS 18	Revenue
HKAS 19	Employee Benefits
HKAS 21	The Effects of Changes in Foreign Exchange Rates
HKAS 23	Borrowing Costs
HKAS 24	Related Party Disclosures
HKAS 27	Consolidated and Separate Financial Statements
HKAS 28	Investments in Associates
HKAS 32	Financial Instruments: Disclosure and Presentation
HKAS 33	Earnings per Share
HKAS 34	Interim Financial Reporting
HKAS 36	Impairment of Assets
HKAS 37	Provisions, Contingent Liabilities and Contingent Assets
HKAS 38	Intangible Assets
HKAS 39	Financial Instruments: Recognition and Measurement
HKFRS 2	Share-based Payments
HKFRS 3	Business Combinations
HKAS-INT 15	Operating Leases — Incentives
HKAS-INT 21	Income Taxes — Recovery of Revalued Non-Depreciable Assets

The adoption of HKAS 1, 2, 7, 8, 10, 12, 14, 16, 18, 19, 21, 23, 24, 27, 28, 33, 34, 37, HKAS-INT 15 and 21 did not result in substantial changes to the accounting policies of the Group. In summary:

- HKAS 1 affected certain presentation in the consolidated balance sheet.
- HKAS 8, 16, 21 and 28 affected certain disclosure of the accounts.
- HKAS 2, 7, 10, 12, 14, 17, 18, 19, 23, 27, 33, 34, 37, HKAS INT-15 and 21 did not have any impact as the accounting policies of the Group already complied with the standards.
- HKAS 24 affected the identification of related parties and the disclosure of related party transactions.

The early adoption of HKFRS 2 would result in a change in accounting policy for employee share options. Prior to this, the provision of share options to employees did not result in a charge to the profit and loss account. Following the adoption of HKFRS 2, the fair value of share options at grant date was amortised over the relevant vesting periods to the profit and loss account.

The adoption of HKFRS 3, HKAS 36 and HKAS 38 resulted in a change in the accounting policy for goodwill. Prior to this, goodwill was:

- amortised on a straight-line basis over a period of not exceeding ten years; and
- assessed for impairment at each balance sheet date.

In accordance with the provisions of HKFRS 3:

- the Group ceased amortisation of goodwill from 1st January, 2005;
- from the year ended 31st December, 2004 onwards, goodwill was tested annually for impairment, as well as when there are indications of impairment.

The adoption of HKAS 32 and HKAS 39 resulted in a change in accounting policy for recognition, measurement, derecognition and disclosure of financial instruments. Until 31st December, 2004, investments of the Group were classified into non-trading securities and trading securities, and were stated in the balance sheet at fair value.

In accordance with the provisions of HKAS 39, the investments were classified into available-for-sale financial assets, financial assets at fair value through profit or loss and loans and receivables (which include bank deposits and cash and cash equivalents). The classification depends on the purpose for which the investments were held.

All relevant changes in the accounting policies have been made in accordance with the provisions of the respective standards, which retrospective application was not applicable to prior period comparatives other than HKAS 39 redesignating all investments into available-for-sale financial assets on 31st December, 2004.

The accounting policies and methods of computation used in the preparation of these accounts were consistent with those used in the accounts for the eighteen months ended 31st December, 2004.

#### 2. Segment information

#### Business segments

The Group was organised into three main business segments:

- Design, sale and implementation of data networking systems, provision of related engineering services and sales of goods;
- Provision of digital image processing management solutions; and
- Provision of multimedia value-added services via IVR, interactive internet solutions and premium SMS.

There are no significant sales or other transactions between the business segments.

#### 3. Deemed disposal gain for separate listing of MIHL

On 19th January, 2004, Shares of MIHL were listed and traded on GEM by this issue of new Shares of MIHL. As a result, the shareholding of the Company in MIHL had been diluted to 61.05%, which resulted in a gain of approximately HK\$10,769,000 arising from this deemed disposal.

#### 4. Depreciation, amortisation and cost of goods sold

During the Six-Month Period, depreciation of HK\$4,160,000 (six months ended 30th June, 2004: HK\$2,427,000) was charged in respect of the fixed assets of the Group, and amortisation of HK\$107,000 (six months ended 30th June, 2004: HK\$701,000) was charged in respect of the research and development cost of the Group. The cost of goods sold for the Six-Month Period was HK\$111,598,000 (six months ended 30th June, 2004: HK\$141,280,000).

#### 5. Taxation

Hong Kong profits tax had been provided at the rate of 17.5% on the estimated assessable profit for the Six-Month Period. Taxation on overseas profit had been calculated on the estimated assessable profit for the Six-Month Period at the rates of taxation prevailing in the regions in which the Group operated.

#### 6. Dividends

				6,413	

#### Notes:

- (a) On 19th December, 2003, the Board approved the payment of a special interim dividend as part of the proposal for the separate listing of MIHL by way of a distribution in specie in respect of an aggregate of 13,375,000 Shares of MIHL to the Members, where every 46 Shares were entitled to 1 Share of MIHL.
- (b) On 13th February, 2004, the Board approved an interim dividend of HK\$0.005 per Share to the Members whose names appear in the Register of Members on 5th March, 2004.
- (c) The Directors do not recommend the payment of a dividend for the Six-Month Period.

#### 7. Loss/(earnings) per Share

The calculation of basic loss per Share was based on the loss attributable to Members of HK\$19,441,000 (six months ended 30th June, 2004: profit of HK\$17,532,000) and the weighted average of 613,819,000 Shares (six months ended 30th June, 2004: 613,819,000 Shares) in issue during the Six-Month Period.

No diluted earnings per Shares for the Six-Month Period and the six months ended 30th June, 2004 was presented as the exercise of the outstanding share options of the Company would have an anti-dilutive effect.

#### 8. Trade and bills receivables

The credit terms granted to customers varied and were generally the result of negotiations between individual customers and the Group. Customers were generally required to pay at various intervals over the life of the projects. As at 30th June, 2005, the ageing analysis of the trade and bills receivables were as follows:

	As at 30th June, 2005 <i>HK</i> \$'000	As at 31st December, 2004 <i>HK</i> \$'000

## MANAGEMENT DISCUSSION AND ANALYSIS

#### Material acquisitions and disposal

The Group had material acquisition and disposals during the Six-Month Period, other than the exercise of HK\$1,200,000 convertible bonds previously issued by Mobile Telecom Network (Holdings) Limited (incorporated in Cayman Islands with limited liability and whose shares of US\$0.01 each in its capital are listed on GEM) into 15,384,615 new shares.

#### Capital commitments and significant investments

As at 30th June, 2005, the Group did not have any significant capital commitments and significant investments.

#### **Employee information**

As at 30th June, 2005, the Group had 252 employees spreading in Macao, Hong Kong, Mainland China and Europe. Total remuneration of all employees amounted to HK\$27,112,000.

The remuneration and bonus policies of the Group are basically determined by the performance of individual employees.

The Company and MIHL adopted different share option schemes, whereby certain employees of the Group may be granted options to acquire the Shares.

The Group also provides various training programmes and technical orientation, both internal and external, for technical employees and marketing employees so as to improve their overall qualification and to continuously keep them abreast of industry and technological changes.

#### Charges on group assets

As at 30th June, 2005, the Group did not have any charges on assets of the Group.

#### Details of future plans for material investments or capital assets

The Group is now evaluating a collaboration arrangement with an internet content provider in Mainland China which will allow TCM to enter into the IVR and SMS business in Mainland China and to enhance cross-selling opportunities between Mainland China and Europe.

#### Foreign exchange exposure

The Group mainly earns revenue and incurs cost in HK\$, Macao patacas, US\$,  $\in$  and RMB. The Directors consider that the impact of foreign exchange exposure of the Group is minimal.

## **Contingent liabilities**

As at 30th June, 2005, the Group did not have any contingent liabilities.

#### **Business review**

As anticipated, operating environment for the construction of data network infrastructure in Mainland China remained stagnant, which continued to pose challenges and pressure on margins to the Group. Despite so during the Three-Month Period, the Group has completed the contracts for Guangdong China Telecom, Zhejiang China Telecom and Shenzhen China Telecom and has also successfully secured contracts from other telecommunications service providers, including Beijing China Telecom, Shanghai China Telecom and Chongqing China Telecom.

During the Three-Month Period, the OSS developed by TSTSH continued to receive well response and successfully awarded projects from Xinjiang China Telcom and Guangdong China Telecom to expand the installed OSS of TSTSH to phase 2 and phase 3 respectively. Total value of these expansion projects amounted to approximately HK\$4,700,000.

Macao continued to offer numerous business opportunities to the Group, in particular with the Government of Macao and the gaming operators now investing heavily on infrastructure projects. During the Three-Month Period, with respect to the upcoming East Asian Games, in addition to securing a contract to build its networking infrastructure, the Group has also successfully secured other contracts, including a contract in the amount of approximately HK\$43,424,000 to build a data centre for the East Asian Games, and via MIHL, a contract in the amount of approximately HK\$19,600,000 for the provision of a hospitality system, system integration and project management. With the opening of the East Asian Games in October 2005, the Group is also in the progress of completing the installation of the TETRA system for FSM thus allowing this security system to be operational during the East Asian Games.

To capitalise on the opportunities from the gaming operators and hotel operators, VHL has partnered with MIHL on the bidding of various projects so as to provide a total and complementary solution to these gaming operators. VHL will continue to provide infrastructure systems, such as structured cabling, networking and surveillance, whereas MIHL will focus on the provision of a series of extra-low voltage systems, including systems such as closed circuit television ("CCTV"), public automatic branch exchange ("PABX"), cabling, public address, access control, et cetera.

During the Three-Month Period, STASA moved into a new office, allowing cost savings to its monthly rental to the achieved. Leveraging on its technical competence and reliable services, STASA has won another project from one of the three largest television stations in Spain to roll out a nation wide Call&Win project to win five cars, generating over 400,000 minutes of traffic over our platform. STASA is one of the most experienced companies in Spain in the provision of Call&Win services, in particular to television stations. Today, STASA is the only company that provides Call&Win services to all the three major television stations in Spain.

TCM has successfully completed a six-month trial program with a major lottery company in the Netherlands with further discussions in progress to roll out future programs. In addition, TCM has launched Chinese contents in their website to strengthen its contents portfolio and to tap the Chinese communities in Europe.

During the Three-Month Period, to further leverage on the established market experience and presence in selected markets and strong technical capabilities, TCM has been actively exploring collaboration with content providers and applications developers in the Republic of Finland, the United Kingdom of Great Britain and Northen Ireland, the French Republic and the Netherlands for the development of new applications and services for the markets in the Federal Republic of Germany, the Netherlands and Spain. TCM has also confirmed its strategic move to enter into the IVR and SMS business in Mainland China to further expand its geographic footage and to enhance cross-selling opportunities. A collaboration arrangement with a Chinese internet content provider is currently in progress.

#### **Turnover and Profitability**

During the Three-Month Period and Six-Month Period, turnover of the Group has been adversely affected by slower business from Mainland China in relation to the construction of data networking infrastructure. Nevertheless, with the consolidation of the results of TCM and Communications Appliances Ou Chung Limited (incorporated in Macao with limited liability and an indirect wholly-owned subsidiary of the Company), turnover for the Three-Month Period increased 40.76% as compared to the corresponding period ended 30th June, 2004 and turnover for the Six-Month Period represented a slight decrease of 5.51% as compared to the corresponding period. Though the Group has secured a handful of contracts in Macao from the Government of Macao and gaming operators, as most of these projects are currently in the construction phase, therefore, turnover from these projects have only been partially recognised during the Three-Month Period.

With increasing competition continuous to put pressure on margins of data networking infrastructure projects in Mainland China and with trading of mobile phones carrying lower margins, gross margin for the Three-Month Period amounted to HK\$12,439,000 as compared to HK\$16,509,000, with gross margin for the Three-Month Period dropped by 24.65% as compared to corresponding period ended 30th June, 2004.

With the consolidation of the operating results of both MIHL and TCM, selling and administrative expenses increased considerably from HK\$33,784,000 to HK\$59,269,000 for the Six-Month Period. Together with turnover and profit from the projects in Macao only partially recognised, the Group reported a net loss of HK\$19,441,000 for the Six-Month Period.

## Capital Structure, Liquidity and Financial Resources

Despite reporting a net loss during the Six-Month Period, the Group continued to maintain a healthy capital structure with cash on hand as at 30th June, 2005 amounted to HK\$199,426,000, this balance of which taken into account the first repayment of US\$3,750,000 (approximately HK\$29,175,000) made against the US\$15,000,000 (approximately HK\$116,700,000) term loan during March, 2005. As at 30th June, 2005, although total borrowings totaled HK\$165,119,000, translating to a gearing ratio (total borrowings / Members' funds) of 108.6%, the Group had net cash (cash balances plus US\$5,000,000 (approximately HK\$38,900,000) yield enhanced bonds less short-term and long-term loans) of approximately HK\$73,200,000.

Inventory level increased from HK\$47,592,000 to HK\$75,387,000, the increment of which attributed primarily to equipment for the FSM project received during end of June, 2005. With respect to receivables, keeping tight control on collection remained.
