#### NOTES

#### 1. Principal Accounting Policies

The Group's unaudited condensed consolidated results have been prepared in accordance with the new Hong Kong Financial Reporting Standards ("HKFRSs") and Hong Kong Accounting Standards ("HKASs") and interpretations issued by the Hong Kong Institute of Certified Public Accountants.

The condensed financial statements have been prepared under the historical cost convention, as modified for the revaluation of intangible assets, and in accordance with accounting principles generally accepted in Hong Kong.

The accounting policies adopted are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2006.

#### 2. Business Segments

For management purposes, the Group is currently organised into two main operating segments, namely financial services and investment holding. Financial services comprises securities broking, underwriting and share margin financing services.

Both financial services and investment holding are based in Hong Kong. The business segments are shown as follows:

#### 5. Taxation

No provision for Hong Kong Profits Tax was made for both periods as the Group either had no assessable profits arising in Hong Kong or the assessable profits were wholly absorbed by tax losses brought forward for the two periods ended 30 June 2007 and 2006.

As at 30 June 2007, the Group has estimated unused tax losses of approximately HK\$279 million (2006: HK\$265 million) available for offset against future profits. No deferred tax asset has been recognised in respect of such losses due to the unpredictability of future profit streams, and no deferred tax liabilities in respect of accelerated depreciation allowance have been recognised as the amount involved is insignificant.

#### 6. Loss Per Share

The calculation of basic loss per share is based on the loss for the period of approximately HK\$13,130,000 (2006: HK\$6,162,000) and 1,541,507,296 (2006: 1,457,527,296) shares in issue during the period.

#### 7. Litigation

On 6 June 2007, a winding up petition ("Winding Up Petition") was served on the Company by a petitioner ("Petitioner"). It was alleged in the Winding Up Petition that the Company was indebted to and had failed to satisfy the Petitioner of a debt in the amount of approximately HK\$70,270,000 as at 26 April 2007 together with interest thereon. Including in the amount claimed is a loan payable of approximately HK\$58,084,000 and an accrued interest of approximately HK\$12,186,000. The right to the alleged debt under a repayment agreement dated 27 April 2004 entered into between the Company and a former creditor was alleged to have been assigned by the former creditor to the Petitioner in February 2007. After having sought legal advices, the Company strenuously protested the Winding Up Petition.

As the Company is opposing the Winding Up Petition, the court adjourned the hearing to 15 October 2007. Based on a review of the current operations of the Group, the Winding Up Petition has not had any material adverse impact on the current operations of the Group since the date of its service on the Company on 6 June 2007.

# **INTERIM DIVIDEND**

The Board does not recommend the payment of an interim dividend for the six months ended 30 June 2007 (2006: Nil)

# MANAGEMENT DISCUSSION AND ANALYSIS

## **Business Review & Outlook**

The Group recorded a revenue of approximately HK\$5.02 million for the six months ended 30 June 2007 compared to the revenue of approximately HK\$2.76 million for the corresponding period in 2006. The basic and diluted loss per share for the six months ended 30 June 2007 was HK0.85 cents, compared with the basic and diluted loss per share of HK0.42 cents for the previous period.

In the first half of the year 2007, results of the Group's securities business increased significantly when compared to the corresponding period last year. One major reason is the good market condition, and another reason is to raise operation efficiency so as to provide the best service and terms to the customers.

On 6 June 2007, a Winding Up Petition was served on the Company by a Petitioner, and the Company is opposing the Winding Up Petition, the court adjourned the hearing to 15 October 2007. Based on a review of the current operations of the Group, the Winding Up Petition has not had any material adverse impact on the current operations of the Group since the date of its service on the Company on 6 June 2007.

Looking forward to the second half of the year 2007, as the Chinese government approves, launches and implements policies to allow qualified institutions in Mainland to invest in other boundaries and the opening up of individual direct investment in Hong Kong shares, we expect that Hong Kong's stock market will remain active. However, as keen competition in securities brokerage business persists, we will grasp the vigorous development opportunities in China, work to consolidate the basis of securities investment and increase the Group's stable income.

## Liquidity, Financial Resources and Gearing Ratio

As at 30 June 2007, the Group had net current liabilities of approximately HK\$43,778,000 (31 December 2006: HK\$60,717,000) and had cash and cash equivalents of approximately HK\$14,058,000 (31 December 2006: HK\$12,432,000). During the six months ended 30 June 2007, the Group has not made any bank borrowings (31 December 2006: Nil).

The Group's gearing ratio is 1.32 as at 30 June 2007 as compared with 1.44 as at 31 December 2006. The gearing ratio is calculated by dividing total liabilities by total assets.

## **Capital Structure**

## **Treasury Policies and Foreign Exchange Exposures**

The business activities of the Group are mainly funded by shareholders' fund and cash generated from operating activities.

Foreign currency risk should not be significant to the Group since substantial assets and liabilities are either denominated in Hong Kong dollars or Renminbi which were quite stable during the six months ended 30 June 2007. No financial instruments have been employed for hedging purposes by the Group.

The Group is not exposed to significant capital market risk as the Group does not have material equity investments.
