MANAGEMENT DISCUSSION AND ANALYSIS

Financial Review

For the six months ended 30th September 2006, the Group's unaudited loss attributable to shareholders amounted to approximately HK\$3 million, while it recorded a loss attributable to shareholders of approximately HK\$32 million for the corresponding period in 2005. The significant decrease in losses was mainly due to (i) prior years' effect of changes in the accounting policies in respect of the Group's investment securities; (ii) disposal of loss-operating subsidiary; (iii) implementation on cost control.

In prior period, the Group adopted a number Hong Kong Accounting Standards which had been effective for accounting periods commencing on 1st January 2005. In accordance with the adopted Hong Kong Accounting Standards, the Group's investment securities had to be revalued to its fair value. As a result, difference of approximately HK\$29 million between the cost and the fair value were required to recognised in the income statement in prior period which led to the significant loss incurred for the six months ended 30th September 2005. For the period under review, such significant change will not be envisaged.

Apart from the effect of significant loss incurred for the changes in accounting standards, the Group has disposed a loss making subsidiary which previously had incurred a loss of approximately HK\$3 million from its apparel sourcing operation. In addition, the Group has implemented cost control on corporate and operating levels. This would help to strengthen the Group's cashflow positions in near term.

The loss per share for the six months ended 30th September 2006 amounted to approximately 1 HK cent, while it recorded a loss per share of 9.9 HK cents for the last corresponding period in 2005, representing a decrease of approximately 90% compared with the same period in last year.

Business Review

The Group is principally engaged in (i) apparel sourcing, (ii) apparel trading and (iii) sales support services.

Apparel sourcing

For the six months ended 30th September 2006, no turnover derived from apparel sourcing services while it was approximately HK\$3 million in last corresponding period in 2005. It was because the Group has disposed such loss operating activity. The main reason for such disposal was due to fierce competition in marketing and PRC entry to World Trade Organisation. However, the Group is keen to establish its own apparel sourcing business if the opportunity exists.

Apparel trading

During the period under review, an unaudited segment turnover for the six months ended 30th September 2006 amounted to approximately HK\$23 million and recorded a loss of approximately HK\$3 million while it posted both turnover and profit of approximately HK\$26 million and HK\$1 million respectively in last correspondent period in 2005. The Group experienced lower than expected customers turnout rate and high rental costs which led to a loss in the period under review.

Sales support services

During the period under review, no turnover derived from the provision of sales support services (2005: Nil). For the purpose of cost effectiveness, the Group scaled down the operation of sales support services to minimum level.

PROSPECT

Looking forward, the Group is in the progress of looking for profitable business that would bring in stable return to the Company and its shareholders. In addition, the Company will follow its new control of cost measure to maintain cost at acceptable level for our existing businesses. We will continue to explore potential markets for our apparel operations if the opportunity exists.

Other than the aforementioned, the Group will continue to explore and identify investment and acquisition opportunities so as to enhance shareholders' value.

The Group serviced its debts primarily through cash generated by operations, bank borrowings and fund advanced by certain director. The Group's had no bank borrowings as at 30th September 2006 (31st March 2006: HK\$5,950,000) The Group does not have any bank overdrafts and banking facilities obtained during the period under review.

Gearing ratio, calculated as the bank borrowings divided by shareholders equity was not applicable as the Group had no bank borrowings as at 30 September 2006 (31st March 2006: 1.83 times).

The current ratio of the Group, calculated by dividing the current assets by the current liabilities, was approximately 0.67 times as at 30th September 2006 (31st March 2006: 0.64 times). Inventory turnover days for the six months ended 30 September 2006 were 147 days (for the six months ended 30 September 2005: 186 days). The Board of Directors is in the opinion that both gearing ratio and current ratio were at an acceptable level.

CORPORATE GOVERNANCE

The Company has complied with the applicable code provisions of the Code on Corporate Governance Practices (the "Code") as set out in Appendix 14 of the Listing Rules throughout the six months ended 30 September 2006 except for the deviations as detailed in the Company's last annual report as follows:

- (a) Code provision A1.3 stipulates that 14-days notice should be given for each board meeting. The Company agrees that sufficient time should be given to the Directors in order to make a proper decision. In these respects, the Company adopts a more flexible approach (and yet sufficient time has been given) in convening board meetings to ensure efficient and prompt management decisions could be made.
- (b) Code provision A4.1 stipulates that non-executive directors should be appointed for a specific term, subject to re-election. The Company deviates from the above code provision as the independent non-executive Directors ("INEDs") are not appointed for specific terms. According to the bye-laws of the Company, however, the INEDs are subject to retirement and re-election. The reason for the deviation is that the Company believes that the Directors ought to be committed to representing the long term interest of the Company's shareholders.

(c) Code provision A4.2 stipulates that every director should subject to retirement by rotation at least once every three years. According to the bye-laws of the Company, one-third of the Directors shall retire from office by rotation provided that the Chairman, Deputy Chairman or managing Director shall be subject to retirement by rotation. The Company's bye-laws deviate from the code provision. The Company considered that the continuity of the Chairman/Deputy Chairman/managing Director and their leadership is essential for the stability of the business and key management. The rotation methodology ensures a reasonable proportion of Directors in continuity which is to the best interest of the Company's shareholders.
